August 17, 1970.

Dr. Peter M. Millman,
Head, Upper Atmosphere Research Section,
Radio & Electrical Engineering Division,
National Research Council,
Montreal Road,
Ottawa 7, Ontario.

Dear Dr. Millman:

I am referring to your letter of June 6, 1970 in which you informed me that you forwarded my letter of June 2 to Dr. Eric Smith.

Dr. Smith has not yet favoured me with a reply and as it is almost one year since the metal was forwarded to him, I am wondering if there is anything you can do to speed things up. The points I made in my letter of June 2 become stronger as each month passes. Is there really something strange about this metal which Dr. Smith may not wish to be made public? If not, then what can possibly be the delay in producing the evidence to prove it is not out of the ordinary?

I know you share my concern about this matter and I do hope you can assist in some way to speed up the matter.

Very sincerely,

Arthur Bray
