

AIR LETTER

Canada.
March 28, 1969.

Mr. William E. Moser, J.P.,
19 Hurlstone Ave.,
Hurlstone Park,
Sydney, N.S.W. 2193,
Australia.

Dear Mr. Moser:

Thank you for your last letter of 8th October. It was very interesting.

I assume you have now seen the Condon Report. Is it available in book form in Australia? It is here. Also, David Saunders' book UFO's? Yes! is a must for reading, and should really be read before the Condon Report. You mentioned a book in Australia for which you wrote the introduction. Which book is this? If you would send me a copy and bill me for it, I will reimburse you.

By the way, how are my books going down there? Have they all been sold yet? Some very good reviews have appeared in North America. Which reminds me, you had stated originally when you asked for a review copy that a review of it would be published in your excellent NEWSLETTER. I guess I never received a copy of that issue.

I have submitted my brief on UFOs to our Senate Committee on Science Policy but it will not come up for discussion for some time yet due to the large number of briefs received by them.

There is a really high class UFO magazine just started out in Canada, called CANADIAN UFO REPORT. The address is Box 753, Duncan, B.C. If you write, I am sure they will be happy to send you a sample copy.

I have just finished reading Bruce Cathie's book and am most impressed by it. He seems to have discovered something of utmost importance. I hope this book will reach the right people. It deserves world-wide distribution.

As I always try to be brief, I will stop for now. My very kindest regards to you and your colleagues in Australia. Yours is a country I may wish to immigrate to one of these days. The outlook is becoming rather dismal in Canada, and, well, you never know,

Sincerely,
