July 19th, 1977.

Dear Mr. Bray,

My name is Howard Gontovnick, and I telephoned you last month about speaking at a Canadian UFO symposium in November. Firstly I postponed the symposium because of location problems, but everything is go for next year. The reason I am planning this event is to give Canadian UFO researchers a chance to meet one another and discuss the Canadian UFO scene. To give you a brief example of what the symposium will work like; it will consist of various speakers, work shops, a gigantic exhibition of booths on various areas of UFOlogy, and much more. I am printing up a brochure on the symposium which will be ready by January. This is why I must know if you are interested. The exact date is not for certain yet but I shall let you know very shortly.

Just recently I began to put out a monthly periodical titled UFO CANADA. Enclosed is some information on it, I shall send you a sample copy when we receive our July '77 issue back from the printer. Until next time.....

Sincerely yours

Howard Gontovnick
