My focus on the Carter "UFO sighting" has centered on how it was em

digging out (with some great help from staff there) UFO trivia.

The Sheehan/Smith story has a parallel chronology in the Carter arc if one follows the machinations of the National Security Council (under and NASA.

Also, the "UFO report" itself is specious, as the actual group to which Carter filed his report (in response to a solicitation by that group Carter when he was Governor) was NOT the old NICAP organization, a minor UFO "investigation" group based in Oklahoma. The "sighting report" Carter actually filled out and signed was not on NICAP letterhead, but the other group's. Years later, after the strategic 1976 "leak" of his sighting, Carter's "report" surfaced on NICAP letterhead, verbatim for the change of letterhead at the top of the form. In short, it was a counterfeit in terms of the organizational framework where Carter's had been "processed."

From the internal correspondence about his election promise (as reported in the Enquirer), Carter may have done as you quote Sheehan as reporting. But he did not stay exclusively with the CRS strategy, if the White House

Policy files are an accurate indicator, as I believe they are. And Carter was obviously highly pissed off at the leaking of his sighting to the Times and to the Enquirer at such a critical juncture in his campaign, oddly in retrospect to Rockefeller's to Clinton, eh? Actually, as I was on the "inside" of that latter one, I determined

that many of the players in the Carter "UFO flap" were still in place and active during Clinton's. It was for this reason I'd initiated my research at the Carter Library, finding other stuff.

There was a HUGE internal and bitter fight when Carter opted not to the NASA administrator, and it does not require much "between the lines" interpreting to conclude that at least part of the acrimony accrued the "UFO disclosure" flap. NASA had "stonewalled" the White House on this as well. We surmise at some point, Carter (as did Clinton) got what was led to believe was "the real UFO briefing," although there is reason to suspect that both Presidents were misled on key elements of the "UFO phenomenon," as more broadly defined in my "Matrix of UFO Beliefs,"

was
 at first side-tracked from Clinton until I tossed it "inside" the W

 through alternative routes to the one Rockefeller & Jones opened.
 (Mine went "higher/deeper/faster" and beat theirs to the Oval Office
 gatekeepers in 1994, although Clinton later collaborated with Rockefeller

during the Prez's vacation at Laurance's JY Ranch in Jackson Hole,
 in
 August of 1994. Things UFO-wise then proceeded apace, with various
 and shape-shifts involving Greer and those remaining behind after I
 figured
 out part of the scam and "bailed out" of it.)

Back to Carter and the "retail UFOlogy" cover-up. My premise, based
 my
 study of the document flow and political activity associated with "Disclosure," is that a classic Hegelian political dialogue is being
 by a "UFO Secrecy Group," to coin a phrase devoid of conspiratorial
 Why not? It's employed in various of political and counterintelligence

 Robertson Committee of 1953) exists that policy decisions were taken
 to disinform the public about "UFOs," regardless of whatever they are.
 I've
 generally ignored the details of "what they are," looking at UFO "phenomena"
 Did Carter, once "read in" to what he was led to believe was "UFO research"
 later on and after his presidency somehow facilitate more of the "Global
 Mind
 Change" to proceed on his turf (we can't escape noticing that a rather
 prominent "UFO guy" of contemporary time, Dr. Courtney Brown at Emory
 University, did a stint at Carter Center doing some "social engineering
 R&D
 before emerging as a proponent of "remote viewing" and the "revelation
 of
 Martian colonies now living underground).

What was Clinton's personal psychological reaction to what he was told
 by
 Reagan's?
 Was Reagan's (and Gorbachev's) uncharacteristically atavistic "zero-sum
 game"
 after a Reykjavik private session (which reportedly "blew away" the
 of
 both leaders) a product of Reagan's "magical thinking" and a sustained
 effort
 to mind-fuck Gorbachev by a cadre of New Age science and "consciousness
 explorers" out of Esalen, all with Rockefeller funding and "anti-Soviet
 credentials" (another Hegelian-managed schtick), part of the 1984 "Soviet
 controversy" fueled (coincidentally?) by the MJ-12 "leaks?"

Again, the same "players" on both sides of what I call "retail UFOlogy"

showed up.

So, tracking the ups and downs of political UFOlogy, roughly using graph of UFO "flaps" and their supposed purpose of influencing social evolution and policy, we find the same cast of characters running through all 50+ years of modern UFO lore and activity. Rockefellerian/Kissinger influence throughout, from the git-go, and demonstrable linkage of II aviation futurists and American "Masonry."

Not being a dyed-in-the-wool-pulled-over-the-eyes "Illuminati conspiracy" but with no prejudice against those who assert such claims being more right than wrong, I'm mildly interested in what the old farts who hatched the scheme were thinking. I am also aware of their contexts, what with Paperclip, the space race and real threats to Europe and the free world by Stalin and emergent Soviet bloc hegemony.

Certainly, Colonel Hennessey's mandate to keep "stealth" technology wraps, and his successes at doing this for so many years, has also played a key role in the "retail UFOlogy" situation, particularly as various presidents were briefed about it, a very easy way to side-track precuriosities about the kinds of stuff Carter believed he saw. Indeed is the track CIA took in 1995, when using the N. Y. Times as a vehicle "disclose" that "It was us!" I know more about how the story came together and why, but in this context it's just "inside baseball" minutiae.

