Ottawa 5, Ontario.

27 April, 1969.

Mr. Brian Cannon,
Director, CAPRO,
P.O. Box 1316,
Winnipeg 1, Manitoba.

Dear Mr. Cannon:

Thanks for your letter of April 22nd. What you said about the Michalak case is very interesting. I hope you can get to the bottom of it all.

We had a most interesting sighting about 30 miles east of Ottawa last Tuesday evening (near Hammond) where a UFO was seen taking off from a field and then following power lines. I have just finished a letter to NRC raising certain questions about it and I will give you details when I can put more of the facts together.

I had Dr. Millman over to my home a week ago for an evening of discussion with a group of friends. It was a very friendly session but as usual, he talks round and round, and it is difficult to pin him down. He has agreed to arrange a government lab analysis of Ottawa's "ton of metal" so I will keep you posted on that. At the moment however, this is between you and I, as nothing official has yet been set up. When it is, I will let you know.

As for the Senate hearings, I now think it will be some time before my brief is heard. They are behind in their schedule, and the phase in which mine will be heard has not yet begun. According to the press, the Committee received 180 briefs for presentation during the final phase, so God knows when they will get to mine. These briefs cover all aspects of science, and I do not know whether any others pertain to UFOs. Again, will keep you informed.

I have enclosed reviews of the "Condon Report" and Harmonic 33 in the event that you may wish to use them in the Bulletin. I wrote them at the request of TOPSIDE but thought you may not yet have arranged for reviews of these, so thought I would send them along
