

REFERRED TO AS THE "ULTIMATE SECRET," IS THERE ANY TRUTH TO THE RUMOR THAT THE GOVERNMENT HAS ENTERED INTO A CONSPIRACY WITH A GROUP OF ALIENS TO EXCHANGE TECHNICAL DATA FOR UFO ABDUCTEES?

THE "GRAND DECEPTION" FACT VS. FICTION

by Timothy Green Beckley

Referred to most often as the "Ultimate Secret," the subject of crashed spaceships has become a "hot potato" among UFOlogists, with researchers divided in their opinion as to the legitimacy of such stories.

Among the more seriously inclined, the episode at Roswell, New Mexico, seems to get the highest number of Brownie points for being real. No doubt, this has to do with the fact that over fifty witnesses to the crash have been located and their testimony recorded. On the other hand, the MJ-12 papers have come under attack not only by "professional skeptics," including the likes of "bad boy" aviation editor Philip Klass, but have even been questioned by the Mutual UFO Network and the prestigious "Just Cause," both pro-UFO organizations.

Those in opposition to MJ-12 point out that the style and format of the documents do not seem to follow other government

papers from this same period. They also question the fact that the documents were sent through the mail by an anonymous party, and that they were not even Xeroxes of original papers, but were photographed onto a roll of 35mm film, and thus their authenticity cannot really even be tested as to the type of paper used or the year they might have been written (which could be traced rather easily otherwise).

In all honesty, however, researchers William Moore and Stanton Friedman have spent a great deal of time trying their damndest to prove the credibility of the MJ-12 documents. Apparently, Moore has established contact with a group of government agents (some retired, some still in the service) who "behind the scenes" have been trying to breach security, and finally release to the world news of the "ultimate secret."

These military personnel have gone so far as to promise some

"startling revelations" in the near future. A video interview with one of these individuals — his face in the shadows so his true identity remains a secret — has been aired privately for several investigators, including James W. Moseley. Among the forthcoming revelations promised is the startling disclosure that the U.S. Government (and presumably other governments) has established a liaison with at least one group of extraterrestrials, and that a sort of "trade agreement" has been put into practice with these beings.

Adding considerable weight to the rumors is an article that appeared in the July 1988 issue of *UFO UNIVERSE*. Written by television producer Linda Moulton Howe, the article "UFO Mutilations, Crashed Saucers & Aliens in Government Captivity," tells how, during a documentary special she was preparing for HBO, the author held a conversation with Air Force Office of Special Investigations Agent Richard Doty, who showed her a top-secret document which discussed a series of UFO crashes that took place in the Southwest in the late 1940s and the early 1950s. Alien bodies were retrieved from the downed craft and taken for examination by scientists with high-level security clearances. One being was kept alive at Los Alamos Laboratories, New Mexico, where it died in 1952 of unknown causes. During its captivity the alien communicated via telepathy that its civilization has manipulated the human races' biological, sociological and religious evolution since the beginning of recorded history.

Howe later added more details in a letter published in the *Just Cause* bulletin. "During the conversation, Agent Doty handed me some typed papers which were titled simply, 'Briefing Papers for the President of the United States,' about the subject of unidentified flying vehicles. There was no designation of a specific president, nor do I remember a specific date. Agent Doty said he had been asked by his superiors to show me the briefing paper, that I could ask questions, but could not take notes. The contents described a series of crashed UFO discs at Aztec and Roswell, New Mexico; Kingman, Arizona; and a crash in Mexico. Extraterrestrial bodies from the downed crafts were retrieved and taken to laboratories for examination. The paper also described information from the direct contact with the 'Grays' about their extraterrestrial intervention and manipulation of the human races' biological, sociological and religious evolution. The paper outlined the government's efforts since the 1940s to ascertain the origin, nature and motives of the ETs through Projects Sign, Grudge, Gleam, Pounce, Blue Book and others, and concluded with a list of some current projects: Sigma (communication with ETs), Snowbird (ET craft technology and efforts to fly one), Aquarius (overall research and contact program regarding ETs) — and one "closed project with a name similar to Garnet which involved the ET connection with human evolution."

According to the TV producer, Agent Doty showed her the briefing papers "because the government intended to release to me several thousand feet of color and black and white film taken between 1947 and 1964 showing crashed UFO discs and extraterrestrial bodies as historic footage to be included in the HBO documentary supported with official government confirmation."

Due to what were called "political delays," Linda never was given the historic UFO footage, and eventually the HBO special was cancelled because of this. Special Agent Doty established contact with other researchers about this same time. Contacted recently, however, he denies showing Howe any such papers, nor does he admit to any knowledge about any motion picture footage depicting crashed UFOs or alien bodies.

In her *UFO UNIVERSE* article, Howe added that the captured ETs were described as "3½ to 4½ feet tall, gray skin, had only small holes for ears and nose, large black eyes and a small, straight-slit mouth. The hands had four long, thin, 'fingers' with

webbing in-between, and dark claw-like nails." A second group of ETs called the "Blondes" or "Talls" were said to be Nordic-type extraterrestrials who looked remarkably human.

In conclusion, Linda says she now has "no doubt about the existence of an invisible and very powerful government agency challenged with extraterrestrial relations, communications, research and technology development... Its first mission was to retrieve and analyze the crashed discs and extraterrestrial bodies in the 1940s. In 1987, is MJ-12 still troubled, confused and in conflict within its own ranks about the consequences of ETs' presence on this planet? Or do they know that we are nearing the end of some kind of Earth cycle superimposed from 'out there' which will permanently change the fate of all of us?"

And what of this supposed government-alien liaison? Is there any evidence whatsoever that a pact or agreement has been made with these so-called "Grays"? And if such a pact was made, what has been the outcome of such a secret deal?

JOHN LEAR'S SCENARIO

The individual with seemingly the most answers to these imposing questions happens to be John Lear, son of William P. Lear, designer of the Lear Jet and noted aviation figure. Around aircraft all his life, the younger Lear has flown 150 types of aircraft, holds 17 world records in the Lear Jet, and is the only pilot ever to hold every airman certificate issued by the Federal Aviation Administration. Lear says he has flown missions for the CIA and other top secret agencies, and once ran as a candidate for the Nevada State Senate.

Through his CIA and military contacts, Lear has put together a rather frightening scenario in which this government-alien liaison started out on seemingly equal footing, only to go haywire when it was discovered the Grays had an ulterior motive in establishing an ongoing relationship with Uncle Sam.

"MJ-12, representing the U.S. government, made a deal with the EBEs, or Grays, around the period of 1969-1970-1971. The deal was that in exchange for technology which they would provide to us, we would ignore the abductions of humans that was going on. The EBEs assured us that these abductions were merely ongoing monitoring of developing civilizations. But the fact is that these abductions have been for at least three purposes: (1) Insertion of a tiny probe about 3 mm. in size into the brain and used for monitoring and programming purposes; (2) Post hypnotic suggestion concerning an important event that will occur in the next two to five years, and giving the subject someplace to go and something to perform at that time; and (3) Genetic crossbreeding between the EBEs and humans. In many of the abductee hypnotic regressions of women with unusual terminated pregnancies, they have been shown these 'crossbreeds' — usually frail, tiny beings with comparatively large heads, very thin skin, and very thin arms and legs. Since we weren't aware of these facts, we went along with the agreement, but insisted that a list of the abductees to be submitted periodically to the National Security Council and MJ-12."

Lear claims that every president since Truman has known about the presence of the ETs on earth, and that under the Reagan ad-

stration, George Bush was the head of MJ-12, assisted by former National Security Advisor John Poindexter, among others.

Several military bases in the U.S. are said to have literally been "taken over" by aliens. "After the initial agreement between MJ-12 and the aliens. Groom Lake — one of this nation's most secret test centers in Nevada — was closed for a period of about two years (1972-1973), and a huge underground facility was constructed for and with the help of the EBEs. The bargained for technology was set in place, but could only be operated by the EBEs themselves. Needless to say, the advanced technology could not be used against the EBEs in case of need."

Continuing his story, Lear states that during the years 1979 through 1983, it became increasingly obvious to MJ-12 that things were not going as planned. It became known that many more people (in the thousands) were being abducted than were listed on the official abduction list being supplied to the National Security Council and MJ-12, and that the abductions included much more than the simple monitoring of an advanced civilization."

"By 1979 things had gotten out of hand almost entirely," says Lear, who remains very serious about this charges, though he has come under increasing attack by those who believe his scenario is more science fiction than fact. According to Lear's testimony, some 66 soldiers were killed when they were ordered on a commando-like raid to take back control of one underground installation in New Mexico which had virtually been seized by the Grays.

The way he sees things, Lear maintains that in 1984 members of MJ-12 suddenly realized their mistake. The "Grand Deception" had been completed by the EBEs, and there was very little the military could do short of a complete confession to the public.

In a paper circulated among UFOlogists, Lear gave this account of what was happening behind government lines: "They had subtly promoted *Close Encounters of the Third Kind* and *E.T.* to get the public used to 'odd-looking' aliens that were compassionate, benevolent and very much our 'space brothers.' They 'sold' the EBEs to the public and were now faced with the fact that quite the opposite was true. In addition, a plan was started in 1968-1969 to make the public aware of the existence of aliens on earth over the next 20 years, to be culminated with several documentaries to be released during the 1985-1987 period of time. These documentaries would explain the history and intentions of the EBEs. The discovery of the 'Grand Deception' put the entire plans, hopes, wishes and dreams of MJ-12 into complete confusion and panic.

"Meeting at the 'Country Club', a remote lodge with private golf course and lavish sleeping and working quarters built by and exclusively for the members of MJ-12, it was a factional fight of what to do now. Part of MJ-12 wanted to confess the whole scheme and the shambles it had become to the public, beg their forgiveness and ask for their support. The other half of MJ-12 argued there was no way they could do that, that the situation was untenable and there was no use in exciting the public with the 'horrible truth', and that the best plan was to continue the development of a weapon that could be used against the EBEs under the guise of 'SDI', the Strategic Defense Initiative, which had nothing whatsoever to do with a defense from Russian nuclear missiles.

"As these words are being written, Dr. Teller, 'father of the H-bomb', is in the test tunnels of the Nevada Test Site, driving his workers and associates, in the words of one, 'like a man possessed.' And well he should; for Dr. Teller was a member of MJ-12 along with Dr. Kissinger, Bobby Inman and possibly Admiral Poindexter, to name a few of the current MJ-12.

"Before the 'Grand Deception' was discovered, and according to the meticulous plan of metered release of information to the public, several documents and video tapes were made. William Moore, a Burbank, California based UFO researcher, came into possession of a video tape through his contacts with MJ-12, who had taken great interest in Mr. Moore's book, *The Roswell Incident*, published in 1980. The book detailed the crash, recovery and subsequent coverup of a UFO with 4 alien bodies. They decided to use Moore as one of several conduits to help in the gradual release of the existence of aliens to the public. The video Mr. Moore had was an interview by two well-known newsmen of the military officer associated with MJ-12. In the interview of the military officer answers questions relating to the history of MJ-12 and the coverup, the recovery of a number of flying saucers, the existence of a live alien (one of three living aliens recovered, designated or named EBE-1, EBE-2 and EBE-3) being held in a facility designated as YY-II at Los Alamos, New Mexico. The only other facility of this type is at Edwards Air Force Base in Mojave, California. The officer names names as previously mentioned plus a few others: Howard Brown, Richard Helms, Gen. Vernon Walters and Von Karmon. The officer also relates the fact that the EBEs claim to have created Christ. The EBEs have some kind of recording device that has recorded all the earth's history, and can display it in the form of a hologram. This hologram can be filmed, but because of the way holograms work, does not come out clearly. The crucifixion of Christ on the Mount of Olives has allegedly been put on film to show to the public. The EBEs claim to have created Christ — in view of the 'Grand Deception' — could be an effort to disrupt traditional values for undetermined reasons.

"Another video tape alleged to be in existence is an interview with an EBE. Since EBEs communicate telepathically, an Air Force Colonel serves as an interpreter. Just before the recent stock market crash, several newsmen, including Bill Moore, had allegedly been invited to Los Alamos to personally film and distribute to the public a similar type interview. Apparently, because of the market crash, it was felt that the timing was not propitious."

