

7
youngster say, "I ² say out idea, but is it, what
else I could be in one place one
moment, and somewhere else a few
months later."

Many of the signals coming from different parts
of space, that are being picked
up by our Radio Telescopes, could
also be contacts between numerous
space craft, and between those space
craft and their home bases.

Kind regards and best
wishes,

From. Ron. Enza
