

VILLE DE PORTNEUF
Cté Portneuf, P. Q.
Section 19(1)

10 Décembre 1968

5220-5

8919

Ministère des Transports-
Chambre des Communes, OTTAWA-Ont.

Honorable Ministre,

Veuillez communiquer à qui de DROIT les renseignements suivants :
Les détails suivants m'ont été communiqués par Dame Vve Section 19(1)
-- personne sérieuse et très digne de foi.

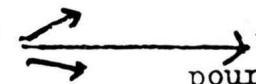

Adresse : Ville de Portneuf, Comté de Portneuf, P. Qué.
Section 19(1)

Le 24 Juin dernier, à 1/4 de mille à peine de sa demeure, à 9 hrs du so-
, cette dame a vu clairement de SES yeux, vérifié par une lunette d'ap-
proche, un engin tout lumineux, sans chassis, SANS AUCUN BRUIT, la lumière
était de couleur ROUGE-ORANGE;

Sa forme : (ovale) →

de 20 à 24 pieds de long. L'engin s'est arrêté
absolument immobile pendant un bon dix minutes;
Endroit : à 1 mille environ OUEST de l'Eglise (Catholique) de Ville
de Portneuf-, à 150 pieds du sol (environ) endroit précis pour bien
voir la route Nationale No. 2, le Chemin de fer C.N.R. et le Fleuve,
car à cet endroit les trois objectifs sont limitrophes, à quelques
pieds près.

Avant de continuer sa route vers l'OUEST (Montréal), l'en-
gin a fait deux zizags très rapides  OUEST
pour partir à grande
vitesse toute lumière éteinte..

Ce n'est pas une imagination, sûrement,
car la Dame a bien vu et peut vous décrire le phénomène, elle-même,
si vous désirez lui rendre visite.

Est-ce une soucoupe volante ?- Un engin "ESPION "-??

Faites donc enquête, ça decrait être très
intéressant et très utile pour notre armée.

Bien ; a vous, en N.S.

Dear Sirs,

I would appreciate it very much if you would send me Canada's latest up-to-date accomplishments in space travel and if we are ahead of the United States. When will we launch a Space Probe? I would like information on Tel-Star; how it works, how it exists in space etc.

Yours truly,

Section 19(1)

Dear Miss Cross:

I regret that this office has no information to offer on unidentified flying objects, since no formal research has been done by the Department in this field.

I am forwarding a copy of your letter to Dr. F.M. Millman, Upper Atmosphere Research, National Research Council, Ottawa, for further attention. I believe his office may be able to provide you with material on your subject.

Yours truly,

K.M. Parks,
for Chief, Information Services.

Saturday, September 14, 1968.

Dear Sir:

At present, I am interested in unidentified flying objects, commonly known as U.F.O's. I learned from the newspapers that the Canadian Government was seriously considering that problem.

Is it possible to get access to the central files that you have as is now being done in the United States since Aimé Michel, author of the book, "A PROPOS DES COUCOUPES VOLANTES", and Jacques Vallée, author of the book, "LES PHENOMENES INSOLITES DE L'ESPACE", have had access to study the problem.

Is there a French association in Montreal that deals with strange objects?

Thank you in advance for your cooperation.

Présentement je m'intéresse sur le cas d'objets volants non identifiés communément appelés (O.V.N.I.). J'ai appris par les journaux que le gouvernement canadien se penchait sérieusement sur ce problème.

Est-il possible d'avoir accès aux dossiers centraux que vous possédez comme le font présentement les Etats-Unis puisque Aimé Michel auteur du livre " A PROPOS DES COUCOUPES VOLANTES " et Jacques Vallée auteur du livre " LES PHENOMENES INSOLITES DE L'ESPACE " ont eu accès pour étudier le problème.

Y a-t-il des associations françaises dans le mtl qui s'occupent de ces choses insolites.

Merci d'avance de votre coopération

Dear Sir:

In reply to your letter requesting information concerning "Project Magnet" I regret that we are unable to be of much assistance to you.