Reached at his home, researcher-author William Moore anxiously points out that as far as he can tell, there is no real evidence to support John Lear's fantastic claims. Moore admits that he has been shown what purports to be aerial photographs of an alien base set up in the desert in New Mexico. To him what are supposed to be spaceships and aliens on the ground look like nothing more extraterrestrial than ordinary rocks and sticks.

One of Lear's more recent accusations is that aliens are now cloning humans in bizarre genetic experiments, and that a similar pact was made between the Grays and the Soviet Union, but that Uncle Sam and the Russians have since teamed up to fight the menace from outer space.

As Lear sees things, there are also plenty of good guys out there in the cosmos, but unfortunately they are not permitted to help us, because to do so would break the universal law of non-interference. "They could," believes Lear, "only intervene if any Gray activity would have adverse effect in another part of the universe." These "good guys" are the "Blondes, Swedes or Nordic" types who have often been reported in contact cases as looking very similar to humans. There is also another "very tall race that look like humans, but are seven or eight feet in height. They are united with the Blondes," concludes the Las Vegas resident.

Steve Smith Home Jan 11, 89

Q. Now, when I thought about you or much because on the last we
saw the first intelligence officer that you have probably heard
about also sent someone named Bill Cooper?

A. Yes.

Q. One of his sources says that the Jason society is the one that has
been... as the same as NSA-12 and is the one responsible by Presidential
Commission to try & sort out the lies and deception of the allies
from the truth. That's why they call it Jason - because the fleece
is the truth and Jason is the truth seeker.

Q. That is in connection with what I was phoning about. How old
is Robert Lollis?

A. I've met him. I've been in his house. I would say that he
is approximately in his 30's.

Q. Then I've got the wrong guy. I found a Robert Lollis that
worked for IDA. He's about to retire.

A. When this man is definitely not retrievable. We're talking about
a physically ~~boisterous~~ robust mole human.

Q. Then he could be a member of Jason. Most Jason members
are young. Did you have a tie on him... where he was educated.

A. He first called me when he was working at Wright-Patterson
two years ago. Then he was transferred according to him from
Wright-Patterson to Sandia and he lived there. I have his
address and phone number if you'd like to call and talk to
him.

Q. Sure.

A. Just a second. He does a lot... he says... work and research
with Bill Moore so you should know that.

Q. I have an interesting letter that I'll be sending along
This is how I got on to this Lollis thing again. (explains about

the letter from Bonneau to Collins stating Zeta 1 and Zeta 2 Reticulli aren't binary stars)

1. Oh come on. Zeta 1 and 2 Reticulli is a binary star system and it's listed in astronomical...

c. But this guy says it isn't. The weird thing is if Collins knows what's going on why would he write to an astronomer to see if it's a binary star.

h. This is great because the Navy intelligence guy says that the briefing paper he saw in Hawaii - the Commander and Chief of the Pacific Fleet briefing team... of which he was a member for three years... it's a lot of stuff. I'm going to put some of it in my book. I'll put some in a separate package for you but you'll have to deal with me. I am up against unmerciful deadlines. I'd like to be sending you and about four others a bunch of stuff, but you just got to deal with me.

The three sources listed in the briefing paper said that there were three types

- short typical guyp with the ... I don't even need to explain anymore - the large black eye type that's everywhere
- another one which is the main one behind ~~these~~ (guys)

these are the worker bees apparently cloned by this other major group. They are 4 1/2 to 5 feet tall, frail and skeletal structure.

A head which is more human like, slightly larger, goes back in more of an oval like Egyptian paintings in the back, with a nose that is supposed to be approximately three times - perhaps four times as big as any large human nose. It is shaped or curved like the beak of a bird or arabic - he says arabic with a curve and that this nose is so large that he's seen it in black and white photographs in the Naval Intelligence briefings. He's seen it in profile and he has seen it front faced and he says

that the shape of these ~~add~~ ^{almond} ~~almond~~ are the shape of an almond. the
 nose white curved side toward the large nose. Take the pointed
 side and stretch it out two full inches, slant it up 45° .
 Paint the entire eye - now we think white with a colored iris ^{and a black}.
 This is going to go exactly the opposite. Paint the eye black
 all the way - two full inches about $\frac{1}{2}$ to $\frac{3}{4}$ in. at the widest
 almond and tapering to a point 45° two inches out. Paint it
 all black and then in the widest portion is a spot a little bit
 bigger than the size of a dime or $\frac{1}{2}$ in. superimpose seat of a light
 circle - it was a black and white photograph, he does not
 know the color - I have been told that it is pale yellow. In
 the middle of this $\frac{1}{2}$ in circle, take $\frac{1}{4}$ in. about $\frac{1}{2}$ the diameter
 again and make a white brilliant glowing slit - vertical
 slit - white glowing, and those are the eyes. He said it was
 the damndest thing he's ever seen. They looked sinister
 and evil. He couldn't look a way from the eyes even in the
 photograph. The appendages on those were three - three digits -
 not four. The four are on the little greys. The three are on
 what he calls the main ones behind it all. Three digits - look
 up Bud Hopkins "Missing Time" - the three digit greys that
 took that tennis player, and that those big nose hooked ones
 are the ones that made the agreement with the gov't in the 60's
 in exchange for the gov't staying silent about their presence
 here - that they would get bases - they would be allowed to abduct
 people for medical reasons and that they would be allowed to
 take animals. It's a whole huge story that I won't go into
 completely but I'm giving you another alien
 - the third alien was referred to as an orange (sp?).
 I have no idea. He has no idea of why they were called oranges.
 They wear robes and look like humans. Besides that he has

no other recall or details. The only comment in the paper was that the oranges were supposed to have a policy of non-interference.

The hooked nosed big ones ($4\frac{1}{2}$ to 5 ft types) and the little guys are supposed to be linked, but in the paper it talks specifically about three origins for the three groups. Zeta Reticulli 1 & 2, a star in the Orion system, and Barnard's Star which is $14\frac{1}{2}$ light years from here. Barnard's is $14\frac{1}{2}$ light years. Zeta 1 & 2 are 35 to 37 light years. Orion is way out. I'm going to look it up in my galaxy book.

G. What distance were you given for the binary star system you were told they came from?

L. Doty. When I said is it Zeta Reticulli 1 & 2 he nodded and bowed. He said I have been told it is 55 light years away.

I told him Zeta Reticulli 1 & 2 were only 35

G. Cameron refers to an article on *Star* where Zeta 1 & 2 were described by an astronomer as 130 light years

L. He said the system they are from is 130 light years?

G. He was saying Zeta 1 & 2 were 130 light years

L. Oh what a minute! Look I'm an amateur astronomer and I have galaxy books. I've looked this up this many times.

Look here. Do you have access to any libraries up there?

You must read this. It will really give you a lot of information.

It is Dec 1974 Astronomy magazine V5 published. There is approximately 16 page article on Zeta Reticulli 1 and 2 and the entire neighbouring star system of every star within a certain light distance from the earth that is a G-2 star like our sun. There are at least 19. Two of them are Zeta Reticulli 1 & 2. You must read that article pronto if you're getting into this. If you

Can't find it, phone me back and I will provide you a xerox copy. You will be fabulously entertained by this long article. It's called the Zeta Reticule incident. It begins with the Betty and Barney Hill abduction of 1963 and it is in Astronomy magazine. It's written beautifully. It gives maps. It gives whole ^{lot of} star, and all the light years - star types - drawings. This is the Mingus East map, the Betty Hill map, the actual astronomer map, everything.

E. But Betty Hemmed and hawed when you asked him

L. Hemmed and hawed. He said it was 55. I believe he was trying to give me bits and pieces of truth but it was always skewed. Some of it was skewed and some of it was right one like Ebe the alien.

G. There's one part that I checked back with Pratt on - the deal about the blonds and the greys. I said Linda Howe had heard this story - is it in your book (Project Aquarius)? Did you hear this story? He said I don't know what you talking about. I said the story of the blonds and the greys? He said. No. I never heard any such story.

L. You talking with who.

G. Bob Pratt. So this must be a story that Betty started telling in 1963 or that he picked you up to tell it to. He then puts this twist on the grey thing because of the mutilations.

L. Well. You see according to the Naval Intelligence ^{Mr. Evans} officers, there's no question. There are Nordics. He knows there are Nordics. He also knows that there are little greys, the big nose greys, the group referred to as the oranges. He said there are at least two others. This is 1989 information that is now coming forth.

G. Do you know this whole deal about Blum's book coming out?

L. Who's?

C. Blum is the former NY Times reporter. He wrote the book on the

Watergate scandal

2. No. What is he writing about?

E. He's writing a book on the cover-up. He claims he will

show the source. Apparently his source came from Naval Intelligence.

1. Will I think I'm stating to have a much better picture of

how it all fits together. What is Blum's name?

E. Howard Blum

1. Am New York

A. Am not the one

1. And he doesn't finished his UFO book?

C. No.

1. Will the current picture from the Naval Intelligence guy

is not a pleasant one at all.

E. Do that night

1. CIA, No.

C. Does he explain why they're looking it?

1. No. Just he's had death threats. He said he's lived with

this for 16 years and he can't take it anymore, and he had hoped

that they'd get it and that thing under control, and he's now concerned

that they don't, and that they're in over their heads, and

that the human race is in trouble. He said "I'm not going to

the government, what I want and not try to communicate to people,

and if they kill me, those people are going to know what I

say is the truth, and if they don't having my name out with this

information is my last protection, and so he's going public.

E. This is Cooper or someone, looking Cooper?

1. His name is Milton ^{William} Cooper, Arthur King E-b.

C. That's the guy who talked to Sturman?

1. He's talked with a lot of go. I'm getting is PD-214. The

report that you get when you discharged. He served both in the Air Force and in the Navy. There's a Las Vegas reporter whose also doing a story and is looking into it. I'm putting portions into my book. Problem is. I've talked to this man for maybe seven hours in total, and the information is... is... God. I can only deal with ~~some~~ so much credibly in the book, because the problem is that 99% of the world is completely innocent, and they don't know what the hell is going on. I have no feeling, no matter what the gov't ~~what~~ had done. I feel sorry for the gov't. I'm not attacking anybody. I am feeling like it is a responsibility for as many of us as possible to get as many of the pieces of truth out as we know them, which is not Bill Moore regurgitated party line something.

C. He's the one who makes the Jason connection?

L. Ya the Navy guy. That Milton William Cooper has a contact that told him. He told me and this is completely independent of all the stuff you have.

C. I guess I'll have to contact York - the guy who formed Jason. I don't know if I ever told you about him.

L. No

C. He's formerly chief scientist at Darpa, and then director of Darpa. He published a book last year you might want to look up "Making Weapons - Talking Peace" Herbert York. The problem is they protect the Jason list.

L. If you knew this information I had you'd understand why. It's serious. Have you ever come up with a translation for DC-5. Which must be related to the CIA, because they go DC-1, DC-something. That's from that outline.

C. I've never figured it out.

L. John Lear doesn't even have it here. I've said the only thing he

Know is that it related to the Pentagon. It must be a relationship between the CIA and the Pentagon. I would love to launch into everything on the phone, but I think it would be better if you would have the patience for me to get it to you in paper form. I... if it's all true and I don't know that it is, and I am not convinced that even probabilities should be shifted and changed. I don't believe that from day to day to day that things are locked in stone. But if the large picture holds we have at the most 18 months to two years of the earth as a status quo. That's between you and me. Now seriously that the kind of thing that any of us serve any constructive purpose whatsoever. I'm not going to deal with it unless something happens that precipitates it and makes it important to state that. That's several sources that have got that. Now precisely what happens - apparently there are different scenarios about what will happen, but that it will happen, and it will affect the social status quo. Now affecting our social status quo - for some people it may not bother them for others it may, but it would be a change. The title of my book is "On Alien Harvest" and if all goes well I should be able to mail it out to the orders at least by the end of Feb or the first of March.

G. How many pages?

L. 380 - 8 1/2 x 11. It ended up that it was almost impossible to contain it. I'm still leaving out so much. It even bothers me how much I'm leaving out. 380 pages. I hope this contributing a lot.

G. We'll be in touch.

L. Well, I am really glad to be in touch with you.

G. Have you got Collins phone number.

L. Home 505-275-1281 Office: 505-844-1709 Plasma Physics Branch Sandia Labs. That's the best info I had as of 1 yr. ago. I have not been in contact with him for one year.

