Jackson Heights,
N.Y. 11372,
U. S. A.

Dear Colman:

Thank you very much for your letter of September 8, 1982, and accompanying papers, which I have read with great interest.

There are still some questions in my mind, however, and will be very grateful if you will clarify them for me. I do need to fully understand exactly what has happened down there before I can properly plan my action up here, because whatever I do will flow from what you and your colleagues have already done, or experienced.

My questions follow:

1. I have not seen CAUS + Gersten's ultimatum to President Reagan. Can you provide me with a copy, please?
2. The article in News World, July 9, 1982, says the NSC "reacted by prohibiting any further release of UFO-related documents under the Freedom of Information Act". Is there a source document you can provide me with to support this statement?
3. I do not understand the method by which the press suppresses your news releases. ~~Do~~ they simply ignore them (by doing nothing) or do they somehow take positive action of some sort, to suppress them? If the latter case, exactly what happens?
