

Here are the experiences that I lived and I hope they reach everyone to analyze, discern and share them. It is in this little compendium that all my love for everyone is in the corner of the planet (and outside it). Thanks to Tell Ellam for having managed to maintain his position with that great FAITH in the Mission for being an example of FORCE and WILL and generously

TOWARD THE MEETING IN PUNTA NEGRA, PIRI ÁPOLIS, URUGUAY

From Uruguay, a small piece of earth from the UR planet, in the shape of a heart, in a corner of South America

YEARS AGO..... Did they talk about the 2009 meeting?

9/23/2001 Community of the South (Uruguay)

Antenna: Avehgoel

Yes, Sampiac in communication:

Uruguay, heart of hearts, where the unity of the committed must transcend borders, having previously achieved their own inner UNITY and between the groups. All its soil covered by positive energies, inhabited by Intraterrestrial Masters who wait for those summoned in time to deliver the wisdom they have protected, so that men know who they are, where they come from and where they go. The intraterrestrial tunnels cross it and arrive at that sacred place of Paititi where the energies of Light come together to give Light to the world.

Irradiate this piece of land, take care of it, love it, so that conditions can be given in the near future to gather those summoned in time in a meeting from the heart, from where the new journey of the Mission will emerge. Uruguay, promised land of wisdom for Humanity.

With love, Sampiac

More for the 2009 match?

12/2/2002

In meditation I visualized a beach and a group of people in a circle, between the sea and the small dunes. The large group was covered by a huge pyramid of triangular base made of bright white energy that was slowly descending enveloping them. The sea came and went whispering and kissed the sand and the strong rocks again and again. I saw Guides around the group and I felt that one of them was Oxalc, and he said: "Good place" and this symbol represents me
I felt that we were in the east of the country where the Rio de la Plata almost joined the ocean. He tells me then: "Meeting scheduled by  Masters"

I have saved many messages for years making the mistake of not doing what our Big Brothers tell us: "Reread messages"

Nor did I understand in those years 2001 and 2002 that they were referring to, but they tell us everything, nothing gives us a surprise. Did these two messages speak of the 2009 meeting in Punta Negra, Piriápolis, which is in the south east of the country?

YEAR 2008.....

8/24/08 With my current group 3333; Brother Hugo Píriz guides a meditation and receives:
Avehgoel antenna

The meeting must be programmed, created, fought with love, will, discipline, tenacity , nothing can prevent the beings who work for the Light can join together to help the planet to go through the dimensional trance. His Faith must be unbreakable and nothing negative can overcome it.

They will be supported, always move forward.

With Love in the Light , Xendor.

7/31/08 With the group 3333.

Brother Darío Silva guides and takes us astral to the place where the meeting will take place in 2009.

We went down to the beach and started walking behind some tracks that formed in the sand, but we did not see who was leaving them. From above and from the sea began to descend a spiral energy, first golden and then bright white, a thick mist that occupied a large area, half in the sand, half in the water. It formed a huge dome, from which I saw a resplendent being, with a white tunic, very deep small eyes and white beard, an old man who attracted with his great loving energy. He said or I knew it was Joaquin. We had already entered the haze, which I think could well be a xendra.

Another being appeared next to the teacher and I identified him as Sampiac . He made us see the people who will be at the meeting. We were a few, I remember that I counted 251. Then Sampiac said: "There will not be many and even of these only a few who have really washed their

clothes, handing over everything, will be those who receive the information , because they are truly committed.

From there we went directly to a tunnel of blue light in the mountains. There were some beings, teachers and Indians who were not Charrúas or any of those who were at the time of the conquest. There were even blondes, very tall. They showed us some thin, golden tablets, they looked like paper thin, but they were gold, rectangular, engraved with signs and symbols, and one of them said: "Past, present and future of humanity are here."

Before we left there they told us: "The remnants of ancient civilizations will be found in the meeting." "You need to do work to purify the water." "The meeting will be a reunion."

8/7/08 Group 3333

In meditation:

I saw a blue-white Xendra form from above and from the sea . Standing on the beach facing the sea, it was to the left of us. We went in, I visualized some brothers of the group and suddenly I felt several Guides, Titinac, Oxalc, Sampiac, Xendor and Master Joaquin who told us: "Twelve must enter, grouped by their cosmic endings. Ardua the task, maximum the sacred - trade, optimal results of those who have arrived with a clean heart , without asperities, open to retain the knowledge of what is written here.

Work together with the Men of the Stars, because all are united in a single Universal Mind. The secret is no longer such, everyone will know who they are and where they come from, prepare to know where to go. "

I also felt: 3rd and 5th day of the meeting will be fundamental. Doors will open to the Akashic Records.

It is important to connect this place with the meeting place , energetically join both areas. They know that intra-terrestrial tunnels connect with the Paititi region in Peru. Work towards it, uniting places, let yourself be guided and do not fear, we are here to support you.

Xendor.

And we were those of Group 3333 to recognize the place of the meeting live and direct, in Piriápolis, Punta Negra:

They tell us: "The encounter will be like lighting a Great Light towards the Internal Retreats and within yourselves".

Antenna: Avehgoel.

It is time to go inwards, towards that being of light that each one is. It is time to rediscover in time with brothers with whom we meet again. It is time for Teachers together with all of us . Moment of Uruguay, whose mountains inhabited by Intraterrestrial Masters, shelter in silence histories of the Humanity.

Find us , man .

Antenna Avehgoel :

Time of Light, time of Darkness, time of Brotherhood, time of Unity , time to go within each one and find oneself to be able to surrender to brother and Humanity. Time to meet and meet. Time without time already ...

Create and create the near future of Peace and Light. Get to the bottom and be victorious to the surface, overcoming the tests, with spiritual strength. With faith.

The dawn is near, this time do not let it escape, do not lose it.

Analyze day by day what you have received in these years of Mission and put into practice every thing that we have transmitted to you and you will see that yes, you can achieve it. Stop to analyze everything, then act accordingly.

August 2009, Uruguay or piece of land from the planet UR , from here out without stopping, mentally creating the New Dawn.

We will support and hope with FAITH in their processes .

"Take real awareness of who they are, put aside the word" EGO "because it is not time to act with false modesty. Make the final stretch with strength and confident that they have in their hands the tools to achieve what they know they must do "

Who transmitted this to me was a small woman, with large eyes whose eyelids had no eyelashes. He glowed and said he was Cesea. She was a Lady of Light.

Encounter in time, an explosion of Light, the dimensions come together u You will be the doers, that is why you must fight the dark night by mentalizing only the positive and creating the encounter with LIGHT and LOVE. From those days when everyone will be united in the same vibration, time on the planet will accelerate. Those who are truly committed, prepare yourself with STRENGTH, because the time has come when you will test your ability to achieve the transfer of the Threshold of Time.

With FE in its processes, Oxalc.

Yes, Antarel.

Act from the heart, but be firm and aware when deciding who can participate in the meeting .
The whole planet is at stake, it is not a moment of errors. You are the work, be mature and honest.

Antenna: Avehgoel

The efforts you make to support the meeting in Peñagoloza will be beneficial to help unite the energies of that diverse group. Stress Brother Tell - Ellam strongly that he will be supported by us, but it is necessary that he feels the energy that you send him knowing that you can trust in him. His Faith, Strength and Will are unbreakable, but, as brothers who are on this path, it would be good to wrap him in positive energies of transmutation and spirituality. This meeting will be beneficial for Spain and all Europe, from it will come renewed energies that those brothers will send supporting and also creating the August meeting in Uruguay. Tell-Ellam will feel that support. The opening of a portal to Europe and to the August meeting in Punta Colorada will be made.

With love, Antarel, Oxalc, Sampiac.