Dec. 1988

Hi, Grant —

...AND MAY THE COMING YEAR
BRING ALL MANKIND
NEW HOPE
OF PEACE AND BROTHERHOOD.

And a toast to real truths
and a better 1989 than
some anticipate.

Cheers!

Linda four

MODERN AERIAL RESEARCH

What has been called UFO Research over the past thirty or so years should be called just plain Aerial Research. I think that ALL people who look into the subject seriously are tired of what's going on. The debate about MI-12 still continues, and it is likely to continue for some time, with people bantering back and forth about the veracity of this or that. What the truth is can only be guessed, but one thing is for sure:

1. The Government is and has been involved with flying craft that are foreign to our world.
2. The Government has, out of perceived necessity, kept a lot of details about them to itself.
3. The Government does not trust the common individual to make their own decisions about their future.
4. Millions of people have seen things in the sky that they cannot identify. Many of objects seen appear to operate under intelligent control.
5. A significant and ever-increasing portion of the world populace has had contact with beings not of this world.
6. Intelligence organizations have been and continue to be heavily involved in both overt and covert operations that relate to aerial phenomena that are alien to our planet.

AERIAL

One of the more recent semantic revelations is that the Government **wasnt lying** when it said that **UFOs** represented no threat to national security. They dont insomuch they meant within the context of the statement. Think about this hypothesis: Suppose that the Government were in contact with one or more alien groups over a period of years and they were familiar with them to one extent or another. Their craft would no longer be **UFOs** but would then be **Identified Flying Objects (IFOs)**. You will find that the Government relies heavily on semantics to prove a point. The only way that IFOs would not be a threat would be that they are **KNOWN**. To know over a period of time requires **INTERACTION**.

In fact, the latest theory that has arisen is that various factions in the Government have been in contact with one or more groups for many years, right under our noses. They are familiar with the fact that the groups are carrying out **abductions, murder, implantation, cattle mutilation, kidnapping, genetic manipulation and cross-breeding**, but are not attempting to interfere **in order to gain technology in beam weaponry, gravitational technology and mind control technology**.

There, we've gone ahead and said it. What do we have to back that up? Wouldn't you like to know. Suffice it to say that there are times when events and occurrences **EXCEED** the concept of coincidence, if there is such a thing. This thing is **SO BIG** that we wouldn't expect anyone to believe it anyway. After all, we want to be around to interact for a while, dont we?

We will explore some of these topics a little further in later issues of the Journal. We'll examine the probability of truth in these claims as far as what evidence we've found. A lot of this stuff is far too strong for most people. We have only begun to scratch the surface in telling you what we know, so be patient, and if you dont believe any of it, thats just fine with us.....just keep on doing what you're doing.

RESEARCH IS ALIVE AND WELL IN NEVADA, DESPITE THE WIMPY ATTITUDE AND RESULTS OF OTHERS WHO ARE TOO AFRAID, PRESERVING AN ORGANIZATIONAL STRUCTURE OR THEIR OWN REPUTATION.

WE'VE GOT YOUR BEST INTERESTS AT HEART, AND WE'RE DETERMINED THAT THE TRUTH, DESPITE THE EFFORTS OF THE CIA, NSA, FBI AND OTHERS TO SUBVERT AND DOMINATE THE HUMAN RACE, WILL BE KNOWN, AND THAT WE WILL LIVE IN PEACE AND HARMONY WITH OTHER BEINGS.

Abductions and Bio Implantation

With the publication this past year or so of **Communion** and the **Intruders**, a lot of people who have had these experiences have become aware of exactly what has happened to them. Typically, little four foot Grey Beings are involved, and the person has been examined and has noticed later that they have had some red mark or other evidence that their physical body has been tampered with. Recently, persons known to us have obtained **an actual implanted device**. It is now being studied. We expect to find that the interior is a mixture of crystalline technology and very sophisticated microelectronics, operating on a resonance that is parallel to biological frequencies.

It is known that implants can function both as **control** devices and as **monitoring** devices. If some of you have seen the movie **BRAINSTORM** you will have an example of how well they can monitor people who have these implants. Thought transmissions are monitored as well.

One thing that has become quite evident through all the research that has been done is that the little Grey beings are masters at mind control. Human beings are relatively weak and can easily be manipulated.

It is very interesting that a lot of our **INTELLIGENCE TECHNOLOGY** is catching up rapidly to this alien technology. Wonder why? It is now possible for a **VIDEO TAPE** to be made of a conversation in a room **a week after it has occurred**. Moreover, it can be done from **satellite**. Big brother is here for sure. This information is courtesy some ex intel folks.

Ever hear of talking rocks? Some years ago, it was found that sound directed at a rock could be recorded from that rock some time later --- that was over 20 years ago. Now, the state of the art is something to behold.... or to be HELD, to be believed.

Now, back to abductions and implantation. One of the more

insidious aspects of the abduction scene is the implantation of genetic materials to evoke a pregnancy in a human female. A great many cases consist of a human female that has been abducted either while asleep or awake, and has been either implanted with genetically altered sperm or undergoes direct mating with another humanoid. Typically in such cases, the pregnancy is terminated before term and the fetus is removed to be nurtured in an alien environment. The great profusion of underground facilities that exist all over the world, especially the United States, function for this purpose.

In some cases, female abductees are shown alien crossbreeds and are expected by the aliens to form a psychological bond with the infant. Little do these aliens understand human psychology!

In one particular case, and also verified by Whitley Streiber, some of the crossbred humans have pseudo reptilian features and have brilliant green eyes where the pupils have vertical slits.

There is another advanced technique in use by aliens to implant monitoring devices. They evidently have a way of entraining a modulation of some kind on the persons biological field to cause a gathering of materials from the persons' body to form a rather archaic implant device. In principle, this is fairly easily understood. In practice, however, the technology that is involved is rather vague.

Underground labs. Sounds rather intriguing, doesn't it? Well, both the Government and various alien groups have them **ALL OVER** the place. Aliens even seem to be breeding themselves in some of them by some sort of cloning method. An ex- CIA operative, who shall remain nameless, used to work in one of them until he became too disgusted and terrified to continue. He took some pictures and fled for his life. The Lab? DULCE, New Mex.

The underground lab is 2.5 miles northwest of Dulce, New Mexico under Archeleta Mesa, about a mile underground. The CIA is very active in the area, as are the infamous MIB. Who's side is who on, you might ask? Well, none of them are on our side - the perpetuation of power domination systems and the perpetuation of the race of Greys are the two main ideas that force this whole thing along, and since they have been doing such a good job of trying to keep it covered up all these years, can we ask you to please not believe us so they will be happy-?

WHOS WHO OF UFOLOGY

Robert Boyd has now published a **Whos Who** that has over 200 people in it. Names, addresses, and some phone numbers. Cost? Its \$ 6. 9 5 and is now available from:
ROBERT BOYD
PO Box 66484
Mobile, ALA 36686

Add \$ 2.00 for post & handling for a total of \$ 8.. 50.

It is a tool that ya cant be without. Real handy to have!

Who are the Greys?

There have been many theories about who those little Grey beings are that are involved in abduction or human beings and involved in the mutilation of cattle. The most interesting information about them comes from channeling, which still remains as a new method for gaining information using direct biological reception of data. This particular source references the Greys as having four distinct species, each having their own characteristics, and as having their origin in the Regellian system.

There are two races that usually come to light in terms of people being regressed or otherwise revealing their experiences with aliens during abductions. The two races are termed the Greys and the Blonds, or Norwegian-looking humanoids. Evidently, according to these channeled sources, these two races have been at odds for thousands of years. At one time, said to have been 18,458 years ago, these two races had some sort of nuclear conflict, wherein the Greys became genetically damaged as a species. Their DNA was affected, and this affected their glandular development, digestive tract development, and glandular systems. These Greys are termed by some as "The Orion Crusaders", and are well-known as propagators of discord.

Now, having said all that, lets briefly examine what we do know about them after reviewing the record and after speaking firsthand with some people who have had the dubious honor of having been abducted by them. We do know that they do in fact have no digestive or reproductive organs. There were some Government autopsies of Greys done in the past, and these facts are born out by several sources. We do know that they take nourishment by putting a substance on their skin, where waste products are also driven off.

Conversations with other sources indicate that the Greys have been involved in sowing discord with every civilization that has existed on this planet. It is thought that they had influence over the

Germans during WWII and that they have gained control of virtually every government that has existed on this planet. It is this race which has had some of the interactions with the US Government; the other race that has been interacting with the Government is usually dressed in blue coveralls, is humanoid and very short. These Aliens control governments by picking likely subjects and implanting them, manipulating their careers and elevating them within the societal structure to positions of power. Their pattern is that they will contact a portion of a civilization they wish to conquer and they will take the leader and indoctrinate them into believing that he and his followers are the "chosen of God" and are destined to rule the world. They will then give them the technology or help them obtain arms and materials. All key personnel are implanted and controlled by them. The CIA, under their control, is employed in experiments in biological viruses and bacteria. The AIDS virus is a good example of a virus that escaped CIA control. We'll discuss that in detail another time. The first stage, evidently, off their plan for ONE WORLD held in dominance is to use biological warfare to rid the world of undesirables. The AIDS and Drug epidemics have, however, gotten out of control. The rationale is based on the Club of Rome study which found that the problems of the world are predicated upon the over-population and uneven distribution of population density. Their rationale is that a covertly controlled decimation of the population, the perversion of the arts, and the dehumanization of mankind through PSIONICS and MIND CONTROL are the solutions to the problems posed. However the Greys, regardless of the Illuminati, stand to gain Earth and an enslaved mass-consciousness should they succeed.

The Greys are almost entirely devoid of emotions. They can sometimes obtain momentary pleasure, of a sort, by tuning in on human wavelengths, using intense emotion generated by aberrant acts.

Quite a tale, isn't it? Well, we don't really know how much of it is true, but one thing is sure - ultimately, one can never gain control of anyone but one's self, and those who are destined to remove the Regellians from this planet must be able to balance themselves in an effort to guard against succumbing to those darker forces, the essence of which we term tyranny. Through selective and careful introspection one can know when to act and when not to act.

What is remarkable, according to some sources, is that whenever one tyrant, group, or species is banished or defeated forever, another suppressive one arrives to take their place. The victor often becomes the suppressed. Whatever one resists, one becomes. We must, however, try to regain control of our world. We owe it to ourselves and to future generations.

By coming to an understanding of a hostile entity's ability to wear many faces, it unmasks and loses its ability to influence us. In overcoming the Greys, if we should ever succeed in doing so, we must safeguard against becoming like them.....

Organizations

APRO, the Aerial Phenomenon Research Organization, just folded this last month after 35 years of investigating UFOs, as they loosely termed what they were doing. They made a small contribution to clarifying the empirical method for UFO data acquisition, but all in all that's about all they ended up doing.

APRO was a "PINS ON THE MAP" type UFO organization and not very much of an effective one at that. There were, however, many sincere people who worked there over the years.

The CENTER FOR UFO STUDIES is another organization which is a dubious one. Hynek was, beyond a shadow of a doubt, a Govt plant in the UFO community, much like **BILL MOORE** and **JAMIE SHANDERA** seem to be as of late. CUFOS functioned as a buffer zone, at least initially, for the Government collection of UFO data from the populace.

Subsequently, its function seemed to change to one of keeping an eye on what the public was up to.

Everyone seems to be looking for that **SMOKING GUN** as far as Government documents are concerned. What people fail to recognize is that the pursuit of the **SMOKING GUN** is just a **Occupational Cover** to keep the public's attention while the Government keeps right on doing what they're doing all along.

MUFON is perhaps one of the best developmental hopes for all serious research, at least one would initially think so. One observation is that they are **NOW** trapped by the effort to maintain organizational credibility and this has **seriously** hurt their efforts at **public disclosure** of some of the really **UNUSUAL** and **TERRIFYING** information they have found out about what is **REALLY** going on in the field of Aerial Research.

Magnetic Vortices & IFO**PART ONE**

The connection between Magnetic and Gravity Anomaly areas has been around for a while. It has been discussed a lot lately by **Lew Terry** in Las Vegas. In fact, says **Lew**, a couple of years ago "the FBI thought it was pretty much a sensitive area". No doubt they did and still do, for the connection points out some things about alien craft, government connections to them, cattle mutilations, and human abductions. We shall attempt to elaborate on this.

