

were only two contacts. Direction for the anti-gravity experiment came from the same source according to Bridge and yet everyone covers for the source. This doesn't even touch TALA, or how many contactees there were, or how they checked the information.

Yet I recall Mrs. Smith talked very openly of AFFA, and I phoned a technician who ^{who so} worked at the ionospheric station at Shirley Bay in New Brunswick a few days back. He maintains talk of AFFA was frequent as well.

Don't know if I asked you before. What type of cancer did Wilbert have?

One last item. Have made many requests for the Project name on the Top Secret Suffield Landing Base. One request was thro' MP Lloyd Apworth. He claims to have made a couple requests in defense but came up with nothing (whatever that means) The Project name, I suppose, he wrote, will remain a mystery. Very comforting. I was beginning to believe there was no Canadian cover-up and maybe they really didn't know anything. Nothing like a challenge.

A. Kent.

P.S. After reading Smith's letter for the 20th time I noticed "full cooperation is being given by DRB and National Research Council." This backs idea MacKenzie saw the NDU 21 memo.

Do you have the original Jan 6, 51 Canadian Embassy letter or a copy? If you have the original I don't imagine D.O.T. would have a record of this correspondence.
