

(b)(7)(D)

[redacted] said she has never seen ADAMSKI but does have a photograph of him in a group and she said his address is Palomar Terraces, Star Route, Valley Center, California, and he has a secretary there, a [redacted] who recently informed in a letter that ADAMSKI is planning to move to Mexico.

(b)(7)(D)

There is no reference to ADAMSKI in the San Antonio indices. The San Antonio indices do reflect [redacted] telephoned the San Antonio Office on 1/10/59, advising she publishes Net News and desired to get a photograph of a flying saucer which she understood the FBI had confiscated. She again telephoned the San Antonio Office on 2/18/59, inquiring whether "flying saucers" are a hoax or not or possibly a hoax by communists to scare the world. On both occasions she was told the FBI has nothing to do with flying saucers and merely refers any such information to the Air Force.

The above is for the information of Los Angeles and any action considered appropriate.