If you should happen to be in touch with the US Geological Survey, you can order, if now they will let you, **anomaly** maps. Many of us have bumped the **high field intensity areas** against known aerial activity areas and Government controlled land, as well as cattle mutilation areas and abduction areas, and have found a **positive correlation**. Amazing. And they said they didn't know what those lights in the sky were

Most of the high magnetic anomaly areas occur on Government controlled land, or land they are trying to gain control of. A highly significant number of them are situated on **Indian reservations**.

Although these areas (magnetic) are active all the time, they are modified in strength several times a month by the position of the earth and the moon. At least 4 times a month, these areas function as **doorways** where it appears that dimensional transfer can more easily be accomplished, or at least it would appear that way, for there are dramatic increases in UFO/IFO sightings over these areas at those times. For your use, a **schedule** for maximum activation of these window areas is elsewhere in this journal. **You have no right to criticize this data UNLESS you have purchased the USGS maps and gone out there for a length of time and researched it.** I have done it, and it's absolutely valid.

One of the window areas near Las Vegas is near Lake Mead, and is called Jumbo Peak. There are two mines there that both have different owners that have been observing disks 288 feet in diameter materialize over this area for several years. These two folks are not really interested in alien craft, they have come to accept their presence, in fact. Strange, or what. It is also no strange coincidence that there seems to be an awful lot of underground activity around the whole Las Vegas area. What is the Government doing all this time? Buying up old mines like they're on sale or something and stationing guards around them.

The best is yet to come.....

NEWS LETTER

JULY 1988 ISSUE

ALIEN VS ALIEN ENCOUNTERS

There have been many tales told of encounters between various alien groups, such as the blond group and the gray group, but what does this type of speculation mean today? Today, we are dealing with the Alien vs Alien matter in the electronic age, and the Extraterrestrial Biological Entities or EBEs, are being kept out of certain specific areas through the use of electromagnetic confinement grid systems. Reports are coming in that the Government, reeling after their mistake in trusting the EBEs, have enlisted aid from other EBEs in the development of a weapons system that will deal with them. Star Wars and SDI, which is presumed to be a cover for the system which failed in December 1987, has given way to weapons which we can only speculate upon. Beam weaponry is still the most advanced weapons that they seem to be considering. They also seem to be pursuing Tesla type weaponry. At any rate, development on EBE weapons is proceeding in Nevada, and it might well have to do with a resonance based system, since it is known that the EBEs have a sensitivity to atomic structures having a left-hand spin. Interestingly enough, the AIDS virus also has a left hand atomic spin. Is there a connection? I wonder.

MJ-12 and PI-what?

The government organization known as MJ-12 is apparently only one of the groups that are dealing with the ETs. It was reported recently that there is a group called PI-40. Interestingly

enough, there is a group in the CIA called the "40-group". It could be that they are the same group. As far as can be determined at this time, MJ-12 seems to have the function of covering up and distributing the disinformation required to mislead investigators, as well as security functions. The NSA apparently has a definitive part to play in security areas. PI-40 seemingly has the job of actually maintaining the interaction with the alien groups. We might have this figured out soon.

THE THREE-TALONED CLAW - VISION OF FRANCIE STEIGER

In 1979, Francie Steiger was enroute to Puerto Rico. During the flight, she had a "vision" regarding the Earth changes that would take place. She reports that she saw the Earth changes take the form of a three-taloned claw encircling the planet. She interpreted the areas enclosed by the claws as areas where major tensions would exist during the "shift in the polar regions."

The first area crosses diagonally across the Soviet Union, then lower into eastern China. The second talon will stretch diagonally downward across central Canada and into mid-California. The third talon will cross central Greenland, from northwest to east, move downward into the Med and into Northern Africa. It was stated at the time that these devastations were cumulative, vibrational events which were a natural thing for the Earth. According to Francie,

NEWS LETTER

the SAFE areas were to be:

- * major parts of Arizona and the southern part of Colorado.

- * the large, western area of New Mexico and the northern region of Mexico.

- * Inland Austrailia, mid-Arabia, southwestern Soviet Union, and the driest region of northwest Chnia.

It was also stated at the time that the last great battle between good and evil would begin in 1989 or 1990. It was also said that "UFO" contact would have its apex in 1986, which is obviously a little off the mark

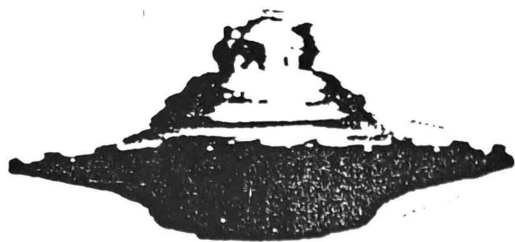

PSYCHIC THEORIES ABOUT UFOs

The 4-D hypothesis of UFO ORIGIN was forced in Meade Layne by the members of the Inner Circle, led by Mark Probert, in the 1950's. John Keel picked up the 4-D theory from the literature of the Borderland Sciences Research Foundation (BRSF) in the 1960's, but discarded the occult philosophy and science offered by the Inner Circle; thus Keel became a metaphysical wilderness crying out for a voice. This happens to all UFO researchers who ignore the moral and philosophical aspects of the issue and search in vain for an orthodox scientific explanation. As a result of his investigations, which began in the 1960's, Keel came to believe that UFOs are linked to the paranormal. His most notable volume on the subject was

the poc -making Operation Trojan Horse, which was ublished in 1970. His later books laid the foundation upon which de developed his later thinking. Although Keels' factual accuracy can often be questioned, one cannot help but view him as a pioneering, creative theorist. Keel suggested that UFOs basically mold themselves into various shapes based on the pre-dispositions or biases of the viewers, which anyone actually seeing a UFO will most immediately refute. Keel views UFOs as real objects, but only temporary creations. He suggests that the UFO mystery is produced by some kind of supermind or alien intelligence that is in some way linked to our planet and our civilization. Keel also believes that this intelligence is out to deceive humans in a malicious way. In our opionion, Keel only sees a small part of the picture, or at least he did then, when those books were published. There is a lot more going on with the whole issue than Keel ever hinted at, isn't there?

THE WALL OF SPACE...

An important part of the control that has been held over humanity is the concept that the Earth is the only inhabited planet in the Universe. The greatest effort to break that conceptual and culturally maintained barrier was made by Kennedy with his all-out support of the space program in the 1960's. He paid for that support with his life. On September 21, 1963 at Brooks AFB, Texas, Kennedy spoke forcefully of breaking free of the confines of the planet: " This nation has tossed its cap over the wall

NEWS LETTER

of space -- and we have no choice but to follow it." Little did Kennedy know what was really going on with the issue of aliens and the government.

THE NEVADA TEST SITE

This area is one of the most highly classified areas in the United States as far as surface-access sites are concerned. The site is thought to be the site of Project Snowbird, a project for the test-flying of captured disks and for the testing and development of our own craft. That idea would be fine except for the interactions between the US Government and some of the EBES, who traded silence on the part of the CIA, NSA and FBI for high-tech data on beam weaponry, thought-beam and implant technology and gravity control. Too bad they got stuck with outdated designs powered by plutonium. It takes a lot of trips down to Los Alamos, doesn't it folks?. It surely didn't help the folks in the Cash Landrum incident when they were exposed to neutron radiation from a malfunctioning government ship.

The most obvious site on the Nevada Test Range is Groom Lake. There have been many guesses as to what goes on there, but informed sources say that we definitely have EBES up there on the Range. In May 1988, the USAF was asked point-blank whether there were EBES on the Range. Their reply was that they could neither confirm or deny the presence of aliens on the range, which is tantamount to saying "yes" as far as most people are concerned.

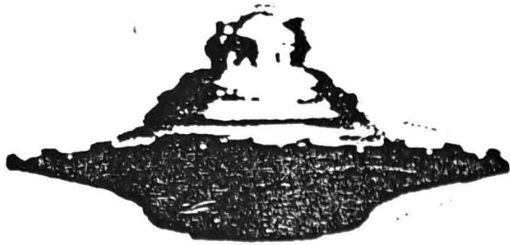

GEOMAGNETIC DIMENSIONAL WINDOWS

I am sure that some of you have had the idea of plotting UFO sightings on a map on the wall. What if you knew where to go to see some of those craft, and when they would appear? Would it make it easier for you to look into things? Of course. Unfortunately it may also make it easier for you to get abducted, so use this information with that thought in mind.

One way to research the situation is to consider geomagnetic and gravitational anomaly areas, or areas with maximum or minimum field strength. If you would consult a US Geological Survey map of these anomalies, you will see that these areas coincide with areas in which we have:

- *Proximity to Government land, including private mines.
- *High incidence of UFO activity, including animal and human mutilations.
- *Significant abduction events.

Knowing this, it will become apparent that you will have to proceed with all caution. The Government has been buying up these areas for many years in order to secure them. Indian reservations are also in these areas. Examine the area around Dulce, New Mexico and the Indian reservation there, and you will see what I mean. Some of the areas are being declared National Forest lands. The government is also taking over what appear to be abandoned mines in these areas. There is evidence of underground excavation being done all over the world. Connection of underground base areas is one of the primary objectives of this line of inquiry. There is enough

NEWS LETTER

evidence to suggest that all this is happening literally right under our noses. The evidence surpasses the element of coincidence.

As to when some types of UFO sightings occur, there is evidence that the phases of the Moon (position of the mass of the lunar sphere) affect the characteristics of areas where there is high magnetic or gravitational field strength. Activity is especially strong during the full moon, the new moon, and the last quarter. These vortex areas also indicate underground activity. There have been CIA and NSA employees that have had interaction with EBEs in underground laboratories and have managed to get away and tell about it. The Dulce Papers is one example of a case where a CIA lab assistant became disgusted over what was going on and made notes, drawings and videos of what was happening at the lab under Archeletta Mesa near Dulce, New Mexico. Apparently, there is just as much activity underground as there is above the ground. We have had contact with people who have been brought to these labs, and they say that the situation is ghastly . Human females, pregnant with what we can assume are alien cross-breeds, populate some of these labs, and from what we have been told there are a lot of really pissed-off people involved with this whole mess. People are being treated like cattle, and the apparent purpose behind this and other experiments is to acquire a genetically altered DNA structure that these particular EBEs can use. It seems that abduction is the name of the game, and Whitley Streibers "Communion" only hints at what is going on. In fact, Whitley himself has revealed a lot of really interesting info about the aliens, some of which is too hot to put into print in a public book. You have

a right to know what is going on here, and we shall attempt to keep you up to snuff about what is happening.

Suffice it to say that humans are being used as ants use aphids, and there are several alien races that are involved in the manipulation of our civilization (if one can call it that) to suit their own ends.

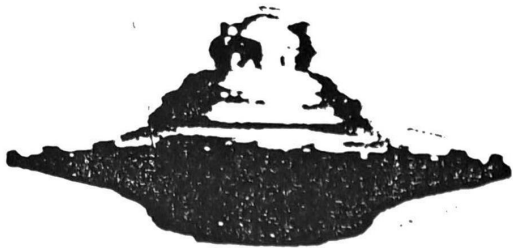

On the one hand, there are beings called the "greys", of which there are apparently as many as 22 species, that are deeply involved with our society.

The "greys" are only interested in themselves, and their main interest is in sustenance and genetic materials. The problem of animal mutilations, which has taken the lives of tens of thousands of animals (and a couple humans) over the past thirty years, prompted investigation that has revealed that these specific aliens are chopping up the tissue into a slurry and spreading it on their skin in order to absorb the DNA nutrients.

These specific "greys" apparently come from an Orion-based culture, or one that had its origin in the Orion system. Another "grey" group we think has its origin in the Zeta Reticuli system. They are, from what we can determine, a scientifically based society that is interested specifically in cross-breeding experiments, and some of what they are doing can be read in Bud Hopkins "Intruders". We will clarify and amplify on this information later on, so you can understand a little more about what is apparently happening.

FORMAT CHANGE

The format of the Nevada Aerial

NEWS LETTER

Research Journal has been changed a little to permit greater clarity in reading, so we hope that you enjoy the new format. If you have material that you would like to present in the Newsletter/Journal, send it to us, and it will be considered for publication, and you will have your name there as the author. Letters to the Editor will also be published when there is space available.

