Minister of Transport,  
Hunter Building,  
O'Connor Street,  
Ottawa 4, Ontario.

Dear Sir:

As a serious researcher in the field of Unidentified Flying Objects (UFOs) and as an airline passenger on occasion, I am wondering whether your department is concerned about the fact that UFOs continue to intrude upon air routes in Canada and perform manoeuvres in violation of air regulations.

Regardless of whether UFOs should prove to be secret experimental aircraft, or something else, such intrusions into controlled air spaces are potentially highly dangerous from an air safety point of view.

Is the Ministry of Transport concerned about this matter? If so, I will be grateful if I could be informed of what that department is doing about this problem.

Yours truly,

Arthur Bray