The internal preparation of each one will be the base so that in Punta Colorada the encounter will enjoy a perfect harmony that will unite them. Everything that each one carries of himself there will be strengthened, but beware, it will be the good as the bad, that is why it is necessary that they go prepared as it deserves this great gathering of beings that will see the sunset of the darkness worked by themselves and will They will approach the Light responsibly, carrying behind them the precious cargo of Humanity. This is a meeting between you and if you can find yourself inside, the White Brotherhood will be there to give you what you deserve. The time of alternative comes to an end, there comes a time of peace and light. Hurry up step but walk firmly towards the NEW DAWN. Believe what they do and do what they know.

We will always support. Oxalc, Xendor, Antarel.

Who said that everything is lost? I come to offer my heart.

And the day of the meeting arrived ...

From the center of Montevideo, capital of the Oriental Republic of Uruguay, "small piece of land from the planet UR" as the Guides told me in a message, we set off on a timely basis the five buses that would take us to that coastal place where the Expected and elaborated encounter. It was 8 o'clock in the morning of August 1 of the year 2009. In order, with overflowing joy, putting each one the best of himself, we all traveled together with the same feeling: Love of the Mission.

And finally we arrived: Punta Negra, Piriápolis, Uruguay.

I had to travel on the bus with people from my current group 3333 and other brothers with whom I had the luck to share groups as well.

We travel in harmony and with great joy we arrive at that beautiful place very well arranged, the big white tent, the chemical toilets, the tent with the carafes and cookers to heat water, the pipes with taps to supply us with drinking water and some tents armed by brothers who were already there from the previous day. Each group was setting up their tents, those who were free were helping others. At the end, it was wonderful, those tents of all colors, scattered among the small dunes near the large white tent that would shelter us all, sheltered from the cold that despite the winter season and being by the sea was less intense what we think From that first day until the last we would be working together, in peace and harmony, having wonderful personal experiences and together .

In the first work in the tent I saw some symbols that I remember, a spiral, the symbol of infinity and the alpha symbol.

It was very beautiful work with the four elements and Uruguay, the work of the sisters by the sea, made with a lot of love and a lot of cold.

With the xolar meditation of the second day I saw and felt the following: First I see the Pusharo Wall, very covered with undergrowth, I had to clear it and a symbol of two superimposed hearts appears with a face on the inside, then I see an intense light and from it a being with a kind of tall hat that he said was Alcir. And he said: "From here those who have expanded their consciousness to integrate the energy of love into their daily actions, until they become so deeply involved in it that they become one with it. Because in these retreats that is the energy with which one lives. Take advantage of this meeting, make connection with this place, facilitating the way for those who have to get here. Remember that some of those who are there today will come".

Then he explains to me the meaning of the symbol of the hearts: "The times that we will see, the man (human being), with the beings of the Universe, so interpenetrated with each other, united in LOVE, come together so much".

Another work done by women, very beautiful, on the beach, forming circles, working the four elements and then exchanging feminine energies with masculine energies. THANK YOU SIXTO FOR YOUR ENERGY!

Night work after the water (directs Darío Silva)

"I see dolphins appear and one leads me to a city in Antarctica. I felt very cold, I could not pay much attention to that place of glass. They transmit their desire to integrate themselves into our work and in that city, I thought I understood that there lived beings who do that with them: they work together. I could feel the great love that the dolphins transmitted to me. Then I came back and felt that we had to make a connection with Paititi and the presences of Oxalc and Antarel among us.

Another day in the meeting, other jobs.

In the xolar meditation I clearly heard the sound of bells and I feel: "AMROM, last call". Maybe it was that same day that we went to the rocks and did a very nice job there, sitting comfortably in the sun on our chairs. I remember that at some point in the meditation I opened my eyes and saw that a young man was coming down the road, carrying his bike beside him, skirting the yellow ribbons that marked "our" place. His hair was blond and long and had a thick

dark beard. I kept my eyes open to observe him and my mind said: "I should not be here, this is a Rahma meeting." But immediately my heart took the reins of the matter, the young man was represented to me as the image of Jesus that appears on the cards of the Catholic Church, and as my heart does not know the frontiers of good sense he told me: What if it were Joshua? Why not?. I closed my eyes again following the thread of the work we were doing and at the end of it and reopen them, the young man remained there, sitting very quiet, observing silent and respectful everything we did. I felt that internal sensation again, what if it was Joshua? My mind silenced that, what madness!

We all started to move away slowly and my heart said: ... it seemed Joshua and we, part of his people

And I was happy and moved. Somehow I felt that he was really there with his magical unmistakable energy of infinite love.

On the night of all work within the giant giant tent, Hugo Píriz with brothers from Peru and Costa Rica began to sing the OM of seven notes. I approached because that sounded very good and I joined the group and suddenly I realized that we were a great group all embraced, intoning that beautiful sound of the Universe that is the OM. That happened without planning, it was beautiful, impressive energies were raised and we were closer to the Creator. We end up singing this impressive Anthem of Joy that greatly represents our feeling:

"Listen brother the song of JOY , the joyful song of the one who waits for a new day. Come, sing, dream singing, live dreaming the new sun. Come, that men will be brothers again etc

Very emotive! . Voices and hearts together, twinned with the Universe. The Creator must have smiled for a few moments. Nobody felt cold even though there was a lot of it, but our giant tent was very hot

A Message in Meditation:

Antenna: Avehgoel.

The sacred OM and your cosmic names will cause your vibrations to rise in such a way that together before midnight, you can enter the xendra that is being prepared by your own effort. You can all live the experience, each one will live theirs that will not be alien to each other, thus putting together a puzzle that will give them the guidelines to follow in deciphering it. This day will be key in this meeting because it will provide everything you should definitely do in the time ahead. Consciously prepare yourselves, we are waiting for you. We will be here. Do not forget crystal reception. Do not fear anything, do not be defiant, so you will achieve the experiences that will help you to continue along the right path. The Masters expect your commitment to be demonstrated in your actions, protecting this country because you know its importance for the planetary future. Love and Peace, brothers.
Kulba, Antarel and Xendor.

The 4th day ... The Xendra in the form of a dome in the evening and at night, under a spectacular moon that illuminated the place as if it were daytime.

In the night we spent about three hours facing the sea under a beautiful moon and a beautiful sky with a xenda in front of us and the sea supporting us, like the Elder Brothers with their clear presences among us giving strength and Sixto with his tireless energy going to one and another preparing us to live the experience of the dimensional step. He joined us twelve and while, we all mantralized ZIN URU.

At a certain moment, when many brothers had already passed in groups of twelve and those who were leaving were having more free space between one and the other, being closed eyes I felt a strong presence beside me, so much that I turned my head and looked thinking that It was Sixto. But I did not see anyone, instead I felt that Anitac was there. I think they were leading Sixto mentally in such an arduous task of joining us for our energies. At the end when Sixto led me along with the other eleven sisters on the seashore, when entering the xendra (the first of my life!), I felt the sensation of thousands of punctures in my skin but they did not hurt, but they gave a sensation of physical lightness, the cells of my body were shaking all at once vibrating. It was so impressive that I almost can not describe it, nor that happiness or I do not know how to call it that I felt inside of me. It was also like entering for the first time a well-known place ... (?) And I clearly felt Anitac and Sampiac next to me (or together with everyone) joyfully supporting those experiences. The excitement was very intense, I knew my friends, I wanted to hug them, I knew they were there and I felt safe letting go ...

I ascended by a kind of bright white light tube and arrived at a place where there was a large mirror but when standing in front of it my image was not reflected. Instead, I saw a mountain range, the Andean mountain range, and they told me: "It will go especially to Chile, also the San Andreas fault from north to south completely." I see earthquakes, volcanoes, tidal waves, hurricanes, everything happened very fast. Suddenly all that stops going through that mirror screen and I see nothing but its smooth surface again where nothing was reflected. And they tell me: "That we are making a commitment". Antarel said: "HUMANITY WILL RECEIVE WHAT HE HAS CREATED, BUT YOU WILL BE WHO HELPED TO TEACH TO THINK AND WORK IN POSITIVE".