PREMIUM SPECIALITY BOOKS

Book and other literature that deals specifically with these subjects can be purchased from private book dealers, and one of the best that we have found is Arcturus Book Service
POB 831383
Stone Mountain, GA 30083-0023
404-297-4624

Catalogues are free. Send for one. I think you will be pleased with the variety of materials that are available.

ADDITIONAL PUBLICATIONS

There is another publication which is available, and that is the Star Beacon, available from:

Earth Star Publications
POB 174
Delta, Colorado 81416

Cost: \$10 per year.

UFO Magazine, which was formerly called California UFO, is available for \$18 for 6 issues:

UFO Magazine
1800 S. Robertson Blvd
Box 355
Los Angeles, California 90035

IN THE AUGUST ISSUE...

In the August issue of the NAR Newsletter/Journal, we will be covering some of the following topics:

- * Control of Society
- * Implantation of Religion and Social Control
- * Nevada - Operation EBE
- * Alternative Three- Truth or Fiction?

We hope that you've enjoyed the material in this issue, and that it has made you think a little. If you have an experience to report, or any other item to relate, we will give you a hand. If you wish, your name will not be included if you wish to remain anonymous.

If you have a burning question that you need help with, we'll try and give you a hand. Please write and let's talk.

NEWS LETTER

AUGUST 1988

THE IMPOSITION OF RELIGION ON SOCIETY

The population of the Earth, as it might seem lately, has been under various forms of control for thousands of years, and according to well-placed sources, one of the reasons that the truth about the aliens is not revealed is that it has something to do with human religious concepts and ideas. The idea that religious concepts have been implanted here is by no means new, however there is evidence that the religious concepts are intended to complement other processes that fragment and divide civilization, as well as provide direction for humans when they die so that they will go toward the light where they can be manipulated.

There is some evidence that some of the alien entities can interact with the human etheric/astral field and entrain thought processes and/or programming that will make the human either a "sleeping" agent or withdraw specific energies from the human abductee. There is also some evidence that some of the entities have manipulated humans to the point where their evolutionary processes have been slowed. This is allegedly done by implanting thought processes that enforce the conditioning of humans to the point where they become, in effect, masters of self-limitation. In this mode, humans cannot realize their true nature and their place among other entities in the universe. They cannot realize the true power they have.

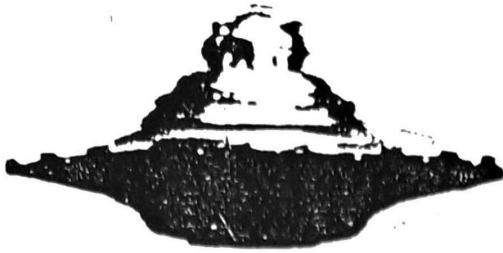

Now, because this programming and implantation has been occurring over so many years and is so strong, the simple discussion of religious concepts is a very sensitive subject for many people. If what is said here does not function solely as stimulus for thought, then think of it as a theory

if it makes you more comfortable. To regress a little, envision a universe full of beings that have all the power they need to manipulate matter, energy and consciousness. After a while, there is nothing to do but play games. Games appear to be the underlying substrate for all that has been happening to human civilization. It is a series of games that involved beings that decided to enforce the game of self-limitation on those beings that were basically imprisoned in physical bodies on the Earth.

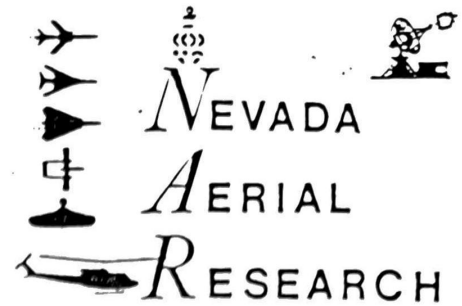

Now, when you think about it, you will see that religious concepts will unify people, but it will unify people into opposing groups that will further serve to divide and fragment the human population and allow easier control.

Control of the mass-consciousness, or the social-memory-complex, by specific groups is not a new process. Simple examination of historical records will show that to be true. If you will give it a moment of thought, you will see that science and philosophy are also fragmented construct-systems, all of which serve to prevent humans from realizing the simplicity of the laws of nature. I have been informed that Earth is the only civilization using base 10 for a mathematical system and that base 3 and base 9 are more prevalent. Other systems apparently lend themselves toward the discovery of the true nature of reality systems and the interrelationship between matter, energy, and consciousness.

Now, instead of dimensions, let us look at regions of existence as density

NEWS LETTER

levels. Obviously, the hallmark of the human population is 3rd density. Progression to 4th density involves the development of telepathic abilities, among other things. Non-verbal communication is the more advanced method, and it also means that you cannot hide your intent. Development of telepathic ability seems, in some cases, to be coincident with the realization that existence is not dependent on any structure, including the physical body.

In the society in the United States, where ego functions are encouraged, both constructive existence and evolutionary thought has been perverted into a system in which the "status quo" must be maintained in order for power structures to remain the way they are....

THE ALEISTER CROWLEY CONNECTION

Most people are aware of the fact that Aleister Crowley was an infamous occultist, and that he dabbled in unusual sexual practices. Most people are not, apparently, familiar with the fact that he had some pretty famous disciples. There is an unusual theory that is currently being circulated in the underground community that says that L.Ron Hubbard and John Whiteside Parsons were students of Crowley in their early days, and that they performed some rituals that allowed the "Greys" into our world. The theory goes on to say that Hubbard and his friend, who was later killed in a lab mishap, opened the "gateway" that had been sealed long ago, and that the "Greys" are species that are forbidden to take human form. It's a interesting story, but there is no evidence that we can find to support this allegation.

NEVADA: OPERATION EBE UPDATE

Recently, in response to statements by John Lear in local lectures, the USAF was asked point blank if there are EBEs on the Nellis Test Range. The Air Force allegedly stated that they could "neither confirm or deny " those allegations. Much of the data about this area comes from the relatively new book by William Steinman called "UFO CRASH AT AZTEC". More recently, however, comes data from an undisclosed source that says that electromagnetic confinement areas are being generated on the range to confine aliens to specific areas. Hmmm...

LETTERS TO THE EDITOR

Dear Editor,

Enclosed is a copy of my nine-point solution to the UFO phenomena that I published in 1986. It seems to go hand in hand with what we have been finding out as of late. Please keep in touch. I do enjoy our correspondence and telecons.

Very Sincerely,

William Steinman

June 15, 1988

1. Flying saucers originate from dimensions outside space and time.
2. They have been materializing into our space for a long time.

NEWS LETTER

3. There is a relationship between the "Great Secret" of occult teachings and the "Mystery of Inequity" of the Bible, where UFOs are concerned.
4. There are dark forces that are behind the UFO Phenomenon, and these forces influence the conspiracy groups who really control world government.
5. There exists an alliance between some of these forces and the US Government.
6. There do exist classified underground bases from where these disks operate, and there is a technology based on the Unified Field Theory and Bioenergetics.
7. This unholy alliance between government and negative forces was in preparation for the ultimate materialization of the Anti-Christ, or Ahriman.
8. This entire matter remains the most highly classified and most closely guarded secret of all time, under the cloak of "national security"
9. Faith is what protects us against this. Paranoia is what allows the materialization of the MIB and other diabolical thought forms.

Editor Note: Paul Bennewitz is now working on religious connections, and that will no doubt bring in more interesting data.

FOOD FOR THOUGHT

There are some who think that the Soviets are being persuaded to use Tesla ELF weapons to flush the EBEs out of the Earth. Apparently, the process works similar to microwave, in which the deepest parts of the Earth get affected first. Apparently, they have moved from deeper bases to more shallow bases? One wonders sometimes whether there are other purposes for nuclear testing in Nevada....

PEOPLE NEWS

GEORGE ANDREWS, the author of "Extraterrestrials Among Us" is releasing a new book soon. He just returned from France in June. The new book title will be something like "Extraterrestrials: Friends and Foes".

After the success of the last book, we wish George well. The new book will have a lot of his channeled material.

WENDELLE STEVENS has been released from prison in the last month or so, and he is again assembling materials for another book.

WILLIAM STEINMAN is currently working on the connections between negative forces and UFOs/aliens. After the success of "UFO CRASH AT AZTEC", it will no doubt be a winner.

LINDA HOWE is currently working on a new book called "Animal Mutilations: The UFO Factor". The book is expected to be published some time in the coming year.

LEW TERY, the Nevada researcher who made a name for himself expounding on the theories of magnetic and gravity vortices and UFOs, has dropped out of sight. Allegedly, he fled to Utah in response to an alien-based summons...

PHIL KLASS, booked as the "bane" of every Ufologists nightmare, is looking for a replacement for himself. According to a recent issue of SAUCER SMEAR, an unscheduled newsletter issued by veteran "interesting person" James Moseley, Klass is getting old (68) and

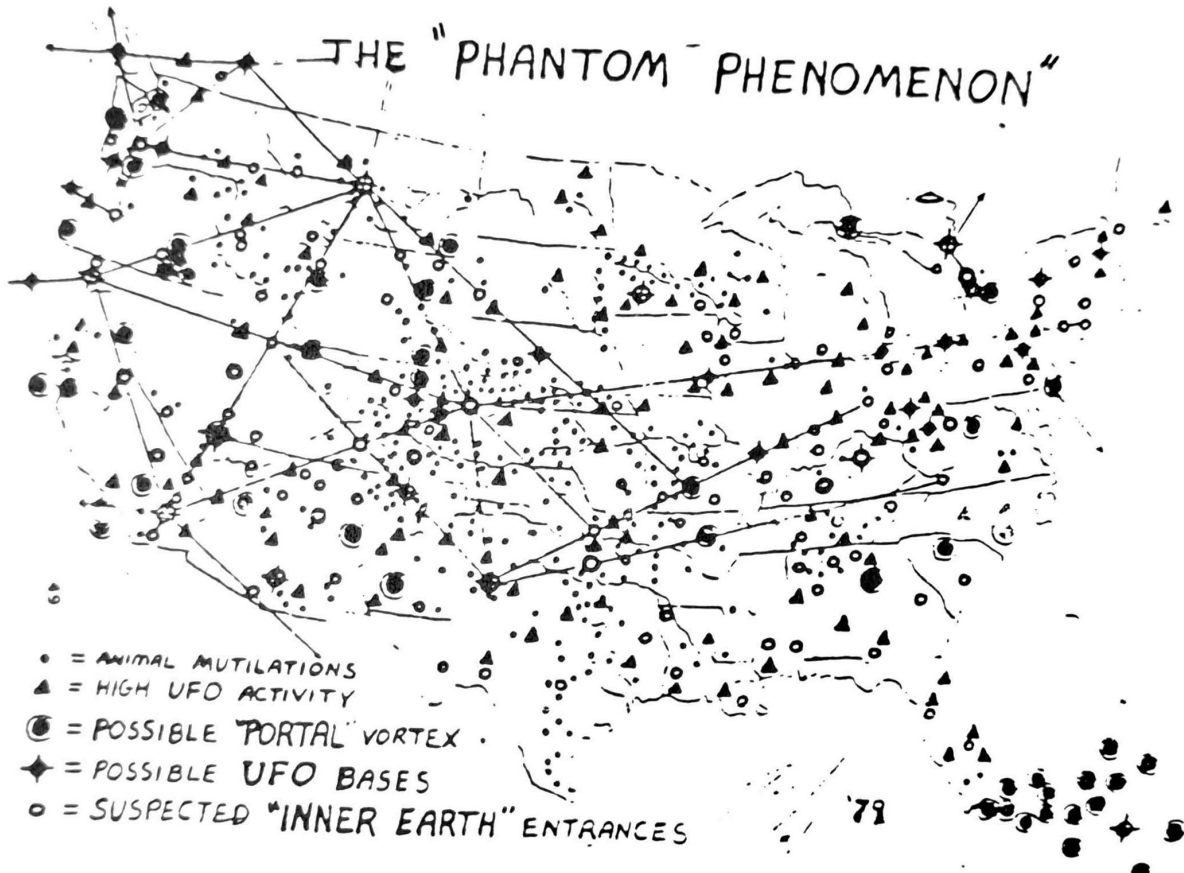

NEWS LETTER

is looking for a replacement to head the CSISOP organization (and mentality).

