

1187 Agincourt Road,
Ottawa 5, Ontario.

September 23, 1968.

Mr. Dennis Foley,
Ottawa Citizen,
Sparks Street,
Ottawa 4, Ontario.

Dear Mr. Foley:

You will recall I mentioned recently on the telephone that I had written an article about a visit to N.R.C. in connection with UFO investigations and wondered if you might be interested. This article is being published in the bulletin of the Canadian Aerial Phenomena Research Organization (CAPRO), Winnipeg, this month. This bulletin is distributed to all CAPRO members across Canada, and on an exchange basis to organizations in other countries.

As I had not heard further from you on this, I just thought I would pass a copy on to you in the event you may be able to use it. I might add that this article has been cleared for publication by both N.R.C. and DND, so they have no disagreement with its contents.

I realize that should the Citizen find this article of any use, it would require a little re-writing as it is directed, at the moment, to UFO researchers, whereas a wider reading audience would require that it be directed to them.

I leave this with you, if it is of use, well and good, if not, so be it.

Sincerely,

A. R. Bray.