In the Xolar Meditation of the 5th day in the Giant Tent :

As soon as we started, I began to feel a strong energy that shook me inside, removing all the cells of my body (almost as in the xendra of the previous night). I think that at that point we were extremely sensitive. We begin to mantralize the cosmic name and suddenly I hear clearly sing my own with a wonderful and sweet female voice. I opened my eyes, turned my head to see and hear if any of the sisters had a cosmic name similar to mine. I listened for a moment and nothing so I closed my eyes again and sang my cosmic name again and I heard again that a

woman was singing it sweetly and I felt a hand resting on my right shoulder. An energy of love enveloped me and I felt that the Anitac Guide was the one who was next to me. I began to feel an impressive energy, something Christic that excited and she told me: "To receive the Master Jesus you have to prepare" I mentally asked why and she clarified: "You will enter the xendra and reminded me of my commitment when I mentally told him: Who? I? Do not!! I let myself be carried away by what I was living and felt beautiful songs among the cosmic names of my brothers there and the faces of many people I love even though I am not close to them began to pass before me. Anitac tells me that all the time we will be working with the Christ energy. I realized that the dialogue with Anitac was maintained by my real Being, Avehgoel and not Mariela.

So I "went" to the time of Jesus when he preached and I was a young man of about thirteen who was behind him wherever he was and where he sat very close I sat. And they called me Haleones.

The Night of the 5th Day

All the time I thought that what I believed had been transmitted to me that day Anitac was pure mentalism so I only left it written down in my notebook without commenting it with anyone. See if I'm going to enter a xendra! ? When we chose who would be representing Uruguay, we chose Betty Rodao, a very dear sister and one of the most representative of the Mission in our country, always present and firm in her position. Everyone is happy and we celebrate with the conviction of being very well represented. Then there were some inconveniences and we all went out sent by Sixto to do an hour of silent fasting. I walked along the beach by the sea, mantralizing my cosmic name all the time, and at all times I felt a presence of Light accompanying me, an intense light on my right shoulder that was not the spectacular light of the moon. Everything was magical, the landscape of that sea that I love so much with the moon illuminating it, making it shine, the sky with millions of stars that were not dimmed with the moonlight, the brothers who went or came each in their own. I did not feel any cold, I was coming back and very close to the place where the Xendra was physically located I felt stop and "hear" something that came from the sea, I clearly felt that the beings that inhabited that sea were those who wanted to communicate. Our younger brothers wanted to say something. Then I heard them again: "Help us! Let's work together. "

Mentally I said to them: "Come brothers, we will help you (thinking that we could see some dolphin or whale). I waited for them until we left on Thursday, the 6th of a place (a whole family of dolphins appeared a few days later ... Dead ... Did they come looking for us and arrived too late?).

We are a large group scattered throughout much of the planet committed to humanity and they are our brothers of the sea are also part of this beautiful planet therefore we owe it to these wonderful beings too. Let us join them in doing our jobs, especially when working with water, let's call them. Feel them, they are there soon to help and be helped. At the end I attached an informative newsletter that I found these days made some time ago by brothers from other groups that talks about this topic.

Returning to the tent to meet we knew that there had been a great change in the people who would enter the xendra. Sixto said that now he had to choose him and had opted because they were all Uruguayan and that they were all women. They were intense and mixed feelings, pity because I liked that each country had the opportunity of a representative and a feeling of internal nerves when Sixto announced the twelve Uruguayan women. Would what Anita had told me in the morning happen?

At dawn we all gathered by the sea and Sixto began to name the girls that would enter the xendra and I had the immense joy of being called with my sisters to represent not my country but humanity and I realized that the responsibility was very great but I knew that I would give my all to be up to the circumstances.

Today remembering I thank all the brothers who supported us with such love, those who were physically present on the beach and those who had sent their energies from far away. I sincerely wish I had been able to live up to the commitment that meant.

8/6/09

EXPERIENCE XENDRA in the early morning of the last night ...

"Everything is ready, the water, the sun, the mudbut if it is missing, there will be no miracle"

Revelation, 4: 1 = "After this I looked, and behold an open door in the heaven; and the first voice that I heard, like a trumpet, speaking with me said: Come up here and I will show you the things that will happen after these "...

Revelation 4: 4 = "And around the throne were twenty-four thrones; Y I saw 24 old people dressed in white clothes sitting on the thrones

Revelation 4: 6 = "and before the throne there was like a sea of glass similar to glass. "

We were twelve women who walked with Sixtus to the edge of the sea, where he led us but at the same time we felt. With the physical eyes nothing was seen, but without doubt the xenda was there because when we stopped at that precise place my experience was this: I started to feel an energy that made me shake and shake all the cells of my body, but I did not It shook but was

something internal, something that can not be described but felt. I feel then that they touch my back, a very soft hand settled on it, I feel that Anitac and Oxalc are next to each other, their love energy was clearly felt. In the same gentle way they take my left arm and with a movement they induce me to take a step forward and although I was still physically there, very still my being was the one who stepped forward and entered a circular column with a light very white and immediately placed me in a large room where there was as only furniture an enormous table like glass but not transparent, without a defined shape behind which sitting on high chairs forming a large semicircle were very different beings in appearance of each other, there was an amorphous pope, others soaring, others smaller, I did not see the faces too much, but I did feel the energy emanating from a deep, unknown, ceremonious love. To the right and on foot I saw Joaquín; His hands were intertwined, his white beard, a handsome young man who looked and felt happy and ceremonious for the occasion, there was also the high Antarel, Oxalc and other brothers. There was a Christ energy in that place. And Joaquín said: "Be welcome, Love and Peace!" I have bowed. To us?. So, God, the commitment is too real! (I thought). Ellos se reverencian ante nosotros !!. Y desde allí comienzan a trasmitirme cosas, conceptos, etc, y yo sentía que la información entraba en mí en forma de una energía que no era continua sino que cada información caía compacta pero separada entre sí, como en bloques. Y pensé con preocupación: no me voy a acordar de nada!! Tengo que prestar atención, pero la información parecía entrar y entrar, caer y caer encima y dentro de mí.

Y me dicen: "El planeta, la Madre Tierra es fuerte y resiste, nosotros debemos apoyarla creando esa fortaleza mentalmente cada día, por ejemplo una oración como esta: La Madre Tierra es fuerte. ¡Madre, resiste! nosotros estamos contigo y así es. Porque la Madre Tierra es un ser viviente, me decían, es como la mujer que está apunto de parir. Y me mostraban al planeta latiendo como un corazón gigante. Entonces siguen diciendo : "Ella (la Tierra) y nosotras (por las mujeres) deben ser fuertes. Y me mostraban muchas mujeres caminando juntas vestidas de blanco y detrás hombres caminando juntos y me decían: " son las energías femeninas y masculinas. Juntas. Y me vuelven a transmitir de LA FORTALEZA de la mujer, como fuerza importante para salvarnos y salvar a los demás. Tan fuertes como para soportar un parto, dicen. Y entendí que me decían que la Madre Tierra va a soportar el GRAN PARTO PLANETARIO y los seres humanos con FORTALEZA, entre otras cosas para resistir cualquier embate también. La energía femenina y masculina está en cada uno de los seres de la Creación, hechos a imagen y semejanza del Creador. En cada encarnación desarrollamos mas una que otra para actuar como hombre o mujer, pero tenemos (nuestro verdadero Ser) siempre las dos formando un solo ser de luz que es lo que somos.