MORE FROM THE INNER EARTH FOLKS ...

The areas indicated above also happen to align with known magnetic and gravitational anomaly areas. It certainly makes for an interesting research project

- a couple points
- page 7 & 45 identify where the material comes from
- many experiments were done related to this material
- you will note many times in the text Smith states "We were told..." Buck Buchanan was present at some of the meeting with Sworn. So was Mr. Halford-Walkins who is now dead. I will send some letters I received from his wife. The DRB associate of Wilburt worked on the experiments from 1956-1962 but stated he had only been to Mrs. Sworn once.
- you can see a lot of material was received, much more than from "only two contacts."
- most importantly you will see AFFAO name never appears in this book, nor does it ever appear in anything Smith wrote. However the name is often and freely used by Murel and those who worked with Wilburt. Very freely used!
- this illustrates how cautious Wilburt was with his statements. It also supports the idea that there is much classified material he did not discuss. Some researchers, eg Zechel, have claimed Smith

March 13, 88

Linda.

People point I forget to mention related to the Swan office. At the end of the packet "Bugs from Topside" there is an article from the Winnipeg Free Press July 1967. This is the article I showed to Mark Smith in July 78. She confirmed Willett was the lead of the "believers," and that this story is the one where AFFA was to land at Suffield, Alberta.

Have enclosed the Hill letter which I had misplaced. Also an interesting book review by Victor Marchetti. Here we see the CIA was contrary to their claims involved with psychics etc. This makes only common sense. As outlined in Stephen Possong's book on technological strategy the American "spies" must investigate anything that it appears the Soviets might be involved in.

Otherwise, prejudice would cause serious omissions in new technologies. Because of the problems of lead times this would be a serious mistake (see Possong enclosure P. 99-100 and note Possong was on the 1953 CIA Robertson deal, and did analysis on UFOs for the Air Force in the early 50s)

Lundahl claims nothing happened and his story has carried the greatest weight with researchers. However Lundahl claimed to just be an observer. Friend who made the report to his boss was told by his boss that he would handle it. What did he do?

It is possible tho' unlikely that after one semi-brief contact with Swan that it would be quickly dropped, especially in light of the fact that Friend's report was supportive of the Swan, and the AFFA contact.

Have also enclosed some pages from Todd Zuck's unpublished manuscript. Again we will read of Lundahl's description in Zuck's own words

Mr. Grant Cameron
649 Silverstone Avenue
Winnipeg, Manitoba
Canada R3T208

Dear Mr. Cameron:

Thank you very much for your recent and provocative letter. There is a great deal we could perhaps discuss, but I would very much appreciate knowing more about who you are exactly beyond your letter's reference to 11 years of research about the work of the late Wilbert B. Smith.

To answer a couple of your questions: yes, in the spring of 1983 after being shown the "Briefing Paper for the President of the United States on the Subject of Unidentified Flying Vehicles," my mind was full of questions about the content and why it would be shown to me or anyone without substantial proof if the government sincerely intended to release information. It was described to me that the 68,000 feet of black and white and color film to be released to me for the documentary I was working on would be confined to the years 1949 to 1964. Thus, MJ-12's alleged strategy then was an historical segment, admitting E.T.s had been here, even talked to us (communicated mentally), but after 40 years we had ascertained they were not a security threat and they had gone away and hadn't come back, so now was the time to finally tell the truth. That was at least the version I was given in 1983.

However, much has changed in the four short years since -- very much including the "good" versus "bad" groups.

Am attaching a list of videos and publications I have available in case you are interested.

Look forward to hearing more from you-- this is perhaps a precarious time for the planet and I for one would like more truth and less lies and perverse, distorted deceptions.

Sincerely,

Linda Moulton Howe

Dear Grant:

The only person I have used your name with is Len Stringfield in Cincinnati, Ohio. He is very tight lipped, as you probably know. He is old enough to go back to Wilbert Smith's time, so that's why I asked him about his own knowledge of that man and time. Nothing new, though.

So, I am puzzled by what the leak is about.

Information has surfaced on my end that would make this entire UFO and other dimensional phenomena story so big that it goes beyond human concepts even of mythology. I will try in the next few weeks to send you a transcript of something for your comment.

One thing none of us can forget is that your, my and probably everyone's telephones in the communication network are tapped. But none of us are guilty of crimes. We are only trying to find out the truth.

Best regards and hope to hear from you again soon,

For record Conversation with Linda Howe (35 minutes)

Aug. 9, 88

NB Accuracy of this is suspect for the following reasons.

① It was not taped ② Linda Howe speaks faster than I do ③ She refers to numerous people and reports unknown to me. I could only cut her off to elaborate so many times.

She apologized for not returning my call of last week inquiring who the author of "The Pituitary" Valerian, Valdemar was. The answer is John Crep (sp?). He is from Las Vegas and connected somehow to Nellis AFB. It has been rumored he is a member of the CIA. Howe commented she does not care if he is. She will send background on him (an interview I believe she did?). He is the author of the KILL Report (which I received from Schulz and which has been forwarded to Cox and then Cain)

Crep is also the author of soon to be published "Market Papers" (sp?) about the battle between the ideals of Jehovah and Yahwah. Howe added following this "I'm not kidding." She elaborated about some channeled material, reincarnation etc. I was not listening.

A story which I had never heard came in answer to my questioning the Reagan - live alien story she had told me. This story comes thro' a military source (names were not mentioned) who obtained it from an officer on a military base (2 months ago). The officer got drunk and was asked if he knew about the "alien invasion." The officer stated "He knew all about it and recounted the following story.

There is an object "twice the size of the moon" on the edge of the solar system heading in this direction. How used the word theronuclear in connection with the object but I didn't catch the reason. Howe mentioned what group or agency was monitoring the object but I did not recognize it.

According to Howe the U.S., Chinese, Russian, Australian, and English are monitoring the situation. According to original calculations the

object was to have arrived here in 1990. Now apparently the object has picked up speed. Howe hypothesized about the use of "star news" etc.

Other items discussed - Reagan/Clin on T.V. This is one of two items OK'd by Reagan. He is to appear with a live alien in November following the election. She did not know which type it would be but it would be a grey (whether black eyes or yellow with slits)

On Oct there was to be a two hour documentary which sounded like it was a Shandera - Moore production. Howe said she might be a part of this. There was going to be an attempt to get Richard Dwyer on Camera to defend his story. Howe mentioned either who the producing company or network was but I didn't recognize it and didn't stop her story. There is a Los Angeles producer (Shandera?) The tentative date for this is Oct 14th.

I questioned her about the rumor that Moore was in Washington negotiating a major release for Sept. She stated this could be the long rumored "additional material" i.e. deep throat tape & Carter briefing papers. I stated the story had passed Shandera - Richard Hall - Stringfield. She seemed surprised Hall was involved and stated she would talk to Haines a common friend between her and Hall for details.

NB Please confirm for yourself any of this material before passing it on. I have provided my original notes.

Memo Conversation with Linda Howe 30 minutes

July 3, 88

I questioned Howe about the NSC Nov 21, 1981 letter from Major General Schweitzer to Major Von Keviczky. She said she had very heard of this but if sent the documents, she had three sources who would know. One was Bruce Maccabee, from the fund for UFO Research. She will contact me with results.

I questioned her on the statement apparently made by the President to ~~William~~^{Spielberg}. She stated this story has floated around for years. She had attempted to interview Spielberg, but was unsuccessful. At one point there was a denial but I don't remember who she said denied it. Synek never mentioned the story to her.

I questioned her as to whether anyone had more info on the Bush statement. She stated there was no news. She was not even sure which state it happened in.

Because of the various reports hinting at NASA involvement in the technology end of this UFO mystery, particularly metals, I asked Howe how NASA ties in.

She stated in 83 she had been told NASA was a "point agency" because of the numbers of scientists and labs to analyze things. Carter, she said, had tried to re-direct the focus for UFO sightings to NASA, but those who are aware know MS-12 uses many agencies, including coastal geodetic survey, and NARPA.

I asked her why Col. Ernie Edwards was so open to researchers. She stated he is a "very nice man." He is friends with Richard Doty, friends with Dr. Bennet, friends with Jerry Miller (1980 equarius cable).

During the 1980 Kirkland AFB affair he was chief of security. Now, she stated, he has been promoted and is one of the "top dogs" at Kirkland. Because of his security background.

you will find he learns a lot more from you than you learn from him. He has taken a security oath and knows what the limits are.

Asked about the ensuing Larry Bryant FOIA request dealing with her case she told Bryant she didn't look forward to spending great sums of time and money on this.

She stated she feels somewhat sorry for Richard Doty. The same supervisors who told him to dangle this material in front of me, Moore, Geston, Emmeegger, are now telling him to lie thro' his teeth.

She stated she had just done a TV show ~~also~~ with Friedman, Maccabee, and one other person. (she mentioned the name)

Two of the centers for UFO research are Kirkland AFB and Nellis AFB.

Gersten told us later in a phone conversation that Lakis had shown him the document when they met to tape the show that summer. Gersten had not seen it prior to taping and admitted that he didn't pay too much attention to it as it had looked "too good." (We had run into sensational, but unsubstantiated documents many times). He had asked Lakis for a copy later, but never received it.

Since his curiosity was aroused once again, Gersten asked Barry Greenwood to follow up on the report, hoping that if it were for real, we could get a copy. How would this be done?

Fortunately, the program was on videotape. Greenwood ran over the segment several times to pick out pertinent data from the document as it was shown on TV. The most important portion needed to trace the story was the source, which turned out to be the Headquarters, District 17 of the Air Force Office of Special Investigations, based at Kirtland. On November 23, Greenwood filed a Freedom of Information request with OSI Headquarters in Washington, D.C. (Requests filed with OSI District Offices are automatically forwarded to Washington.)

OSI's Chief of the Information Release responded to the request on December 1, 1980. The envelope was opened. Instead of the file, "AFOSI is maintaining file." Aside from a few minutes, the file was intact.

The file was intact. OSI Command, 80.

D. Lawrence, ected before hing news, request." tnesses,

cial nt., f

ct covers such skills. ater, three wit- up at a high speed

Mano, contacted Sandia Security on two alarmed structures in

the area. The advised that a patrol was already in the area and would investigate.

3. On 11 Aug 80, RUSS CURTIS, Sandia Security, advised that on 9 Aug 80, a Sandia Security Guard, (who wishes his name not be divulged for fear of harassment), related the following: At approximately 0020 hrs., he was driving East on the Coyote Canyon access road on a routine building check of an alarmed structure. As he approached the structure he observed a bright light near the ground behind the structure. He also observed an object he first thought was a helicopter. But after driving closer, he observed a round disk shaped object. He attempted to radio for a back up patrol but his radio would not work. As he approached the object on foot armed with a shotgun, the object took off in a vertical direction at a high rate of speed. The guard was a former helicopter mechanic in the U.S. Army and stated the object he observed was not a helicopter.

4. SOURCE advised on 22 Aug 80, three other security policemen observed the same aerial phenomena described by the first three. Again the object landed in Coyote Canyon. They did not see the object take off.

5. Coyote Canyon is part of a large restricted test range used by the Air Force Weapons Laboratory, Sandia Laboratories, Defense Nuclear Agency and the Department of Energy. The range was formerly patrolled by Sandia Security, however, they only conduct building checks there now.

6. On 10 Aug 80, a New Mexico State Patrolman sighted an aerial object land in the Manzano's between Belen and Albuquerque, NM. The Patrolman reported the sighting to the Kirtland AFB Command Post, who later referred the patrolman to the AFOSI Dist 17. AFOSI Dist 17 advised the patrolman to make a report through his own agency. On 11 Aug 80, the Kirtland Public Information office advised the patrolman the USAF no longer investigates such sightings unless they occur on a USAF base.

7. WRITER contacted all the agencies who utilized the test range and it was learned no aerial tests are conducted in the Coyote Canyon area. Only ground tests are conducted.

8. On 8 Sept 80, WRITER learned from Sandia Security that another Security Guard observed an object land near an alarmed structure sometime during the first week of August, but did not report it until just recently for fear of harassment.

9. The two alarmed structures located within the area contain HQ CR 44 material.

The source of the information is listed as Major Ernest E. Edwards, Commander, 1608 SPS (Security Police Squadron), Manzano, Kirtland AFB, New Mexico, and the form is signed by OSI Special Agent Richard C. Doty.

