

ON JULY 29, 1947, THE FBI's FIELD-
INVESTIGATOR E. G. FITCH SENT IN A
FURTHER REPORT, THE TEXT OF
WHICH IS AS FOLLOWS:—

OFFICE MEMORANDUM
UNITED STATES GOVERNMENT

To: D. M. LADD
From: E. G. FITCH
Subject: Flying Disks

Reference is made to my memorandum to you in the above captioned matter dated July 10, 1947, indicating that Brigadier General George F. Schulgen of the Army Air Corps Intelligence had requested that the Bureau co-operate with the Army Air Corps Intelligence in connection with the above captioned matter. The Director noted on the reference memorandum, "I would do it but before agreeing to it we must insist upon full access to disks recovered. For instance in the La. case the Army grabbed it and would not let us have it for cursory examination."

This is to advise that Special Agent Reynolds has recontacted General Schulgen and advised him in connection with the Director's notation. General Schulgen indicated to Reynolds that he desired to assure Mr Hoover of complete co-operation in this matter and stated that he would issue instructions to the field directing that all co-operation be furnished to the FBI and that all disks recovered be made available for the examination by the FBI agents. General Schulgen pointed out to Reynolds that he will from time to time make the results of the studies of his scientists available to the Bureau for the assistance of the FBI Field Offices. General Schulgen indicated to Reynolds that there has been a decrease in the reported sightings of the disks which might be because of the fact that it has lost much of its publicity value. He indicated, however, that he believed it necessary to follow this matter through to determine as near as possible if disks were in fact seen and to determine their origin.

General Schulgen inquired of Reynolds the method by which the Bureau would make the information obtained from the Bureau's inquiries known to the Air Corps, in the Field as well as at the War Department level. Mr Reynolds pointed out to General Schulgen that the best procedure appeared to be through the regular established channels. It was pointed out to General Schulgen that the Bureau Field Offices maintain close liaison with the Intelligence Divisions of the various Armies as well as close liaison with the Intelligence

Division of the War Department. General Schulgen indicated that he would be satisfied to receive information through this means.

General Schulgen indicated to Reynolds that he believed that there was a possibility that this entire matter might have been started by subversive individuals for the purpose of creating a mass hysteria. He suggested that the Bureau keep this in mind in many interviews conducted regarding reported sightings. General Schulgen stated to Mr Reynolds that he would make available to the Bureau all information in the possession of the Air Corps regarding the sightings which were first reported so that the Bureau could conduct some investigation regarding these individuals to ascertain their

motives for reports. When information available will be prompt
