cise location of at least two buried treasures - one of which we ourselves buried - but that's another story! We will reveal this information only to the proper person, preferably someone with a degree in archaeology.

Also, we fear that in spite of everything, the rumors about our alleged connection with the U.S. Government will persist. However, they are absolutely without foundation.

EDITORIAL NOTES

OUR JUNE ISSUE WILL REVEAL, for the first time, the true inside story behind your Editor's long feud with Gray Barker, former editor of "The Saucerian Bulletin." We will also have an exclusive story, with photos, by another engineer who has seen flying saucers over New York City, and we will present the conclusion of John J. Robinson's series of articles about the electromagnetic effects of UFO's. This is an issue you won't want to miss, so don't let your subscription run out!

"Our scouts misled us. They said there was intelligent life on this planet."

WE ARE IN NEED OF NEWSPAPER CLIPPINGS FROM OUR READERS, to supplement our press clipping service, which often misses good sightings that appear only in small town papers. Our subscribers can be of great help to us by sending along anything they see concerning flying saucers or any related topic. If the sender desires, he will receive credit in SAUCER NEWS for his clippings, if one or more of them are used.

WE WISH TO REITERATE our well-known policy concerning articles appearing in this magazine. Such articles represent the views of the author only, and do not necessarily reflect the opinions of the Editor or of the Editorial Staff.

ADVERTISING comes under the same policy, in that we will accept paid ads from any reputable individual or group regardless of our own opinions. Our new advertising rates are now as follows: 50 cents per line; \$12.50 per half page; and \$20.00 per page. Ads for the June issue should reach us not later than April 10th.

THE JUNE ISSUE WILL PROBABLY REACH YOU SLIGHTLY BEHIND SCHEDULE, as your Editor and his wife are taking a month's vacation in Europe in May.

ARE YOU ON OUR CONFIDENTIAL NEWSLETTER MAILING LIST? Since December, 1955, irregularly-issued Confidential Newsletters have been sent out to SAUCER NEWS subscribers who want to be on the inside of the strange and baffling behind-the-scenes events in saucer research. Any subscriber in good standing can be placed on the special Newsletter mailing list for an indefinite period of time for only one dollar. The three most recent issues are about an alleged spaceman in New York; the mysterious disappearance of a saucer researcher; and Howard Menger. All three will be sent out by first-class mail immediately upon receipt of one dollar from you!

A black and white political cartoon. The White House is depicted in a sketchy, hand-drawn style. In the foreground, a large, deep crater has been dug into the ground, with debris and rubble scattered around its base. A small sign with the letter 'R' is visible near the entrance of the White House. A large speech bubble originates from the right side of the image, containing text. The overall tone is satirical and critical.