Remarkable information indeed! At this point, the plot thickens, however. The next part of the file is a two-page section on an OSI "Multipurpose Internal OSI Form" bearing the same title as the previous document, and dated 28 Oct. 80.

... On 24 Oct 80, Dr PAUL FREDRICK BENNEWITZ, Male Born 30 Sep 27, KS, Civ, SSAN: ... Albuquerque, NM, contacted SA RICHARD C. DOTY through Major ERNEST E. EDWARDS, Commander, 1608 SPS, Kirt-

land AFB, NM and related he had knowledge and evidence of threats against Manzano Weapons Storage area. The threat was from Aerial phenomena over Manzano.

On 26 Oct 80, SA DOTY, with the assistance of JERRY MILLER, GS-15, Chief, Scientific Advisor for Air Force Test and Evaluation Center, KAFB, interviewed Dr. BENNEWITZ at his home in the Four Hills Section of Albuquerque, which is adjacent to the northern boundary of Manzano Base. (NOTE: MILLER is a former Project Blue Book USAF Investigator who was assigned to Wright-Patterson AFB (W-PAFB), OH, with FTD. Mr. MILLER is one of the most knowledgeable and impartial investigators of Aerial Objects in the southwest). Dr. BENNEWITZ produced photographs and over 2600 feet of 8mm motion picture film depicting unidentified aerial objects flying over and around Manzano Weapons Storage Area and Coyote Canyon Test area. Dr. BENNEWITZ has been conducting independent research into Aerial Phenomena for the last 15 months. Dr. BENNEWITZ also produced several electronic recording tapes, allegedly showing high periods of electrical magnetism being emitted from Manzano/Coyote Canyon area. Dr. BENNEWITZ also produced several photographs of flying objects taken over the general Albuquerque area. He has several pieces of electronic surveillance equipment pointed at Manzano and is attempting to record high frequency electrical beam pulses. Dr. BENNEWITZ claims these Aerial Objects produce these pulses.

3. After analyzing the data collected by Dr. BENNEWITZ, Mr MILLER related the evidence clearly shows that some type of unidentified aerial objects were caught on film; however, no conclusions could be made whether these objects pose a threat to Manzano/Coyote Canyon areas. Mr MILLER felt the electronic recording tapes were inconclusive and could have been gathered from several conventional sources. No sightings, other than these, have been reported in the area.
4. Mr MILLER has contacted FTD personnel at W-P AFB, OH, who expressed an interest and are scheduled to inspect Dr. BENNEWITZ's data.
5. Request a DCII check be made on Dr BENNEWITZ.
6. This is responsive to HQ CR 44.
7. Command was briefed but did not request an investigation at this time.

This document is signed by Major Thomas A. Cseh, Commander of the Base Investigative Detachment. Bennewitz had apparently observed other UFO activity at the Manzano site and had managed to photograph the objects from his home close to the area. [He later revealed, in an interview with the Albuquerque, New Mexico *Tribune* on April 8, 1983, that the photos were taken on February 2, 1980.] Furthermore, the Air Force admitted on official documents for the first time that:

- 1) Since the closure of Project Blue Book, they have continued to investigate UFO sightings at Air Force installations, and
- 2) A civilian was investigated by the Air Force—something not to be done, according to previous Air Force statements.
- 3) The Air Force still employs the services of a former Blue Book investigator (Mr. Miller) who "is one of the most knowledgeable and impartial investiga-

tors of aerial objects in the southwest." Not was, but *is!* Present tense. And the data was scheduled to be inspected by "FTD (Foreign Technology Division) personnel at Wright-Patterson AFB, Ohio," the former home of Blue Book!

What is going on here? This information turns previous Air Force policy concerning UFOs on its ear. It is utterly amazing that this data was released with such statements. Yet, here they are.

Going further, another internal OSI form dated 26 Nov. 80 relates:

1. On 10 Nov 80, a meeting took place in 1606 ABW/CC Conference Room attended by the following individuals: BGen WILLIAM BROOKSHER, AFOSP/CC, COL JACK W. SHEPPARD, 1606 ABW/CC, COL THOMAS SIMMONS, 1606 ABW/CV, COL CRES BACA, 1606 SPGP/CC, COL FRANK M. HUEY, AFOSI Dist 17/CC, LTC JOE R. LAMPORT, 1606 ABW/SJ, MAJ THOMAS A. CSEH, AFOSI Det 1700/CC, Dr. LEHMAN, Director, AFWL, ED BREEN, AFWL Instrumentations Specialist and Dr. PAUL F. BENNEWITZ, President Thunder Scientific Laboratory, Albuquerque. Dr. BENNEWITZ presented film and photographs of alleged unidentified Aerial Objects photographed over KAFB, NM during the last 15 months. Dr. BENNEWITZ also related he had documented proof that he was in contact with the aliens flying the objects. At the conclusion of the presentation, Dr. BENNEWITZ expressed an interest in obtaining financial assistance from the USAF in furthering his investigation regarding these objects. DR. LEHMAN advised DR. BENNEWITZ to request a USAF grant for research. DR. LEHMAN advised DR. BENNEWITZ he would assist him in filling out the proper documents.
2. On 17 Nov 80 SA RICHARD C. DOTY, advised DR. BENNEWITZ that AFOSI would not become involved in the investigation of these objects. DR. BENNEWITZ was advised that AFOSI was not in a position to evaluate the information and photographs he has collected to date or technically investigate such matters.
3. On 26 Nov 80, SA DOTY received a phone call from an individual who identified himself as U.S. Senator HARRISON SCHMIDT, of New Mexico. SEN SCHMIDT inquired about AFOSI'S role in investigating the aerial phenomena reported by Dr. BENNEWITZ. SA DOTY advised SEN SCHMIDT that AFOSI was not investigating the phenomena. SA DOTY then politely referred SEN SCHMIDT to AFOSI Dist 17/CC. SEN SCHMIDT declined to speak with 17/CC and informed SA DOTY he would request that SAF look into the matter and determine what USAF agency should investigate the phenomena.
4. It should be noted that DR. BENNEWITZ has ALLEGEDLY had a number of conversations with SEN SCHMIDT during the last few months regarding BENNEWITZ'S private research. SEN SCHMIDT has made telephone calls to BGEN BROOKSHER, AFOSP/CC, regarding the matter since Security Police are responsible for the security of Manzano Storage Area.

Bennewitz had now been invited *onto the air base* to present his evidence, another first for an Air Force document to admit. Note the reference to Bennewitz being in "contact with the aliens flying the objects." One's first

impression might be to dismiss this person immediately as a nut. It certainly is a wild claim. What did the Air Force do? The Director of the Air Force Weapons Lab advised Bennewitz to obtain an *Air Force grant* for further research!

OSI then suddenly did an about-face, and told Bennewitz that they would not get involved in further investigation. Why? We might speculate that OSI felt that if it became too deeply involved in this case, especially where a civilian was concerned, that such information would get into the open more easily. It worked for a while, but the dam finally broke.

The last document in the file is dated July 30, 1981, and involved a Congressional inquiry.

On 30 Jul 81, the 1606th ABW IG contacted DO 17/BID and advised that Senator PETER DOMENICI desired to talk to SA RICK DOTY regarding the matter involving BENNEWITZ. After checking with Col HARVELL, Acting AFOSI/CC, it was agreed SA DOTY and DO 17/CC would meet with Senator DOMENICI. Senator DOMENICI was present in the IG's Office but departed immediately to meet with BENNEWITZ. A subsequent check with Mr. TIJEROS, Senator DOMENICI's Aide, in an effort to determine the Senator's specific questions, determined his sole interest was to know whether AFOSI had conducted a formal investigation of SUBJECT. Mr. TIJEROS was informed that no formal investigation of BENNEWITZ was conducted by AFOSI. Mr. TIJEROS stated that he assumed if any information were available, and was to be requested from AFOSI, it would have to be requested from our Headquarters. He was provided Col BEYEA's name and the Bolling AFB address of our HQ AFOSI in event he desired any further information. Mr. TIJEROS thanked us and indicated no further inquiries from the Senator regarding this matter are anticipated.

Thus, we now have a clearer picture of what happened at Kirtland AFB in 1980. Normally, with an FOIA request, specific queries are replied to by addressing the original request *very literally*; you get *exactly* what you ask for. In this case, the request for the Kirtland data focused on just the sightings between July 1 and September 10, 1980. The first document responded to this. But additional documents were provided with startling statements, falling well outside the time period requested. One document was dated nearly a year later! Strangely enough, if OSI hadn't volunteered the other documents, we wouldn't have known any better; the story about Bennewitz's involvement would still be safely locked away.

Bennewitz's claim to contact with UFO entities must be taken with a grain of salt (or maybe several grains!) without more than just a few of his brief comments. What is most significant at present is the Air Force's *reaction* to him. Have they experienced similar situations before? We think this is a distinct possibility since other accounts of such events have been related to us in confidence.

The Kirtland reaction was hardly one of disbelief and skepticism. They

seemed to have wanted to encourage further developments *with funding*, perhaps to obtain clear photographs or better instrument readings. The list of personnel attending the November 10, 1980, meeting at Kirtland is impressive, and certainly implies that the UFO phenomenon must be serious if these individuals take time out of their schedules to participate.

"Significant" is hardly adequate to describe these events, but if this is what the public is being allowed to see, what else is being suppressed? To paraphrase Roy Neary in Steven Spielberg's *Close Encounters of the Third Kind*, "We just want to know what's going on."

JANUARY 24, 1987
INTERVIEW WITH CAMERON
INTERVIEW WITH THOMAS MOORE

of Cameron asks whether she's heard of the two Doty's and if there be both a father and an uncle. He told me that people that were all involved in the government.

As he mentioned it to me.

He says I asked him about the Ralph Doty that was listed in connection with Project Gemini. So he said he had a father and an uncle and they had both been involved with that stuff.

As that did not hear.

He also was heard of the boat Project Aquarius.

As the boat called Project Aquarius.

As yes.

As that it written by.

As Cameron tells the story of Pratt and Moore.

As it is going to come under Moore's authorship.

As now it was a joint project. Cameron mentions the fact that John and Collins have been transferred.

As well, I was told that Richard Doty was alive and well in the area and operating under a post office box that I'm happy to give you and that he is "officially" out of the Air Force and is working at something called the Metascor(spr) Corporation. Interestingly enough, one of the tasks of the Metascor Corporation is to receive transcripts and other information from UFO abductees around the country and the world. That's the line. . . it just all gets more incredible. I . . . I guess what I am trying to do is to make judgement that Richard Doty, MJ-12, the government cannot have been acting totally inevitably with back-savellian intent. . . there has to be a fundamental story here of such an astonishing nature that part of what they've done is an act of compassion to try to protect what they consider the innocent and ignorant public. Now the questions that you and I and others are trying to get to is what is the truth that is this astonishing information. Now if . . . if Doty has been working with Moore since 1981, I think of is the year that Moore gave on the national TV show and both Moore and Doty were in contact with me in 1983, the time that Doty had shown me the briefing paper and said the government was going to release that film and all that. The thing I guess that disturbs me the most that the story, the picture that I was expected to paint with the historic material was one - a very sympathetic story about these extraterrestrials as being way way way beyond us technologically, having come here because this whole planet was their experiment and that we were genetically the product of their DNA manipulations and that there was something about the experiment that these creatures considered to have gone wrong and that basically we were at some kind of a weird turning point in which the EIs were not happy with us and we were just beginning to learn about them

and that somehow, efforts to communicate between them and us were ongoing and that somehow out of this communication we were all supposed to work towards some kind of peaceful end. That was the story that I was supposed to tell in 83. Doty's version on that two hour special basically supported that kind of benign story. But now that you and I and others have discussed there is all of this quite in some regards hideously dark stuff about the human race to be enslaved by the completely . . . either enslaved or destroyed by another intelligence that has no use for us and all that. And these two contrasting points of view in five years. Not being able to reconcile this not being able to understand this and why two completely opposing story lines should surface in five years. All the frustrated letters that have come from military people claiming that the CIA and so forth are guilty of things worse than treason for having done the things they've done to keep the story quiet. It all adds up to something that makes me want to I guess feel like what is it that we are trying to do defend or what is it that we are trying to fight that continues to perpetuate these kinds of silly games described to me between Moore and Doty, Pratt and so forth. You know what I'm saying? Do you have anything since the last time we have talked that would shed some light on this situation?

