Dear Arthur,

I certainly must extend my apologies to you for the tardiness of our previous correspondence, and my thanks for your promptness in reply. As I leave this area tomorrow, I will follow suit and send you my immediate reactions.

My response to each paper is favorable.

1) I, too, have been puzzled by the "meteor" explanation and feel that, in the light of the full UFO phenomenon, this hypothesis must be seriously questioned.
2) To the proposal, I would suggest a 3rd point: There must be a point of reference contained in each photo such as a tree, a cloud, a telephone pole, etc. The viewing of some such object, be it genuine as hell, against nothing but the clear, blue sky is nothing but frustrating as it allows no leverage. Another suggestion, while I'm at it: A statement from persons who witnessed the taking of the photo is a must.

On this end we are getting along quite well, especially in the area of our new forthcoming publication, the International UFO Reporter. I will soon send you promotional material hot off the presses.

My very best regards