Luego me muestran el Gran Disco Xolar del Paititi, me situaron ante él y de inmediato estoy en medio de nada y veo el gran disco como un holograma dorado latiendo como un ser viviente suspendido en el aire, va descendiendo hasta el suelo y Sixto se para sobre él y alrededor aparece el holograma de los restantes doce discos sobre los cuales nos vamos parando las doce mujeres que estábamos en el xendra, representando la Fuerza, el Valor, el Amor y la Intuición. Las mujeres la fuerza y el valor, los hombre el amor e intuición (o sea que las mujeres debemos incrementar la energía masculina para ser mas fuertes y los hombres la del amor para ser mas sensibles y así formar una única energía).

Hagan así, me dicen, y veo el círculo formado por las mujeres que llevamos las manos hacia abajo e inhalando entramos en nosotros la energía de la Madre Tierra (su fuerza) y la llevamos al

plexo xolar. Luego elevamos los brazos y pedimos al Profundo Amor de la Conciencia Cósmica la energía del amor y la llevamos al plexo xolar uniendo ambas allí y poniendo las manos en forma de disco sobre el plexo enviamos todas a la vez ambas energías unidas al hombre del centro que las recibe en su plexo xolar y los trece unidos por estas energías trabajadas afirmados al planeta y al cosmos, con la mano izquierda hacia abajo (hacia la Madre Tierra) y la derecha hacia arriba dirigiendo esa energía mentalmente detrás del gran Portal Galáctico vamos ascendiendo todos llevando al planeta UR o MERLA o PACHA MAMA, o TONANTZIN, con nosotros hacia ese gran Portal Intergaláctico detrás de las lunas de Júpiter hacia aquel gran paso dimensional que nos llevará al REAL TIEMPO DEL UNIVERSO y así liberaremos a nuestros Guías hacia sus propios lugares y podremos caminar solos ahora siendo nosotros los que ayudemos a caminar.

Luego veo sobre la mesa muchas tablillas doradas de un material como papel grueso pero metálicas, no duras, semejante a papel de pergamino; éstas tenían muchísimos símbolos, la mayoría no los conocía y recuerdo solo algunos como el símbolo del alfa, un espiral, tres círculos concéntricos, un círculo con una cruz en medio, una pirámide de base triangular, un tridente y dos corazones, uno dentro del otro.

Todo está allí, es el conocimiento. Todo se le dará a Tell Elam como representante de la Misión en Merla, pero nosotros debemos apoyarlo, estar con él, trabajar a la vez con él, estemos donde estemos,

También veo una ciudad de cristal bajo el mar y delfines y ballenas apoyando a los trabajadores de la Luz , a todos.

Me dicen los Maestros: “Ustedes saben como leer los símbolos, como se deben interpretar. Usen sus cristales y sus nombres cósmicos entonándolos frente a cada símbolo y así los descifrarán. Son ustedes los Iniciados que sabrán interpretarlos. Me dicen que somos los representantes de los 144.000 danzantes que hemos lavado nuestras vestiduras y estamos listos. No decaer en nuestros trabajos la responsabilidad del compromiso es ineludible. Entonces Joaquín me trasmite:

“Los velos se descorrieron, los misterios ya no son. Todo lo saben desde mucho tiempo atrás, solo es necesario que tengan FE al aplicar lo que ya saben. Y hacerlo. Todos los que están aquí se han comprometido. De ustedes lo esperamos todo”.

En la mañana todos volvimos al mismo lugar en la playa y Sixto llamó a las doce mujeres para entrar nuevamente al xendra. Hacia allí fuimos y ya dentro del mismo comenzamos a mantralizar RAHMA y todos los hermanos detrás nuestro apoyando con fuerza. Se sentía su energía. De pronto sentí dejar de mantralizar porque una energía indescriptible e imponente comenzó a llegar como del mar y del cielo, no lo sé, pero esa energía penetraba de una manera que no se puede describir. Y entonces lo veo allí parado frente a nosotros, sin ceremonias con una HUMILDAD que conmovía, con un AMOR que envolvía todo, al SEÑOR DEL TIEMPO, aquel que nos mostró el camino y nos dijo: “VEN Y SÍGUEME” y no lo escuchamos, no lo oímos y nos dijo también: “LO QUE YO HAGO USTEDES LO PUEDEN HACER Y AUN

MAS” y no le creímos, y no lo entendimos. Allí detenido junto a nosotros, con una túnica blanca y por encima de los hombros un manto rojo que volaba con el viento como su pelo, con unos ojos tan profundos que se veían negros desde los que salía una energía de AMOR que conmovía todo, estaba el MAESTRO JOS H UÁ . Y entonces comencé a llorar y oía a mis hermanas llorar también y yo me decía: ¿Lo estarán viendo? Ojalá lo estén viendo también.

Y pregunté: ¿Cómo es que EL está aquí? ¿Cómo es que podemos soportar su enorme energía?.

Y me dicen: “Es el Señor de los Tiempos” Este es el momento y ustedes ya están preparados.

Y EL estaba allí frente a nosotros y el mar iba y venía y lo acunaba y detrás ví a Oxalc y detrás vi muchos Maestros, muchos seres. Todos estaban allí, los 24 Ancianos, los 9 de Andrómeda, los Maestros Extra e Intraterrenos, nuestros Guías, etc. Todos, hermanos, vinieron a darnos su energía, su amor, su fuerza y su fe en nosotros. Era una GRAN FIESTA DE AMOR, (juro que quería quedarme allí para siempre).

Por eso no podemos permitirnos decaer, caer o fallar..... porque somos los representantes de la NUEVA HUMANIDAD. Pero había que volver y sentimos las doce rodear a Sixto para pasarle las energías que a nosotras se nos había dado, para devolverle esa generosidad tan grande de permitir que pudieramos tener aquellas experiencias sin querer ser él el único protagonista . Y luego nos abrazamos todos y lloramos todos y aquella fiesta sin igual nos hermanó aún mas y aquella reunión de seres de todas partes junto a nosotros seguro nos dio la fuerza y la energía para seguir a pesar de todo hasta el final, hacia la meta trazada, llevando con nosotros a todos los que podamos llevar para que muchos vean el AMANECER GALACTICO y puedan sentir lo que es vivir en Paz y Amor.

Para el final del encuentro habíamos planeado ponernos todos los uruguayos frente a todos los hermanos del resto del mundo y cantarles una canción, pero no se pudo por falta de tiempo, así que el viernes 7 en la conferencia de Sixto, a la salida se la cantamos a los que pudimos: Aquí va para todos:

“Porqué perder las esperanzas de volverse a ver, porqué perder las esperanzas si hay tanto querer. No es mas que un hasta luego, no es mas que un breve adiós, muy pronto junto al fuego nos reunirá EL SEÑOR. Con nuestras manos enlazadas en torno al fogón formemos esta noche un círculo de amor”

Y así es hermanos en la Luz , todos debemos unirnos en Amor y con Voluntad y Fe crear este nuevo día, este Amanecer Galáctico que ya está aquí.....

LOS AMIGOS SON ANGELES QUE NOS LEVANTAN SOBRE NUESTROS PIES
CUANDO NUESTRAS ALAS TIENEN PROBLEMAS PARA RECORDAD COMO
VOLAR.....

PORQUE SOMOS AMIGOS, UN VÍNCULO QUE JAMÁS SE PUEDE ROMPER, ENTRE NOSOTROS, HABITANTES DEL PLANETA UR Y CON LOS HOMBRES DE LAS ESTRELLAS.

AMOR Y PAZ PARA TODOS !!!!
LOS AMO !!!!