C. No. (Cameron relates how they are questioning someone at Penn State.)

H: Stanton Friedman told me that he had heard that I was considered to be too independant and unpredictable and if you're being paid to lie, a lie that protects people's psyche, that's a hard nut for me to swallow. I want to know what that huge truth is that demands these many lies to protect us. That's level one. Go up another notch. Perhaps the truth has something to do with the increasing knowledge of the fact that we are coming to some kind of an end time. Meaning, Moore has told in what some garbled fashion - Fenwick, Tonkars and those guys - back in 1981 in 82 in New York that by 1992 there would be a occurrence on the planet equivalent to the second coming of the Christ. It would not be the second coming of the Christ but equivalent to and the world would never be the same again. That's what Tonkars and Fenwick told me that Tracey Torme and/or Moore told them in New York in 1982. Now, the rumor that is circulating~ from many other sources not just one . . . John Lear is one source . . . this is from other levels is that in two years which will be 1990 will be the irreversible presence . . . I don't know if that means the sky will be full of crafts and eis coming down on beams of light and they enslave us . . . I don't know what it means but that by 1990 there will be an irreversible and that word is used an irreversible encounter that the ETs and the what ever the hell they are will make themselves globally present and that the world will never be the same. So you've got all these apocylptic themes running everywhere around 1990 and 1992 and you are not hearing this?

C. No.

C. There didn't seem to be any panic on the part of the
gods & as far as we have seen.

H. Well, I wish to know. If you talk to John Lars. He gets
frustrated that makes him sound panicked and therefore I don't
do it. If you talk with... I'm trying to think of someone
who is the ~~obvious~~ opposite who's on with the military...
There's one or two people - Diane Russell. They don't sound
panicked, in fact they seem to suggest that it is not all
out and dried that it is not all one sided - that there are
forces at work with us - there are allies and there are enemies.
There are defectors and all these terms from war used by
different people, and 99% of the planet is spinning around
totally ignorant - absolutely not even conversationally
oriented about any of this, and I find myself feeling like
in the first throws of some type of underground. I don't
even know what we're fighting for.

C. Which brings me to this item on Doty. He did mention
the greys and the blonds?

H. Oh. Yes. Absolutely!

C. He used the words greys and blonds

H. Oh yes! And in fact we talked about them as the Nordics
the blonds and the tall vs the greys the little grey and the
elids.

C. And he had the blonds as the good guys and the greys as the
bad guys.

H. In 1983 it was exactly the opposite.

C. So that's right.

H. He called the blonds the trouble makers. He said that the blonds
and the greys had had a very long war. It lasted at least 300
years of our earth years. This is the way he described it. I have

no idea what the truth is. He said that... the group came from
 a binary star system approximately 55 light years from here,
 that this planet was the second I believe the second planet of
 a solar system of 11 planets and that this planet the second
 was the closest to the two rotating binary systems. They didn't
 have any darkness like we do. He said that ~~was~~ the planet that was
 the furthest from the furthest and on the 1st or 8th planet - something
 like that. Then the group planet. The group had taken their DNA
 technology to that planet in had created the Nordic types on this
 planet as an experiment. The experiment got out of hand because
 these creatures that they created evolved technologically so rapidly
 and that it had something to do with spiritual ^{essence} essence also. The
 Nordics developed some sort of spiritual essence that was different
 from the group. The Nordics resented the fact that they were under
 the control of the group and that they knew something about the
 side of the soul in relationship to the group and that they revolted.
 This was a revolt against the group, and that this war went on for
 200 years, but that in the end the group won because they
 always win - this is one of the phases I believe that was used -
 because they have an ability to control all consciousness by mind.
 I was also just negotiating 1983. I have no idea what is truth and
 what is bullshit. Then he (Doty) said that now the Nordics and
 the group only tolerate each other. That's the word he used tolerate.
 He said they are both here, they are both present, and he refused to
 the Nordics as the troublemakers. They caused military problems and he
 cited some examples where the Nordics flooded a city and as a result
 in Luzon and some other different places or something. He said he
 didn't know if the Nordics were trying to help people or if they
 were just trying to be mischief makers but it caused these
 (military) problems and it was obviously pissing the military off.

and they were totally unpredictable and uncontrollable and all of that, and that everything was Newbury doing with the groups. That was the 1983 story. Well, by five years later it would appear to be exactly the opposite.

If you look at the two hour special. You look at what he said as Falcon he's feeding the same story that he painted in '83. These groups are sort of our buddies except that they completely control that Area 51 at Nellis AFB. That would be totally acceptable and understandable that extra-terrestrials - people from another planet would be in complete control of a land area of the U.S. as the ~~invitation~~ guests of the United States govt. Didn't you find that strange wording? What are you hearing?

C. What was the deal with EBE-1. You were to have talked to his keeper. Right?

H. Does he have talked to the Colonel, the Snow. Believe dead colonel who was then a Captain in '49, who retrieved the live alien from the crash at Roswell - the second Roswell crash, and took him to Los Alamos. This colonel was to have stayed there with the live ~~alien~~ extra-terrestrial on a pretty much 24-hour basis until the alien died on June 18, 1952 of unknown causes according to the briefing paper and according to what the Falcon Doty said on the two hour TV show.

C. Did Doty talk about that when you met with him?

H. Ya. I was supposed to go and film with the Colonel.

C. OK. But did he mention this thing about "unknown cases"? H. It was in that briefing paper that I read.
Did you find that strange - that they didn't know what he had died of?

H. Ya. I talked to him about it. This is what Doty told me that very day. According to what the creature had communicated ~~to~~ to the

Colonel and other men tell. He was young in their age terms and that he was something like a mechanic - an engineer in our world, and that the others who had died in the crash were considered the scientists - the ones with the most knowledge. He explained that he would normally live 150 to 200 of our years and that his age at the time of the crash was about 40. However you want to put that - 40 and so he was young.

Now this is what Doty told me - that in the beginning they experimented with food. They took trays and they put food. They put vegetables and they put meat. They put different kinds of water and juices, ice cream and all kinds of stuff on trays to try and find out what this thing would take. They were afraid it was going to die. They didn't know what to do with it. That's his story. They found according to Doty that what he liked the best was vegetables and ice cream.

c. Just like the special

4. Literally. He told me that in B3. He didn't specify it as being ice cream. John Lee talked to me this morning and he's talked with another person who says 'Yes, it's true one matter how many people think. It's true - strawberry ice cream is their favorite thing to eat here from this planet. OK. Now what he said was they didn't digest fats and much as we loved the ice cream to eat thru' his membrane - this is how he described it as a membrane in the mouth. The sacrifice was that he would get sick. Over the three years the Colonel and the creature got used to the fact that when he would give in to wanting to eat the ice cream - he would be sick, but they were used to him getting sick from eating different kinds of food. They didn't give it too much serious attention, and according to Doty this one day the creature started getting really sick and the Colonel got very

claimed, and got him into some sort of hospital on an emergency
 basis at the time, and the creature failed very rapidly. This
 is supposed to be the parallel to the ET story. The ET communicators
 eventually that he needed light. He needed the light from whatever
 sort of technology they had on the craft to activate him. Actually, the
 in the movie. Ever get it in 1952 that he said he said out some sort of
 primitive SOS signal, by nobody picked up on it and he died.
 You know I don't do all so confusing because the story I'm
 just telling you is a dead, and outlandish. The referee allegedly
 wept. He said it was like being with a child with the mind
 of a thousand men and the referee supposedly loved this creature.
 Then you have all these other stories that we are a failed experiment
 and it time to wipe us from the planet. I mean - how do you
 c. Did you ever talk to Zimmerman. He supposedly saw pictures
 of the planet and EPR-1
 H. Mike talked to Robert Zimmerman under Lima since 1983
 and Mike came to the conclusion that he did work for intelligence.
 He is a person who has told me variations on various themes.
 He rarely tells the same story the same way twice, and I am myself
 convinced - doing Farrell and myself put in front of Robert
 Zimmerman in his house together in March 26, 1983 and we asked
 him point blank 'Did you see the 16mm motion picture film
 discussed so long recently the free camera of Holman. He
 had all those detailed descriptions and I had heard a radio
 interview. He had done in Texas in 1975 telling all this stuff.
 Right in front of him, point blank to his face and he says "No"
 He showed all the way up to this set. He said that he had met
 even anything but someone from Fresno, and then on the 2nd he
 agreed. He said he saw the film. He had done for five years.
 Not just to watch do other people see. Now this has to be

reason for that front. There's got to be a reason that Emmezzo would have close relationships to Coleman, Weinberger, Friend, English - all of those people, Rosten and the Pentagon and Dwight Patterson and he lying to all of us that are supposed to be trying to tell honest stories.

C. Is Emmezzo still producing or what does he do?

H. Oh. He's still very much involved with the Dep't of Defense in terms of doing scripts or stories for television.

C. That's pretty clear what's going on. That's why he and Moore would be kept on while you would have been cut out.

H. That is right.

C. You just didn't follow the script?

H. Yes. That's right (Laughs) That's right.

H. Are you in Canada getting anything along these very dark lines.

C. No. I mention it not affecting Reagan.

H. Do you see the SMP letter?

H. It sounds that's an honest scream.

C. Why didn't they put down their names.

H. Everybody in this whole bloody story is scared to death of making a reputation if they violate oaths. I don't know what it is. That is such a horrible secret that has got everybody so put-off. Those that have knowledge - that they keep quiet. That's what makes me wonder if there's anything true to any of these darker stories. What keeps people quiet? You know it's fear. It's a great wonderful story why wouldn't we have known about it since the 40s.

C. That raises the question of why they would start to leak stuff when they could have kept it absolutely secret. Pratt tells the story of Richard Doty absolutely leaking stuff on Moore. (Conson repeats the third author story and the material added to the manuscript)

B. Laet (ignominious) include the green glowing being that shot at the security guard and killed him.

C. He has only discussed the story surrounding the book story.

H. Well, just know that I have been told that regardless of the stuff that was leaked out to Pratt and the National Enquirer to get them off the hook, that the story of the green glowing being coming out of the craft at Ellsworth - the security guard shot first with a gun, and that the green glowing being retaliated with a beam of light that killed the security officer. In one of the watered down versions of the document, as I was told, it said that the ray melted the gun in the security officer's hand. The story I was told is that the security officer was killed, and that one got' + freaked out, and said that no one under any circumstances was to know that there was an exchange between another creature and an American military serviceman with fatality on our side.

G. (Go back to the blind (grey issue and the look of blood) in case)

H. Remember about the retrieval report by Stringfield that never published. There was a French pathologist who was called into to do an examination on two seven foot aliens - haulers with cupped blue eyes, and he was doing some sort of examination of something with the blood. The doctor was reporting how they were close like identicals. That was in the 60s. They didn't have blond hair but they were seven foot tall. The only two I've heard of in terms of pathologists. The rest of them have been those grey things.

The thing that is bothering a lot of us now, is that there are too military sources that I've heard. With Lou Mulier he says

a lot of things that are a little enlarged but assuming some of this is true. It says that two military sources say that our govt knows that the guys are only the worker bees and that we have yet to encounter the intelligence behind them.

The current perspective is that the guys have been living here in a symbiotic relationship on our planet for eons, and whoever was responsible - even the Placidian literature suggests - that the Placidians were responsible for getting us into the nuclear age. Once we started dropping our testing bombs under the N. Mexico desert, then we were beginning to affect them, and that that's why they made themselves surface. They were here all along. Not that they originated here, but because they are like a colony working under the ground here. It's the ignorant half of the symbiotic relationship. They are in the process of communicating with us over the past 40 years in a way different way than in the past. We now have bomb and missiles and things that can hunt them.

There's another part of it. It's that the grey things that have been here for eons are just an outpost, a worker bee colony that has been doing things here on this planet. There is an much larger over-riding intelligence behind it. That's the current story.

Our various San Stungfield continues to get messages from Britain that the whole situation is grim beyond anyone's imagination and it's just awful. Fear keeps getting natural that makes it sound like we are about to be involved at any minute. Others like yourself seem to be immune from getting this.
