

February 12, 1968

Canadian Broadcasting Corporation,
Toronto.

Dear Sirs:

I understand that you are intending to produce one or two programs on Unidentified Flying Objects for your new series "Eyes of Tomorrow", for showing on TV on Sundays.

If such is the case, I wonder if you may be able to use any material from the latest book on the subject, titled Science, the Public and the UFO written by myself. This is the first written in Canada on this subject and was written expressly to bring many facts to the attention of the public which are not generally known. I am hoping to penetrate the 'orthodox barrier' surrounding this subject through publication of my book. The book was published in December, 1967.

I have taken the liberty of enclosing a copy of the book for your information in the hope that it may be of value to you for this or some other series on the subject. Please feel free to use the information contained in the book - it is offered for the purpose of advancing knowledge in the field.

I might add that copies of my book are only available through Bray Book Service.

Yours sincerely,

Arthur Bray
