Dear Art:

Thanks for the correction. I've been a little under the weather the past two months, but hope to catch up on UFO business in the next month. Part of this catching up will be a 2nd edition of the directory which has a few additions and updates.

The grant is to help me research a book on the history of the UFO phenomena across Canada. In addition to collecting and interpreting UFO case histories, I'll be looking at how individuals and organizations have investigated the phenomena in Canada. A large part of the research will involve collecting Canadian sightings from UFO researchers throughout North America and I'll be travelling to NICAP, APRO, MUFON, etc., as well as to investigators here in Canada. In this sense the book will be a joint effort of all Canadian UFO investigators.

I'm anxious to travel to Ottawa and speak with you about the phenomena - probably I'll be there in summer or autumn.

Best wishes,

J.B.

John Brent Musgrave
