Dear Mr. Cannon:

Thanks for your letter of June 11, received yesterday. I have seen Dr. Millman and am now preparing my report to you, but it will be a few days yet before I have it completed. I will have it in the mail immediately it is ready. I regret that it has taken so long but I had to arrange a day mutually convenient to us both, and it wasn't that easy for me to take a day off work at this period in order to spend the day at NRC. It was quite an interesting day.

It is not possible to visit NRC on a weekend. Such a visit can only be arranged on a regular working day, and by pre-arrangement. I think you may find some items in my report of some interest, so I would suggest you hold off any visit yourself until you have seen it.

Thank you for your kind words about my book. As a matter of interest, I did intend to give Millman a copy if he did not purchase one, however I did not have to resort to that. He asked for a copy when we first got together early in the morning. Also, I have been ensuring that ~~that~~ certain members of the government got copies - that has been my prime interest. Quite a number have them, but it has not as yet produced any results. I sent Ed Schreyer an announcement, with a covering letter months ago to see if he was interested but he did not bite. If he would like a copy I will be pleased to send him one. I even sent a copy to U Thant.

Must go now, and again, my apologies for the delay, but I am sure you understand. You will hear from me again very shortly, I promise you.

Very sincerely,

A.R. BRAY
