

austrian AF Chief of Staff, and high ranking AF officers. I visited the Austrien Ministry of Defense UFO department. They appreciated very much my shoking documentation in photographs movie film and the Pentagon evidences on the existing potential threat on the UFO problem.

All over the countries the public opinion was after all we heard the truth on the UFOs. My speech was recorded on German by the NEPTUN PUBLISHERS in 10,000 copies and sold "STOP THE SPACE WAR - THE UFO PROBLEM MUST BE SOLVED BEFORE IT IS TOO LATE..."

I had a serious conversation with Baron Freiherr Von Buttlar a rich scientists engaged in research, he ~~will~~ visting me also on the next year. He lives in a marvelous castle.

As constructive result first off all: the FIRE IS ON! A second ~~positive~~ approach happend in Stockholm, where the International Peace Research Isntitute's vice president became crazy upon our documentation. I had a two hour conference with him and promised, might be I will called for personal information at the beginning of 1984.

We have an excellent promoter Helmut Hajek in Austria, with serious contact the gvmt and the United Nations. He is preparing a lecture for me before the parliament.

Baron Von Buttlar has excellent connection with the diplomats of various nations.

We are using your governmental document with the German and Austrian view point of the national defense regarding the Memorandums.

It is in the preparation recently an other Memorandum to the Brazilian government.

So, do not give up Arthur! Your negative documents are POSITIVES in cover up the truth and the facts! THE FIGHT IS ON!!!!!!!

Friendly yours