La información prometida sobre los delfines

Uno de los últimos agroglifos que aparecieron en Inglaterra nos muestra la Tierra rodeada por dos delfines gigantes. Ese mismo día, Thomas, un niño búlgaro conocido por sus dones extraordinarios recibió un mensaje: “Este círculo es un llamado para despertar a la Humanidad y no son simplemente los niños, ni incluso los delfines y las ballenas los que os lo han hecho llegar. Vienen de nuestros hermanos y hermanas de otras dimensiones y de otros planetas. Y llegan exactamente a su hora. ¿Qué haréis? ¿Abriréis vuestro corazón con el fin de volverse una parte del Plan del Creador? O bien os volveréis hacia el otro camino, el que os proponen los que persiguen distraer vuestra atención? Amigos del planeta Tierra: este mensaje proviene de la Constelación de Liria, los habitantes de la Tierra estáis a la puerta de acontecimientos de vital importancia. Son acontecimientos que no se presentan en vuestros libros de historia, pero que han sucedido ya en otras épocas en el planeta. Nada es nuevo, los hechos se repiten hasta que la conciencia de los hombres sea diferente. No todo lo que está pasando es malo en nuestro planeta, en los últimos tiempos ha habido acontecimientos que han supuesto un cambio fundamental en la situación general y que permite albergar optimismo y esperanza. Vuestros hermanos del espacio quieren hacer hincapié en la importancia de que cuidéis los delfines y ballenas del planeta, son seres muy evolucionados y de los que desconocéis prácticamente todo. Ellos están destinados a jugar un papel muy importante en vuestro desarrollo como seres humanos.

Sin embargo, hasta ahora los habéis masacrado, exterminado, envenenado y molestado con vuestros sonares y tecnología de guerra. Es de vital importancia que modifiquéis vuestro comportamiento anterior y que os planteéis nuevas formas de actuar y de relacionaros entre vosotros y con el conjunto de los demás seres” (Texto extraído de un boletín informativo creado por hermanos muy queridos de uno de los grupos Rahma de Uruguay) PARA PENSAR.....

FROM THE HEART OF SOUTH AMERICA TO THE CRYSTAL HEART FROM THE PLANET, AND
FROM THERE TO THE HEART IN THE AMAZON JUNGLE AND THE HEART OF GALAXY

World Encounter of Extraterrestrial Contact from August 1 to 6, 2009

"As everything is accelerated and the dimensional transfer is at the doors, we need them awake and open to the call to be reunited in the place and time planned to complement what has been achieved up to this moment with what has yet to be received and experienced; thus prepare a world meeting for the month of August 2009 in Uruguay, where the heart and spirit will vibrate the minds and souls of all those summoned in time. It will be in a place of beach, where they can attend all those who for that moment have not less than two years in the mission. "

(Oxalc, 04.04.08 Zamora, Spain)

"Uruguay is a land that favors contact at all levels. It is located at a crossroads of very powerful energy lines and at the same time, its crystalline soils concentrate a large amount of energy where it is recorded planetary information. Its population is positively affected by all this, with a tendency that can and should be exploited for the establishment of the bridge of definitive connection with real time.

The time comes then that those who prepared and stayed awake working for the light to not get lost on the road and be useful to the larger plan, are called to take more committed positions of action. They will receive specific roles for this, something that until now they have been doing in an intuitive and well-intentioned way.

The global contact meeting next year (2009) in the month of August in Uruguay, must integrate them all, so do not waste time and warn in all four directions so that they are represented in cross the four directions of the Earth, and get ready with exits to the potential places where they will receive messages. You will see that confirmation will be given in the right place, next to the sea because part of the work will have to do with water reprogramming the element, protecting with this action your coasts and country. "

(Mardorx, 06-14-08 Montevideo, Uruguay)

"Next year, go to the meeting in the first week of August. It will be six days of internal work and group understanding. The xendras will manifest themselves so that they live very deep connections with us and with the White Brotherhood. "

(Oxalc, 06.19.08, City of Treinta y tres, Uruguay)

"In Uruguay during the first week of August, the guidelines for the New Time of all and of all will be marked, asking the participants to work with the elements as we had already anticipated. You will see the effect of your awakened consciousness and of your union anticipating and preventing.

The time is come to remind you of everything you have experienced during the process of your walk and can interpret their meaning, uniting the parts and integrating the general sense of your call and call. And it was lived more than what was remembered, so it is time to remember to act accordingly. "

(Sampiác, 11-30-2008, Ainsa, Aragón, Spain)

"(...) The meeting of Uruguay for this reason is very important, because with the due preparation of all those who attend, they have the possibility of consolidating one more step in the reconnection process of the times.

That's why we strongly recommend that those who go make them with the idea of giving everything for love.

Therefore, unconditional love for others is added to the preparation.

On the third day they will receive the guidelines that will allow them to come closer than ever to this new universe that they will soon share with other worlds and civilizations.

If you propose it, it will be an encounter with you and with the future that also lives in you.

Until August, that the preparation be to irradiate light, because it will be necessary so that they can see who do not see.

We are and will be with you as long ago, in many places and in different ways, assisting you, guiding you as guides that we are, but as you know, it depends on you that what happens must happen at the moment that is expected.

Your heart hosts many stars, make them shine and make light on Earth a reality .

(Mardorx, Buenos Aires, Argentina 22.01.09)

"(...) The difficult thing is to make them understand that nothing is impossible for you, and that inside you there are unlimited potentials that have not yet been explored, which makes them unique and special; perfect for the work entrusted to them: learn to love and teach to love.

They must open their eyes. Feel what we are saying, and what we have not yet been able to tell you. If you open your mind and your heart in parallel, they will perceive the dimension of what is expected; of what is happening; of what they must prepare to know, and what is to come.

(...) This is a good time to test how much they learned; this is the hour of magic and alchemy; of the transformation of minds and hearts, and it is the moment of the change of models and expectations. We tell you because you can avoid that there are setbacks and false expectations.

This is the time of the new beginning, and not in three years and little. It is now when the steps of each and every one of you are directed, oriented to the achievement of the Great Plan, therefore the mission requires attentive and awake in every way. That is why today they are here, and each one where he is. Let yourself be guided and flow so that changes and planetary transformations are operated through you.

(...) This year they will have several important outings where we will meet and meet, like those of Peñagoloza in Castellón, Spain; and Punta Colorada in Uruguay. In them we will be once again together and united in purpose and action, experiencing very serious and necessary interdimensional experiences. Now on what you should concentrate your attention just like us, is to save the best of the planet, believing in change and being the generators of change with hope and conviction. "

(Sampiac, Chilca 24.01.09)

"(...) All of you were called in time to attend not only as witnesses but as executors and architects of the planetary quantum leap. You are the instructors of the new time, those who must have grown in humility and conscience to be able to guide and guide us all, including us. Now we are the ones who await that they are ready to take the next step with you.

Soon groups around the world they will have access to new and convincing interdimensional experiences, for which we will have to standardize the preparation by offering the crystals to those who do not yet possess them. You will live Xendra experiences where you will connect with the retreats interiors, so we need each group to communicate and have their own receptions, so that the information is up to date, maintain a close and direct relationship.

In the coming days we will approach you, and we will give you guidelines for a more intense preparation where you will act as planetary guardians and guards of planetary events, because now it is in your hands that

everything is as it has been anticipated or see modified for good.

(Sampiac, San José, Costa Rica 29.01.09)

"August in Uruguay will be time for action and commitment; It will be the moment when the veils will draw back and you will be witnesses of what they are capable of. "

(Oxalc, 11-02- 09 Manizales, Colombia)

"Beloved brothers in the light, the time is come for each one to take his place and act. Remember that you are creators of realities; potential creators of different alternatives, key and teaching a universe that was in a dead end.

From now on nothing will be impossible if they maintain the mental community, if they unite with love, if they maintain mutual respect and coexist in fraternity, preventing the dark force from facing them against each other.

We are with you. We will be until the moment of the dimensional transfer and even later.

Call those who are, those who have been and still are; to those who have vibrated and made others vibrate in the spirit of the mission; to those who have supported and continue to do so. Seek the contest of those who love, understand and feel the message, and who are always willing to help and serve the Plan. With your company and presence everything will be given, and they will strengthen each other giving them a new impetus, a new beginning, the necessary to complete the started and help with it all and everything.

