ABOUT THE CENTER

The Center for UFO Studies* was established in 1973 with the primary objective of promoting serious research into the UFO phenomenon. The persistence of the phenomenon on a world-wide basis over many years constitutes sufficient reason in itself for such study.

The CENTER'S chief functions are:

1. To provide a central clearinghouse to which all persons, official or private, can report UFO experiences, without fear of ridicule or unwanted publicity, but with assurance that all reports are given serious investigative consideration by qualified personnel. This might involve, as occasion demands and facilities permit, trips to the location of a UFO sighting.
2. To enlist and stimulate laboratory and other technical analysis of significant individual reports from all over the world.
3. To maintain--and make available to all serious qualified research persons--as complete and current a file of UFO reports as possible, both in narrative file form and in a computerized data bank (UFOCAT).

* A "not-for-profit" Illinois corporation with tax-exempt status with the internal revenue service.
