July 17, 1970.

Mr. Craig Sitter,
24 Church Street, E.,
Hagersville, Ontario.

Dear Mr. Sitter:

I must apologize for the long delay in replying to your letter of June 12th. I was lacking spare samples at the time and so had to make a short trip in order to obtain some more. I am sending a piece to you by separate mail.

I regret the piece is quite small but it just isn't possible to break off larger pieces without special equipment.

As I am currently attempting to have the mystery of this metal solved, and have been making very serious efforts in this direction for some time, I would ask only one thing from you in return for the piece of metal, and that is that you send me a copy of the laboratory report upon completion of your analysis. A couple of other analyses are also underway and I am sure you will agree that a comparison of several independent analyses is as important (probably more so) than any single analysis. Your analysis will therefore contribute to the overall results of several.

Yours truly,

A. R. Bray.