At the exit of Chilca for the end of March, be attentive at 7 p.m., then at 9 p.m., at 12 p.m. and finally at 3 p.m. They will see us, we will be there as in Peñagoloza and Punta Colorada. And we will be from before, giving guidelines and directing processes, preparing everything so that the consequences are transcendental.

(...) There will be xendras in the world meetings of this year, some of them directly connected with the Internal Retreats of the White Brotherhood. Everything will flow through them and yours. "

(Oxalc, 03-19-09, Montevideo, Uruguay)

"(...) Punta Colorada will give way to the beginning of the most active and committed phase of those convened in time.

Well, they will be sought by the man who will not find answers to everything that happens around him.

The xendras will open up before your integration and delivery, arriving before the Mentors that will deliver the information that remains for these last years before the reconnection of the times.

They will also access the retreats of the white brotherhood of the earth where the Masters will give precise guidelines for the next trip to Paititi in August 2010.

(Oxalc, Montevideo 06/04/09)

"(...) Know that here in Peñagoloza they will open a door and in Uruguay they will enter it.

(The guides, Peñagoloza, Spain 05.06.09)

"(...) In Uruguay from the beginning to the end they must provide internal work, with full experiences and irradiation, and our support will not be left waiting. They will be there to give the best of yourselves. To see and do internal and external magic. But look inward, what is really important and transcendent at that time. There you will see the immediate result of your commitment.

Look and observe, everything is organized so that they can do what is expected of you.

(Sampiac, Peñagoloza, Spain 05.06.09)

"(...) If things are prepared, they arrive and they are easily given because you are the ones that rise vibrationally, and better disposition greater closeness and strength. And a meeting is not a walk, it's an adventure of consciences and minds in communion that Open to share.

(...) Everything that follows is a law of consequence, and you must put yourself in front and direct events, anticipate yourself by generating new causes. Make use of your will and conscience in it. You already know what you have to do and this is the time that you were told would come. The great responsibility is in your hands.

Prepare for the big tests that are planned for this year and the following, if they are united and perceptive they will know how to act. The change has already started and it will be for the best. "

(Sampiac, Lérida, Spain 23.06.09)

"(...) The Meeting of Uruguay must prioritize internal work, harmony and fraternity. It will not be enough to be together, they will have to reach unity with depth and spirit of camaraderie so that they can create the conditions that are planned and can take the next step.

Now you should not neglect any detail of everything that I teach you because now is when everything will come to have meaning in an integral and dynamic whole. Everything you were told was for now, for this time, and the instruction was to strengthen them in the face of the onslaught they will have to face from now on. Having gone through and overcome all that has been lived will be gravitating, because attacks will strengthen them by activating previously unthinkable capabilities.

In the planetary future every second of your current time is creating centuries in the time that is being created, which is the sum of ours and yours, a third option; something new and exciting, something different and yet so similar to what you have idealized. You will see how we will all be witnesses of how everything changes, with what speed and forcefulness, and events break through paths not yet covered.

If they are attentive, sensitive and in good rhythm, looking and feeling from within, living the changes changing, they will know how to act, where to be and what to do in front of every situation that will happen vertiginously, and even this will allow them to anticipate. "

(Oxalc, Spain 28.06.09)

"(...) The time has come for the conclusion of the objectives of the Rahma Mission.

As in a great universal council, Masters and Guardians, we will be there in Punta Colorada, next to the Brothers of Time. We need you aware and attentive at the moment, united and in tune.

The hour is already given, the preparation concretized.

The bell has sounded in the heart of every Brother. "

Yes, we are your brother guides in mission.

It is foreseen that in this meeting there will be the transfer of the Xendra experience, for that reason they maintain the levels of harmony that they have achieved and that have been achieved thanks to the fact that they

have finally assumed the value of discipline, order, delivery and humility.

Everything when it had to occur on a planetary level it has been arranged and will happen in a short time in your world and in humanity, with the important modifications of your decisive action.

We find a greater maturity in the groups to assume the great challenges, so predispose to live their own experiences listening to the call and responding to the extent of expectations.

The Xendra experience will take you both in front of the 24 Elders of the Galaxy and the Paititi, as well that open your mind and your heart. The Xendra is already in place, in front of you so that you do not have to look for it. He already found you ready, now you just need to take the next step in union and integration. What you achieve in small will be multiplied throughout your world.

The next few days will be abundant in planetary changes, and individual and collective signals. Stay tuned and judge for yourself the evidence of the imminence of the transformations.

To the groups through you we say: organize frequent meetings of integration and exchange, of irradiation and planetary help. We will support them Y they will make you feel the magnitude of what is expected.

Sun discs collaborate in the accelerated process of awakening and will be useful at the moment of reconnection of time. We will give you precise data of future trips, for now meditate the content of the messages trying to stay awake and acting accordingly.

Yes Oxalc.

Dear brothers in mission, we have been evaluating you these days because what you are looking for is not intermittency but a constant vibration, and if possible in continuous ascent, but this is achieved if you participate in the work but with conviction and detachment. We see that there are different states of consciousness as many of you have noticed, but that is not an impediment to the best outcome of the exit; the important is that no one is allowed to disharmonize easily. Keep firm those that are consolidated, independently if others do, participate or believe.

A few make a difference, otherwise we would never have motivated them to gather thousands of wills on the beach.

Experiences are planned but we require of you activate all the sensitivity and mental openness of which they are capable, for that reason the requirement of the antiquity in the practices, to know how to wait and value.

Already some have been perceiving what is reserved for them. In front of you opens a portal of infinite and overwhelming possibilities that needs the correct key, and this is an attitude.

We hope that this meeting will be an accelerated process of individual and collective evolution, and the awakening of potentials; at the same time, we hope to a group demonstration of maturity and disinterested delivery for the Plan, and for humanity. Remember that he who seeks nothing for himself, will receive everything ...

As we all find them in the Planetary Countdown, you in the exit are shortening the times as elastizándolos to do what they came to do.

To integrate more, deepen the mission and seal the commitment of centuries. Go ahead, do not stay, put your best. We value your effort, and your merit but we know that you can still give more and you should not stop doing it.

We do not give them schedules because everything finally always depends on you. So any time is good if they are attentive, ready and sensitive.

The Paititi was opened for perseverance, humility, courage and detachment. Now the Twist of Time will be realized in the same way, and this output will lay the foundations of all this.

Yes Oxalc.

You have to have a lot of courage to face and face your own shortcomings, and even more to face them and overcome them.

At 3.30 a.m. we wait for you to live experiences that with your perseverance and dedication you will receive and they will value. This schedule will allow to move away so much curious about the area.

CARTA TO THE MISSIONARIES AND INSTRUCTORS OF THE NEW TIME

"Now is the time when time is now" (Oxale)

When the extraterrestrial guides requested in communication received and confirmed in 2008 that a world meeting be held in Uruguay for the first week of August 2009, they were not asking us to organize a social event that would gather everyone who wanted to be present, or the usual friends, but they were calling us to a mission and collective responsibility. The idea was to carry out, from the heart of South America, a program to join and integrate on its coast Climate Change, which we know and demonstrating how to reprogram the water elements heights. We were asked to analyze that maintains its harmony and balance etc.

Quando los guías extraterrestres pidieron en comunicación recibida y confirmada en el año 2008 que se realizara un encuentro mundial en el Uruguay para la primera semana de Agosto del 2009, no estaban pidiendo ellos que organizáramos un evento social que reuniera a todo el que quisiera hacerse presente, o a los amigos de siempre, sino que nos estaban llamando a una misión y responsabilidad colectiva.

With the accumulated experience over 35 years, with more reason than ever we had to take into account the requirement of the guides that they should attend the indicated place according to the messages ("by the sea", specified in dreams and visions by the brothers, later corroborated by the amount of synchronicity and through blunt sightings in the area registered by the police and even local radio journalists), only those who had been in contact groups for at least two years, due to the demands of the work to be carried out. That is why it was decided that in order to achieve greater integration and harmony, in the midst of the best discipline, only those who could be in the full six days of the meeting would attend, arriving all the same day and returning us all together. This as a sign of maturity, order and discipline.