The late Mr. W.B. Smith, who was employed by this Department, was quite active in the field of Unidentified Flying Objects, and I understand he termed some of his activities "Project Magnet". However, these activities were purely a personal hobby of his and we have no Departmental information on the subject.

Yours truly,

G.H. Stewart

Dear Sirs,

concerning a scientist by the name of Willbert B. Smith

On account of a disagreement several engineers at the Finnish PTT Telegraph Department would be very pleased to have the following questions answered.

Was Mr. Willbert B. Smith employed by the Department of Transport during the years 1939 - 1962 ?

Was Mr. Willbert B. Smith authorized by the Department of Transport in 1950 to superintend the work at "Projekt Magnet" (The investigation observatory at Shirley Bay about 16 km northwest from Ottawa)? It became the world's first official scientific investigation organ for U.F.O. (unidentified flying objects), geomagnetism gravitation etc.

Did Mr. Willbert B. Smith receive "The Canadian Engineering Award" (posthumous)?

We would very much appreciate an early reply.

Yours faithfully

Dear Mr. Unikel,

I am acknowledging your letter of April 29 addressed to Mr. W.B. Smith, since he passed away some years ago and I have taken his place in the Department of Transport.

I regret to advise that Mr. Smith's work on unidentified flying objects was a personal project of his and the Department received no information on his findings.

Since we are not working in this field, I am sorry to advise that there are no positions open for summer employment. If you are interested in a position in the Canadian Civil Service, I would suggest that you write to the Public Service Commission, Place de Ville, Tower A, Ottawa 4, Ontario.

Yours very truly,

Wilbert B. Smith
Superintendent
Radio Regulations Engineering
for Canadian Government
Ottawa, Ontario

Dear Mr. Smith,

I am presently studying for my Masters Degree in Industrial Engineering at the University of New York, New York, U. S. A.

I have read of the research you are doing on UFO's and am very interested in this subject. Could you possibly send me some information on what you are doing?

I was born in Mexico City, Mexico and plan to study in New York for two years. I speak Spanish, English and have some basic French. I am 24 years of age.

This term ends in May and therefore I have the months of June and July and part of August in which to study elsewhere or to seek employment. Is there any way in which I can study what you are doing or seek employment with your institution for this period?

I am extremely interested in the type of research your institution is doing and would like to learn more of what you hope to accomplish. Could you please also tell me if there are any summer positions open for which I might apply and what qualifications one needs to seek full time employment?

I would appreciate any help you can give me.

Thank you,

Yours truly,

Mr. J. W. G. G. G.
Mr. J. W. G. G. G.
Mr. J. W. G. G. G.
Ottawa, Ontario, Canada

March 28th, 1960

Dear Sirs;

Although this inquiry may be of rather unusual nature, in your opinion, it is of the greatest importance to me. I have been studying the UFO phenomena for some time now and am most anxious to become involved in the investigation and research of this matter. Since I am a Unit Director for the A.F.S.C.A. (Headquarters USA) I have gained access to a considerable amount of information not yet realized by the average public. Please inform me of the possibilities of becoming a government investigator on this subject, which I am sure, must raise a great deal controversy in public circles at this time. Should you not have an investigative committee at present searching the facts and public reports about UFO sightings and incidents, I would appreciate very much your reasons why this has not been done. Public confidence in any power of authority or base in power is maintained only when maximum effort is extended in the direction of a subject which is of magnitudal public and humanitarian concern. With a great deal of confidence I await your reply.

Yours truly,

Section 19(1)

5220-5
(IS)

OTTAWA, March 22, 1968.

Section 19(1)

Grand Blanc, Michigan 48439
U.S.A.

Dear Section 19(1)

I acknowledge receipt of your query of March 17 concerning UFO's.

The Federal Department of Transport is not involved in any investigations related to this subject. I understand that the Department of National Defence has staff which investigate the more likely reports of UFO sightings. It is my further understanding that no investigations have yet substantiated any of these reports.

If you wish to pursue this matter further, however, I suggest that you write to the Director of Information Services, Department of National Defence, Ottawa, Ontario.

Yours sincerely,

William Dunstan,
for Chief, Information Services.

WD/rh
