April 29, 1989

Dear Friend Art:

Many thanks for your kind letter of April 20, and I have a feeling really to explain what really happened before regarding my lecture in Ottawa.

My Canadian tour was organized by a dedicated Hungarian lady, the owner of the GLOBE Travel Agency in Montreal. When Ottawa came in her speculation, I gave her your address and phone as a military research authority might introduce me and inform the audience on English, before my Hungarian lecture.

Mme. Goralsky has known in Ottawa Mr Juhaszi and requested him to organize the lecture. The trouble was that Mr Juhaszi never organized lectures in Ottawa, what I established, when a few people remarked me confidentially "when our people would have known that so a serious lecture will be held here in Ottawa, the room would have to small for them."

Our trip to Ottawa was arranged by car, because on 16th at 3:00 p.m. my lecture was due in Montreal. Thus we were forced to return to Montreal, to be fit on the next day. We considered also to be with you, but you have to know that only Saturdays and Sundays could come into account for lectures. But I do hope either in Ottawa or here in New York we will establish a friendly discussion on this crucial world problem.

Enclosed please find our United Nations issue, and realize how the public at large be led by their nose toward humanity's fatal destiny - a Space War.

Please convey both of us best regards to Dorothy, and with
sincere friendship, your

Colman

Enclosure.
