Mr. Doug Collins,
CBC TV Studios,
Lanark Ave.,
Ottawa 3, Ontario.

Dear Mr. Collins:

In view of our recent discussion about UFOs during a
taping session, I thought you might be interested in the attached
clipping from the Ottawa Citizen (which appeared, incidentally,
the day after our taping).

Dr. Carl Sagan is one of the world's leading scientists,
and I have highlighted in red the statements in the article which
are of special interest. You will note that he has stated essentially what I told you concerning the possibility of life on Mars.

I thought you might find this article worthy of note in view
of your scepticism concerning my own statements.

I do hope our taped interview will be screened one of these
days soon.

Yours sincerely,

Arthur Bray
