Dear Art,

On behalf of the host groups--The United Friends of Ontario--and in my position of MUFON Director, an invitation is extended to you for your participation in this event.

First I request you help in distributing the enclosed info sheets to friends & media people in your area. As you know, the postal rates will be increased with the new year and therefore this basic information is being disseminated prior to a formulation of program. We are striving for as much professional, quality-first, Canadian content. A suggested theme--Ufo,s Canada; A Global Perspective. Please make discreet inquiries, availability of Margaret Trudeau this event. Would you be interested in preparing and presenting a paper at this Symposium? There is no promise of remuneration but this prestigious event abounds with promotional opportunities.

What is the present state and/or disposition of the NRC non-meteoric files, are they available for public perusal ?.

Sincerely,

Henry McKay
