

4 December 1974

Dear Fellow Canadian UFO Researcher:

Here is the first edition of the Canadian UFO Directory. If there are any errors, additions or changes, please let me know of them. The directory is meant to be an ongoing thing, and I hope there will be additions enough to merit a 2nd edition in a month or two.

Most of us would like to see some sort of Canadian UFO Network set up. However, as we all are painfully aware, all earlier attempts to set up such a creature in the past have been unsuccessful. I'd like to learn of your thoughts on how to best set up a Canadian UFO Network that actually serves the needs of Canadian UFO researchers. It has already been suggested to me that such a group be organized in a manner similar to MUFON and that we hold a first national convention this coming summer. How do the rest of you feel about this?

Best wishes,

JH
