

I also came across a couple of other references to Bush, including a visit he made to Ottawa, but no mention, ever, of UFOs. Just for the record, the CJM diaries are assigned call number MG30,B122. He died in 1984.

The diaries are generally very brief and sketchy and many days simply show "routine office work". This statement could cover a myriad of things, including UFOs, but we will never know.

It is not possible to find out what documents anyone else copied at the Archives. You had asked me to look into this.

I am surprised that Bridge seems to know so little. Also, I am surprised at Buchanan suddenly clamming up.

Re the Keyhoe article intended for TRUE magazine -- no, I don't have the original article. Copies of Smith's letter to Keyhoe and memo to Solandt are enclosed.

Wilbert died of a brain tumor, in response to your query on this matter.

Re Suffield. I have been working on this one for years and am getting close to seeing documentation. This is a long story, but if you will leave this one with me, I may be able to get results soon, as my contact is being quite cooperative. I do not intend to drop this matter as I have been at it too long to just quit. But the situation presently looks brighter.

Re the Jan. 6/51 letter from Cox in Washington. I only have a photocopy of this, from which I made your copy.

Yours sincerely,

Arthur Bray.
