

# FLYING SAUCERS ARE REAL

an illustrated lecture by  
THE FLYING SAUCER PHYSICIST

STANTON T. FRIEDMAN

## UNIQUENESS

Nuclear Physicist-Lecturer Stanton T. Friedman is unique because:

1. Since 1970 he has been the **ONLY** space scientist in North America **KNOWN** to be devoting full time to UFOs. He has actually earned his living lecturing and writing about UFOs!
2. He has spoken about UFOs at more campuses than has **ANY** other speaker — over 500 colleges and dozens of professional groups in 48 states and 6 Canadian provinces.
3. He has had more favorable ratings in **PROGRAMMING** than has **ANY** speaker on **ANY** subject.
4. He is perhaps the only scientist who has worked on the development of fission and fusion rockets, nuclear airplanes, and a wide variety of nuclear systems for space applications.
5. Unlike many apologist ufologists, he takes a definite stand — "After 22 years of study and investigation I am convinced that the evidence is overwhelming that **SOME** UFOs are intelligently controlled vehicles from off the Earth." — no fence straddling here.
6. He is co-script writer, technical consultant, and one of the "stars" of the exciting new documentary movie "UFOs ARE Real" which begins worldwide theater distribution in **early 1981**. He arranged for all the interviews and obtained still and motion picture films of UFOs from all over the world including the New Zealand footage of Dec. 31, 1978, and technological films never before seen by the public. One 1947 coverup story is the subject of a new book "The Roswell Incident" by W. Moore & C. Berlitz.

## COMMUNICATIONS

Unlike most scientists, Mr. Friedman has demonstrated that he is a dynamic speaker. He uses language everybody can understand, lots of humor, and exciting slides from all over the world to illustrate his program. No wonder he has spoken at some colleges 4 times and has appeared on hundreds of TV and radio shows including Merv Griffin, Tom Snyder, Canada AM, AM Shows in San Francisco, Los Angeles (9 times!), Detroit, New York, etc.... He has originated such phrases as "laughter curtain", "Earth Excursion Module", "Cosmic Watergate", "fossilized physicists", "naysaying newsmen", "noisy negativists", "ancient academics" and "closet ufologists".

## PROGRAM

Mr. Friedman's stimulating, controversial, illustrated and updated lecture "Flying Saucers **ARE** Real" covers UFO landings, abductions of earthlings by aliens, interstellar travel, the Cosmic Watergate, 5 large scale scientific studies, and the false arguments of the sceptics as well as some very exciting research that tells us in which solar system **SOME** UFOs originate. Several dozen 35mm slides illustrate his presentation. He is usually available for class visits, seminars, interviews; also supplies posters, glossies, a press release, introduction, set-up instructions, and a detailed travel itinerary. He can tailor his program from 60 to 100 minutes but insists upon a question and answer session afterwards. Other titles: "The Cosmic Watergate", "The Roswell Incident", "Star Travel", etc.

## BIOGRAPHICAL INFORMATION

Born: July 29, 1934; BS & MS in physics, U. of Chicago, 1955, 1956; 14 years experience as an industrial nuclear physicist for GE, GM, Westinghouse, Aerojet General, and TRW Systems. Q and Secret clearances; Member: Amer. Nuclear Soc., Amer. Physical Soc., Amer. Inst. of Aeronautics and Astronautics, AAAS, MENSA, NECAA, AFTRA; Fellow British Interplanetary Soc.; provided testimony about UFOs to congressional hearings in 1968 and the United Nations in 1978; participated in more than 10 professional level conferences dealing with UFOs and has published articles about flying saucers in both the scientific and lay press; advisor "UFO Incident"; on 3 records. 3 Movies. (science commentator CBC radio.)

## BOOKING INFORMATION

Deal direct and save the usual lecture agent fee of 1/3 off the top. **CALL COLLECT ANY TIME 506-457-0232** or write Stanton T. Friedman, 110 Kings College Rd., Fredericton, NB E3B 2E7, CANADA
