I have two questions:

1) Was there any correspondence or meeting between Sir Eric Gairy, former Prime Minister of Grenada and President Reagan?

2) President Reagan invaded Grenada in 1983. I am interested in briefing material that was presented to the President on Grenada. When was he first briefed, and is this material processed. I would like to view it when I come to the Library March 12, 2001

Dear Mr. Cameron:

This is in response to your August 6, 2000 request for access under the Freedom of Information Act (FOIA) (5 U.S.C. 552, as amended), for Reagan Presidential records pertaining to correspondence between Major General Robert Schweitzer and Richard Allen relating to the firing of Schweitzer in October 1981. Your request was forwarded to the Reagan Library and received on August 24, 2000. FOIA requests for Reagan Presidential records are processed and reviewed for access under provisions of the 1978 Presidential Records Act (PRA) (44 U.S.C. Chapter 22, Section 2204).

We have completed a search of Reagan Presidential records and are unable to locate any correspondence between Major General Schweitzer and Richard Allen regarding the firing. If you consider my response to be a denial of your request, you may appeal by writing Dennis Daellenbach, Assistant Director, Ronald Reagan Library, 40 Presidential Drive, Simi Valley, CA 93065, within 35 days of the date of this letter. Both the letter and the envelope should be clearly marked "PRA/FOIA Appeal."

We did locate and process 39 pages of other Presidential records relating to Major General Schweitzer's firing. The Library staff, under the provisions of Presidential Records Act (PRA), will now provide notification of this opening to the representative of the former President and the incumbent President. These representatives have 30 days to respond prior to release of any documents. When this is completed, we will notify you of the availability of the records requested.

If you have any questions regarding your FOIA request, please contact me (1-800-410-8354).

Dear Mr. Cameron:

This is in response to your four Freedom of Information Act (FOIA) requests all dated August 13, 2000, for correspondence or photographs from the Nixon Presidential Materials, the Gerald R. Ford Presidential Library and the Ronald Reagan Presidential Library. We received your requests on August 21, 2000.

We referred your request for a photograph of President Nixon with Jackie Gleason to the Nixon Presidential Materials Staff for appropriate handling and response. We also sent your request for correspondence between President Ford and Jackie Gleason to the Gerald R. Ford Library in Ann Arbor, Michigan. Your requests for a photograph of President Reagan with Steven Spielberg, and correspondence with Jackie Gleason were forwarded to the Ronald Reagan Presidential Library in Simi Valley, California. These presidential libraries will respond directly to your requests, since the materials are located at the presidential libraries.

Please be advised the FOIA does not apply to President Nixon's presidential papers, which are governed by the Presidential Recordings and Materials Preservation Act; President Ford's materials are governed by his deed of gift donating his papers to the United States.

This is not a denial of your request. If you believe that it is, you may appeal these decisions by writing to the Deputy Archivist of the United States (ND), Room 4200, at the above address, and briefly state the reasons why you think it does not meet the requirements of the FOIA. Your letter and the envelope should be clearly marked "Freedom of Information Act Appeal." The appeal should include a copy of the initial request and denial, and must be received no later than 35 calendar days after the date of the denial letter.

If you are dissatisfied with the results of this appeal, judicial review is available to you in the United States District Court for the judicial district in which you reside or have your principal place of business, in the district where the records are located, or in the District of Columbia.

Enclosed is a brochure "Presidential Libraries of the National Archives System" for your convenience. You will note that the addresses and telephone numbers to each of the presidential libraries is listed on the brochure. We suggest that you contact the presidential libraries to determine if the information you are requesting is already available for research use and the fees for any reproductions.

Sincerely,

August 18, 2000

Dear Ms. Davis,

I have written to ask you a simple question, and I hope you will take a minute from your busy schedule to provide me an answer. I am working on a manuscript, and a part of the manuscript is an appendix which deal with US Presidents and their views, involvements, and statements on UFOs. (there are surprisingly a large number of them)

Lou Cannon, in his book *President Reagan: The Role of a Lifetime* said, "Patti Davis describes her father as fascinated with stories about unidentified flying objects and the possibility of life on other worlds."

In the epilogue of your book *The Way I See It* you described how your father would take you out and tell you about the constellations. It appears that you clearly understand your father's views in this area.