Those who could not comply with the requirements or could not participate as requested would be asked to from where they will be supported, so that the central group at San Francisco beach, between Punta Colorada and Punta Negra channel all these energies and intentions.

From the beginning there was a coordinating group that filtered the requests of the participants, as long as they met these requirements, taking care to inform them in detail about all aspects of the meeting, but above all, insisting on discipline.

Personally, I stayed away from the organization, which was entirely in charge of the Uruguayan groups, whom I congratulate for their brilliant management, and especially the brothers of Punta Colorada for their dedication, love and service.

Shortly after I received the message in 2008, which was supposed to be the meeting on the beach, at the edge of the sea and being in Uruguay, I was approached by a very dear brother who leads many groups, trying to persuade me by proposing that we change the place of the exit, to a land inland, a field that he and his groups owned so that the expenses of infrastructure and funds to be invested will remain in that place for the future. I clarified to this brother that if the guides had asked him to go to the sea side, he had his deep reasons, and that we can not change a place simply because it is of our convenience or pleasure.

The response was immediate and has been seen. This brother and people of the groups not only did not participate in the meeting, but they made a parallel exit and not just as support, but to try to frustrate and counteract something that had been requested from above. How right were the guides when in the messages they anticipated the stalking from within the groups asking us to be attentive and prepared to face the divisions and internal tensions. These people from that moment made a very bad campaign to the meeting and to my person suggesting that I was not the one to organize a global contact meeting in Uruguay, and that my messages were mentalisms, because how did I come up with a way out? six days by the sea in the middle of winter (August), and that was going to be the cause of many people getting sick.

I do not consider myself a fan, but my full confidence in the guides is based on experience and the strength and confirmation of the messages, unlike those who say they channel but there are no new contributions or corroborations.

On my Facebook site many people wrote me or put their views and diverse points directly on the wall. As they consulted me about the meeting, I explained again and again the nature of the meeting, and why the requirements. And on more than one occasion when they asked me about the place of the exit, I said that this would be north of Montevideo on a beach, which caused several people with a gratuitous aggressiveness to call me a fake, a liar, a deceiver because Punta Colorada it was to the north but to the east. There I realized that tempers were heating up, since from my assessment the place was certainly to the northeast, but it was north at last.

Also over the months I was approached by several brothers, and they even wrote to me trying to persuade me asking me to endorse the participation in the meeting of their partners, friends, relatives, etc. that according to these people, they deserved more than others participate in the meeting, who could not close the doors. Obviously these brothers did not understand the order of the guides, and that the meeting was not a party or an extraterrestrial rescue via space ships, but a commitment to dedication, service and hard work, which required that people have the practice and perseverance to withstand the amount of meditations and work followed with fasting and discomfort.

The day before the start of the meeting I reiterated to all the attendees at the Ateneo de Montevideo the requirements of it. At that time, more than a hundred foreigners from fifteen countries were present in addition to the locals. I emphasized again and again the requirements of the guides explaining why and for what of them, as well as reiterating once again the nature of the meeting consisting of a total work in service for humanity and the planet. It was not going to be an outlet to seek experiences, but to give the best of ourselves, and if the experiences were given, they would be well valued and received.

I went back to saying that "we all came together and we came back together", and that was not negotiable. Because an event of similar characteristics could not be subject to the conveniences of schedule and disposition of the participants. There were many people who had made a great effort to participate, coming from far away with great sacrifices and we all had to put the same thing. Many had stayed in their countries and cities, depriving themselves of participating because they did not have the availability, and yet they would be supporting meetings and local meditations. Obviously there would be more of us who would be on that beach mentally and spiritually than those who could physically do so, and that was the idea. Not everyone has to be in the same place doing the same, and there are many ways to be present.

The departure of the buses and the transfer of the brothers to the place was impeccable, as it was the panorama that we found in the beach of order, infrastructure and foresight. Accompanying us the Sun since we left Montevideo.

We have at all times with the perimeter surveillance and support of the local police, distancing and preventing curious people from approaching and interrupting the dynamics.

The first day of the meeting allowed us to do a lot of work, meditations, reception of messages and chains of planetary radiation with a warm and benign climate, we would say spring that accompanied us during the six days of the meeting, when only two days before starting the Temperatures were as we were told of 10 degrees below zero with heavy rains. Also during all the days of the meeting there were all kinds of atmospheric phenomena of great beauty, rainless rainbows, the halo of the sun, the halo of the Moon, beautiful and colorful sunsets and equally spectacular sunrises.

The works were largely shared and distributed among all those who wanted to collaborate, share and support. And at the end of a very long and strenuous day, in an atmosphere of wonderful camaraderie we prepare to sleep a few hours. Before retiring, I had to approach the surveillance line because some of the older brothers of the groups who had not been able to arrive early wanted to be admitted to the meeting. I had to explain that no concessions could be made, and that the demands of that exit had been repeated and explained to the point of exhaustion. Not missing someone who appealed to the friendship of years, receiving again the same negative response, while others understood and agreed to withdraw. I do not miss who took it as a personal affront because he wanted to participate as he did without caring about the consequences or the damage that this entailed to the event.

It is interesting the case of two old brothers who stoically accepted not being able to join the meeting the first night, staying several kilometers from the area supporting in the following days. They commented to me after having witnessed a surprising phenomenon that consisted of verifying that time stopped and everything remained constant without variation. And it was not just an impression, because even the stars and the Moon stayed fixed for too long.

The logistics in the meeting was impeccable in terms of portable toilets, water for the toilet, main tent for meetings and security. But the security came mostly from above because the television channels were circling the area, and although the road is on the side, they passed through there several times and did not see us. What is remarkable is that we were flown several times by helicopters and planes of the Uruguayan and Uruguayan aviation who were even photographing us.

And so the days went by, arriving on the third day when the sisters of several countries organized a work with the planetary feminine energies on the beach, it was about ten o'clock in the morning. and in front of the camp there was a small path that reached the beach and the seashore; for there, on the edge between the sand and the sea, a beautiful luminous arch began to form, which later acquired the shape of a dome that eventually enveloped the whole group that participated in the work directed by the sisters. It was a wonderful collective Xendra Gimbra.

Remember that the Xendra are portals dimensions that can be opened by the guides taking advantage of the energy of a special place where there are crosses of force lines or currents telÃ©ricas, combining it with psychic power and technology; but there are also those who can open themselves up with the work and concentration of the people. The Xendra 1 are like golden half moons where only one person enters, and those who contemplate it at a distance see how the person disappears inside of him. The width of this xendra is a few millimeters, and allows a physical teleportation. The Xendra 2 is similar to the previous one only allowing two or more people to enter it. The Xendra 3 is a gaseous luminous dome, which has volume and in which seven people or less can enter, and those who contemplate them from the outside see the people who appear and disappear, or even see them accompanied by tall and luminous beings. This type of Xendra called Gimbra allows conscious experiences of bilocation, the gift of ubiquity or conscious astral unfolding. The Xendra 4 is when there are more than seven people who enter this type of Xendra.

The Xendra remained visible and evident for two days and two nights. After which a distortion not too obvious to the physical sight was perceived in the place, this is explained by the fact that we were in a public beach a few hundred meters from the road.

One of the intense work that was done on the beach was the water programming which started in the main tent with all our water containers which were irradiated with the energy, the power of the mind, the feeling and the word, then we all go to the sea and drop part of that water to heal the oceans, rivers, fountains, etc. and leave engraved a message of love and planetary harmony. Also like the messages that were being channeled by the various brothers and sisters of the groups who insisted on working with the beings of the sea, they also radiated to them feeling their function and thanking them to act as planetary guardians.

