RECORDED-4
INDEXED-21

There are enclosed two copies of a self-explanatory letter from Mr. [redacted] Seattle 99, Washington. (b)(7)(C)

With respect to his inquiries, you are instructed to have two experienced, mature Agents contact [redacted] and tactfully inform him that although the FBI did contact Adamski, it was merely to suggest he desist in inferring that the FBI cleared his material on space travel. Inform [redacted] that this Bureau has no authority to clear any organization, publication or individual and that we certainly have no authority to comment on space travel. He should be informed this was the sole reason for our contact of Adamski.

For your information, we have had Adamski contacted on two occasions by Agents, both times to emphatically inform him he must desist from inferring that he has any type of approval from the FBI relative to his flying saucer statements, which he claimed during a speech on one occasion.

You should have this matter handled immediately, thereafter submitting air-tel containing results under the above caption.
