

repeated this Caesarian proverb the bellicose generals behind the closed doors of the Pentagon, YES. In 1952 ... a totalitarian, but unrecognizable earthly conspiracy veridicted humanity's armed confrontation to the Galactic.

The Pentagon's and NASA's documentations clearly indicated their goals: IN THE AIR: Gain the fundament for the Earth's Space Age - the secret of the interstellar navigation.

ON THE GROUND: To cover up the armed confrontation - to drive a merciless governmental policy through the National Security Agencies (CIA, FBI, etc.) against those UFO organizations which realized the dangers beyond the lunatic armed confrontation, and urged to establish contact and communication with the UFO forces.

The United States great war leader General Douglas McArthur's rational warnings to the world, already in 1955 and 1962, that -the nations of the world will have to unite for the next war will be an interplanetary war,- and of -ultimate conflict between a united human race and the sinister forces of some other planetary galaxy,- were his cry to the wilderness. They were silenced, suppressed, and ridiculed by the news media!

NICAP's courageous military fighter for the truth, U.S. Marine Corps Major, Ret. Donald E. Keyhoe was -suggested- for a -second retirement- in 1969, with the warning, -keep silence, before it is too late ... - BUT ...

... only 30 years passed when General McArthur's warning became a dreadful reality in 1985! The world weightiers rulers: the President of the United States and the General Secretary of the Soviet Union, secretly agreed during their summit in Geneva ... to unite their military forces against any invasive attempt of the extraterrestrial UFO forces! This agreement was disclosed in a veiled manner by President Reagan on

December 4, 1985, and on September 20, 1987, before the United Nations General Assembly, as well as by Mikhail Gorbachev on February 16, 1987, before the Gala Meeting of the Central Committee of the Communist Party in the Kremlin.

Just a minute, Ladies and Gentlemen! Let us consider that 50 years after the World War II, the superpowers are still hunting for war criminals! - Should we charge now the President of the United States, and the General Secretary of the Soviet Union with a -crime against humanity-, that is planning and preparing a potential war against extraterrestrial/galactic powers! - Gambling with the existence of humanity and our Celestial body? - Excuse me ... namely this indictment is based on August 8, 1945, their own -four powers agreement- with Great Britain and France, - which codified the nature of the various War Crimes as Crimes against Humanity, which was adopted by the United Nations General Assembly (10 January to 14 February 1946).

Well, - let me place now on the floor of this Congress and for the knowledge of the entire world, those classified milestones - founded by the slandered UFO researchers, - which lead and forced the mightiest powers to reveal their hush-hush unanimity, *The Declaration of war to the Galactic Powers!*

1952 - "Anything will do - but do not shoot!"

President Harry S. Truman took two grave unanswered responsibilities into the eternal secrecy of his tomb:

1. Why he dropped the nuclear bombs over Hiroshima and Nagasaki after the German capitulation?
2. Why he ordered to fire at UFOs, on the memorable night of the UFO flap over Washington DC, on July 25/26, 1952? Because, on his hesitation for military action, the great scholar Al-

bert Einstein suggested him by phone: -Anything will do ... but do not shoot!-

Against, - on the next day President Trumann, as the highest Military Commander ordered to open fire on UFOs! - Thus, he launched the United States' undeclared warfare against the extraterrestrial - Galactic - UFO forces.

The recently exposed covert presidential UFO project, the Majestic-12, clearly indicates that Pres. Truman - very properly - facing the risk of eventual -space war- concentrated in his hand all the rights for decision and action on the UFO sinister operations.

On September 1952, a Central Intelligence Agency's declassified memorandum verifies his soft pedal action for an organized global defense to intercept the illegal intruders earthbound operation. It states that ...

"A worldwide reporting system has been instituted and major Air Force bases have been ordered to make interception of unidentified flying objects."

As a result of this policy three years later in 1955, General Benjamin Chidlaw, in charge of the Continental Air Defense Command, exposed already serious casualties:

"We have stacks of reports about flying saucers. We take them seriously, when you consider we have lost many men and planes trying to intercept them." Do you know what this single sentence "trying to intercept them" means? - **Total armed insufficiency!**

1966 - The First Action to Prevent Humanity's Space War

In February 1966, after a long scrutinized military study of the UFO's global operation, as Staff Member of the United Nations Secretariat, I addressed **The First UFO Memorandum** to my Secretary General U Thant, Seizing on his constitutional duty regarding the en-

dangered international security, Thant assigned me to elaborate the first UN-UFO Project. This Project referred:

1. a coordinated cooperation among the nations to control the UFO's global operation and activities;
2. immediate stop to any hostile confrontation, which at any time could trigger a fatal Space War;
3. seek official contact and communication with the exploring UFO forces, assisted by UNESCO, and by the governments respected UFO organizations;
4. declare the 550 miles belt around our celestial body under the protection and jurisdiction of the United Nations.

Thant's common sense and constitutional duty on the alarming world-wide UFO fever is demonstrated by his remark within the diplomatic corps and his cabinet that -UFO's are the most important problem facing the United Nations after the War in Vietnam-. *The Pentagon and the U.S. diplomacy were immediately alerted to stop him!*

Next month, in March to thwart Thant's UN-UFO Project, the AF Scientific Research Board -Ad Hoc Panel- was mobilized in haste to find a suitable University to study the UFO phenomena. Evidence: *Condon Report*, preface, page 7-9, written by the Vice President of the Colorado University.

Thant was totally silenced! - A -mysterious- diplomatic power constrained him to violate the U.N. constitution, and confess also toward the public that his interest on UFOs was only -purely academic and personal-.

According to the Associated Press, Ambassador Trofimirovich Fedorenko of the USSR, comforted him: -UFOs are only the nightmares of the Imperialist and Capitalist Countries.- but, against this - on the other side of the token ...

For my honorary accepted U.N. UFO Project, I became the No. 1 Enemy of the United States UFO Policy. I was awarded