We knew that no matter how much we channeled powerful energies and intense intentions, all this generated an opposition force that at some point would manifest itself trying to lower the vibration through aggression, tension, confusion and discouragement.

There was also the reception of the Cesium crystals among some of the participants with the constant and constant support of all the others. Many were witnesses of sporadic sightings that showed the support and closeness of the older brothers to the place and to the moment, which has been perpetuated in the innumerable photos that prove it.

On the night of the fourth day the almost 230 people from the camp entered the Xendra who were able to attend the call of Punta Colorado, in groups of twelve people, each living their experiences and standing for more than three and a half hours of mantrizations supporting each other to others.

The fifth day we had to make the selection of the people who would enter the Xendra for the last time on behalf of all, the responsibility fell on twelve women of different ages, all from the host country (Uruguay) who experienced beautiful experiences that enriched us all, repeating the next day for the morning before we left the place. After this there was the discussion to share experiences and conclusions which was intense and instructive.

Once the Encuentro ended and we left grateful and in a climate of harmony and integration, aware of the responsibility and commitment assumed and made on behalf of many, we observed that the climate changed rapidly as we moved away from the area.

The next day there was a conference with a full house despite not having made more widespread. The excitement was overflowing when the video images of the Xendra and the photographs of the event were projected, which even included the photos taken by the helicopters of the armed forces facilitated by one of our beloved brothers from Montevideo, always well connected.

In the following days, the photographs of sightings of ships, spheres, objects and unusual lights as well as of the xendra captured from the most varied angles facilitated by the participants by internet, rained down; to this were added the stories of the experiences lived both by the people of the groups attending the meeting and those of the groups established in the vicinity supporting.

Although the work carried out was very intense in an environment of collective growth, discipline and willingness to change and sacrifice, it was to be expected, as I said before, because "Any opposing force of equal intensity opposes it." tensions before, during and after trying to tarnish what had been done and lived.

And so came the news of an inexplicable stranding of dolphins in which they appeared dead on San Francisco beach, near the place where the meeting had been. That reminded us of the discovery during the meeting of a small seal or sea lion found sick during the meeting, and that the brothers of the Punta Colorado Group gave him relief.

The stranding was on Saturday, August 15, and the news came out first on Monday, the 17th on TV and in the EL PAIS newspaper on Tuesday, the 18th.

" Several tropical dolphins died in Punta Negra , and on Saturday, before the storm took them, there were 15.

MALDONADO | "The scene was dantesca", says Rodrigo García Píngaro, biologist and director of the Conservation of Cetaceans Organization (OCC): yesterday five dolphins lay dead in the sands of Punta Negra, some without their skulls or with their bellies open. It was the only way for the researchers at the Natural History Museum and the Faculty of Sciences to determine which species they belonged to and the causes of their stranding. Anyway, after the scientists took samples of tissues and organs, OCC volunteers buried the animals. It is not the first time that a massive stranding of Fraser or tropical dolphins has occurred in Uruguay. Anyway, it is still a strange event, says García. The first was verified by him in 1992 in El Pinar, although 4 years ago there was a major one at the mouth of the Santa Lucía river, says García.

In this opportunity, the first dead dolphins arrived at the coast in the early hours of Saturday, says Richard Tesore of SOS Marine Fauna Rescue. People in the area counted up to 15 bodies. However, the storm on Sunday took the majority and the current has not yet returned them to the sand, continues Tesore.

Although the results of the investigations are not yet available, García said that they handled four hypotheses. On the one hand, they estimate that due to "enormous changes in oceanographic currents", said tropical animals could have reached this area of colder waters, where they would have died due to "thermal shock", he explains.

On the other hand, if any of the leaders of

These cetaceans, who always live in a group, could have led them to a "collective suicide": "Dolphins have a social system that is very altruistic and of social cohesion, they blindly trust in what the older ones determine", says García.

In turn, the hypothesis of a death by contaminants is handled, which accumulate in their fatty tissues. **Finally, some submarine military maneuver could also have generated the stranding. According to García, "tests with explosives and oil exploration affect dolphins although they are far away, because as sound is their main sensory system, these maneuvers leave them" blind "**

From SOS Marine Fauna Rescue have already made consultations to specialists from the United States, Japan and France. As it is an endangered species of which very little is known, the news already aroused concern in the scientific community international.

! This was more than a week after the meeting! It was not during or immediately ... And what a shame it was that instead of responsibly asking my person about the situation, the comment was directly circulated in a tendentious way by the mailing lists, demeaning the work of the meeting ... What reading they will do then of this other news:

Two albino whales appear in Uruguay

28.08.2009 13:53

Another one of cetaceans: two albino whales were sighted in the Uruguayan coasts yesterday. It is a very particular case, since it is estimated that in the world only six of these strange specimens are born per year.

The presence of whales on Uruguayan coasts is growing year after year, as can be seen in the numerous sightings that have been taking place off our coasts.

An example of this is the appearance of a whale off the coast of Montevideo this Friday, August 28, a rare event that was only recorded three times.

Another even more curious novelty, however, occurred yesterday, after a cetacean census flight took place. Rodrigo García, director of the Conservation Organization of Cetaceans, explained to Montevideo Portal that yesterday a helicopter flight was made from Piriápolis to Chuy with the objective of taking samples of cetaceans.

In a total of six hours, 25 whales were sighted, which according to García is a very high figure for Uruguay. The curious fact, however, is that two "white as milk" albino whales were detected, according to the OCC director's statements; who mentioned that it is an extremely rare event.

Rodrigo García explained that only six specimens of this type are born in the world per year. Of the two animals sighted, one was an adult and the other a calf.

We are in the most transcendental and extraordinary moment of Human History, the moment of the end of the cosmic cycles, and of the fulfillment of everything that had been announced and prophesied, how unfortunate it would be that everything we have learned and lived would not help for the game of our particular egos and ambitions.

My gratitude and that of all of us who participated in the Uruguay meeting for their excellent organization and hospitality, and I feel that the Elder Brothers are more than proud of the commitment of the great Uruguayan branch family.

entonces vayan y digan que estuvisteis aquí con Nosotros...el mensaje hablara y

We are the 24 elders, fulfilling what is indicated above from Us, then go and say that you were here with Us ... the message will speak and so will know...

Real time is not only close, because as it is the real one, it is always here and every day it is feeling that there is no more time than the one that I created another time for DIVINE LOVE that they only entrusted us with, even without knowing how it worked, then also little by little we would learn from you, the time has come when the doors that were opened are opened, as if giving way to the light and then when they all open, the Redeemer will arrive and a word of his will be enough to finish everything, and began in the garden as a new wind for the flowers that were sown there and that from branch to branch they came together and they were more, Our creator has contemplated their growth, letting them alternate time to flourish and learn to live, now they will understand why He has been prepared around him, because his responsibilities for each one of you have been growing in each renewed commitment, his paths were open to learn but above all to teach with his uz that is born from the deepest sown in you, The Father loves you ALWAYS for it, nothing and no one will change the mission thinking that it is over, because it is just the beginning that is to come. At the Uruguay meeting the indication of the trip will be given again, there will be twelve, Tell Elam will receive the names, then all the others will support, the 24 elders of the Galaxy will be waiting for you in the place that is not here or there.

Remember that everything has been important, what they did and what they did not do, because their sacrifice at all times is LOVE and joy of the FATHER because you are in small like Him, because He knew that the man of the earth would become as He wanted. may they be, we love you

After the experience, two beings of light held me on both sides. They took me down a corridor full of light, opened some doors and I saw a huge green garden, the complete blue sky and then ask: and where are the flowers? and the loud and clear voice told me:

"IN THE GARDEN OF THE FATHER, THE FLOWERS ARE YOU."

At that moment I felt these words in the deepest part of my being, I felt a great responsibility to carry this message to those who should listen to it.