As you probably know Presidents once briefed on the subject as in office never speak about the subject again - at least in public. This was particularly true of your father and President Carter who both had UFO sightings prior to becoming President. Carter and Ford were both very vocal about UFOs prior to being elected.

I hope you can elaborate on what Cannon wrote about your father's view on the subject, and about the sightings he had prior to being President. You probably don't know much about the truth of the situation that he received in his Presidential briefing.

This may not seem like a critical issue to you, and this I can understand. However, if you chose not to answer me, I hope you will take the time to discuss the issue with Daniel Sheehan who I am sure you know, because of his involvement with the Karen Silkwood case, his exposing of Oliver North, his involvement with Three Mile Island, his involvement in the defense of the New York Times in the Pentagon Papers case, and the Watergate Burglary Case. Mr. Sheehan has described

UFOs as **“probably the most important single public policy issue in the entire world.”** Further he had described the cover-up of the facts as “profoundly unconstitutional.”(I can provide any of three - three hour interviews that Sheehan has done on the subject in the last year)

Daniel can describe for you efforts he made for President Carter to get the answers, and he can describe evidence he viewed that indicated to him how important this issue is in this the 21st century.

My involvement is simply to list stories surrounding Presidents from Truman to Clinton - their sightings, statements and letters while in office, and stories which clearly indicate the military industrial complex (not the President) now controls the information. Mine is a simple book looking at Presidential involvement. Sheehan is the person who has a plan to force the issue into the open.

I have enclosed Daniel's contact information and contact information for myself. I have also enclosed two e-mail addresses I use which might make it easier for you to answer. I hope you will consider helping. If you require a draft of what I have written so far on your father or any other President I would be happy to provide it.

Thank-you.

Dear Ms. Quigley,

I read with interest your book which recounted your advise given to Mrs. Reagan and the President. I appears that history will show your advise was correct.

I would like to know if UFOs ever came up in your discussions with the Reagans. I am writing a manuscript that has an appendix dealing with the Presidents and UFOs. As well as astrology, Mr. Reagan was very interested in UFOs and had at least two sighting prior to being President. Like astrology, very little has been said about the subject because of the way that it would play in the press. I know you clearly understand this.

I hope you can help. I have two e-mails which might make it easier to answer my request.

Thank you for your recent request regarding Dan Fry.
 We have conducted a search of the Reagan Presidential

If you are looking for correspondence that occurred
 during the 70's, the records would not be considered
 Presidential records. We have a small amount of Ronald

Dear Mr. Cox,

This letter I think you will find correspondingly from the front page of the Historical Engineer. I think that if you recall our previous discussions on disinformation you will find the enclosed mime examples.

Cain asked not to release this to you or anyone else until we got a handle on it. I have written him to tell him I am out of the confidentiality business, which he seems more to destroy us, much than anything else. I reminded him that if I had kept Sturman's original confidence, he would know nothing about this. Like if Sturman had released the Sackler letter years ago when he got it, we would have been able to confront Sackler with the stories being told about him by Laura and Edison.

I hope you can act as an objective observer of all this material as it develops. If the roof falls in, I have you as a witness of what occurred. Most importantly I will stop telling to new people the investigation is over.

Cain wants to approach Walker with the help of Mr. Louis Walker, department head of history at Penn State. They are hard to get more P.S. I suggested some time back he go after people at Penn State who knew or worked with Walker. Nothing has happened on this front, and I am preparing to do this myself.

When you read that the Gulf Breeze incident it has turned into an old, it was a question of finding, change, and change. I have a good deal to know for the story, but I am not sure I can find out under the same name as I am.

cancelled as he did with the Robinson vs. comparison. Lawrence did talk to Antonio Munoz (who wrote the Progression comment article) about the Schweitzer / Van Kleeft letter. Munoz stated it is legit as he saw the envelope. Shortly after receiving it the Associated Press was contacted and they set back a story. The AP contacted Schweitzer at the time, confronting him with the letter. Schweitzer stated it was a mistake and should never have gone out. Because the word was stated opposite in the letter the story was dropped. He was however aware of the long clearly outlined VC letter that included the response.

I have misplaced the Cain / Green correspondence which I will find. It is in one of 50 piles of papers.
