Dear Mr. Bray:

The Canada Council did award an Explorations grant to John B. Musgrave of Edmonton to compile a history of reported sightings of flying objects which remained unidentified. It was not a condition of ours, nor was it an undertaking of Musgrave's, that the results of the study be published in a book. Musgrave has been publishing his findings in a variety of articles published in magazines and journals and does in fact intend to compile his findings and publish them as a book.

Mr. Musgrave is a serious, thorough researcher who is devoting all of his personal resources to the study of reported sightings of unidentified flying objects. In my opinion the taxpayers' money was wisely spent and in fact the return was far greater than the initial investment.

I have taken the liberty of forwarding a copy of your letter to Mr. Musgrave in case he wants to expand on this letter.

Yours sincerely,

Robert M. Kennedy
Head, Explorations Programme
