The "Mystery" Metal

About the first week of July 1959, two large pieces of metal of unknown origin were found in the St Lawrence river at Les Laurents, Quebec (check the date with Ken Kellick)

The Area

✓ At Les Laurents, the river bank drops sharply to a relatively flat shale bed which extends out for nearly a quarter of a mile to the deep water shipping channel. The channel is separated from the shale area by a jumble of large boulders. The river is tidal so that the area of the find varies from dry to a maximum depth of water of about $1\frac{1}{2}'$.

The Find

✓ A local resident, who supplements his
