Modern UFOlogy began with Kenneth Arnold's careful observation of nine crescent-shaped aeriforms of unknown origin over Mount Rainier in the northwest section of the United States, on June 24, 1947. Hundreds of subsequent sightings were made in the ensuing months, and by September 23rd of that year, the phenomenon had been confirmed by the United States military authorities as something "real, - not visionary or fictitious." A parallel study extended the roots of UFOlogy through preceding centuries far into antiquity, revealing unsuspected con-

Let me state, at the outset, my position on the UFO. I believe we do indeed have visitors, and I believe they come from other planets and other planes. They represent a spectrum of types, from angelic to demonic. Fortunately, the angelic type are in control. They have been with us for as long as mankind has been on Earth, but we did