What you left out of Sheehan's narrative is the part he told the Massachusetts press event involved the Vatican Library, which Danny said just "shut out Jesuits inquiry and requests to see materials the Holy See may have "UFO" phenomenologies. If that is an honest recollection by Sheehan perhaps the most important of all, in terms of the deepest concerns the Keepers of UFO Secrecy and "theo-politics."

Hal,

False. I have no knowledge of a Carter UFO briefing. The only thing I can think of is that this "idea" grows out of the fact that I designed a strategy that resulted in meetings with Jack Gibbons, Carter's Science Advisor. Rockefeller met with Jack on at least two occasions, and then, according to stories I have heard, met with Carter out in Wyoming.

He seems to be confusing Carter and Clinton. Hopefully he understood the question.

Antonio Huneus tells a different story on the Clinton briefing. He sat across the room from Marie Galbraith for many months rewriting the "Rockefeller Report." He has maintained to me twice that Marie told him Bill Clinton did not meet with Rockefeller. Only Hillary was present for the August 1995 meeting at the Rockefeller ranch.

I got a question to Pandolfi for clarification. He said he wasn't involved and couldn't say. Greer (who was semi-involved according to one document in the OSTP documents) said Bill Clinton did meet.

I was cut out of the process I designed after Dick Farley, one of my employees, freaked out and tried to derail the meetings. They went on without me.

I asked Farley whether he had ever heard Scott Jones talking about a Carter briefing and he did not reply.

FULL TEXT OF PROJECT AQUARIUS

FULL TEXT OF "EXECUTIVE BRIEFING: PROJECT AQUARIUS"

[ORTK Editor's Note: The following transcript of an alleged MJ-12 briefing provided to then President Jimmy Carter has been provided by researcher Lee Graham, a recipient of the document. Graham states that he received the document on June 13, 1991 from researcher William Moore, with the permission of a Defense Intelligence Agency official code-named "Falcon," a member of the "aviary." These notes were allegedly used by a lone MJ-12 briefing officer to provide an oral briefing to President Carter at the White House on June 14, 1977. We(ORTK) are republishing the contents of this document based on letters to Mr. Graham from the Department of Energy and the Air Force Operations Test and Command informing him that the document is "not classified" (and apparently genuine), except for the cover page, which contains a still-classified symbol (see the cover page preceding the transcript). Readers should understand that the authenticity of this document remains in question and should draw their own conclusions on reading the text below. Explanatory notes are included in parentheses and in bold print.]

[Robert Collins' Notes 08-12-96: From all the checking that this side has done the "Carter document" in question is not a legitimately classified government document. But, from government intelligence sources it is a "reconstruction" of a briefing given to then President Carter on 77/06/14. The briefing was "reconstructed" from a number of independent sources who attended it. By these sources sitting down together they were able to pool their notes written down after the briefing and come up with the "reconstruction" shown here. That's why on the originals some of the page numbers were "penned" in: The reader is cautioned that some of the information may be false: Some of it may be disinformation/misinformation and that one should read this with an open mind towards skepticism. One may notice grammar or spelling errors. This I understand was a way of tracking the document: The reader should also be able to notice this in the "MJ-12 documents" as well. Recent source information however has stated that from their review of the "Carter document" that it appears essentially correct.

The White House record on that date indicates that President Carter met with his National Security Adviser Dr Brzezinski. The name "Project Aquarius" is also the same name associated with another "Aquarius" at the National Security Agency or NSA. But, reportedly this Top Secret "Aquarius" has to do with Advanced Communications Theory/Systems and not UFOs. But, NSA was quoted in a letter back on January 27th, 1987 that they knew of an Air Force program named "Aquarius" that had been connected with UFOs. [end notes]

(TS/ORCON) (PROWORD: DANCE) Contains 16 volumes of documented information collected from the beginning of the United States Investigation of Unidentified Flying Objects (UFOs) and Identified Alien Crafts (IAC). The Project was originally established in 1953, by order of President Eisenhower, under control of NSC and MJ12. In 1966, the Project's name was changed from Project Gleem to Project Aquarius. The Project was funded by CIA confidential funds (non-appropriated). The Project was originally classified SECRET but was upgraded to its present classification in Dec. 1969 after Project Blue Book closed. The purpose of Project Aquarius was to collect all scientific, technological, medical, and intelligence information from UFO/IAC sightings, and contacts with Alien life forms. This orderly file of collected information has been used to advanced the United States Space Program.

(TS/ORCON) The proceeding briefing is an historical account of the United States Government's investigation of Aerial Phenomenas, Recovered Alien Aircrafts, and Contacts with Extraterrestrial Life Forms.

Page 2 of 9 reads:

(TS/ORCON) In June 1947, a civilian pilot flying over the Cascade mountains of Washington State observed nine flying discs (later referred to as UFOs). The Commander, Air Force Technical Intelligence Center of the then Army Air Forces became concerned and ordered an inquiry. This was the beginning of the United States involvement with the UFO investigations. In 1947, an aircraft of extraterrestrial origin crashed in the desert of New Mexico. The craft was recovered by the military, four Alien (non-homo-sapiens) bodies were recovered in the wreckage. The Aliens were found to be creatures not related to human beings (Atch 1). (Editor's note: None of the referenced attachments were included in the information Lee Graham received.)

In late 1949, another Alien aircraft crashed in the United States and was recovered partially intact by the military. One

Alien of extraterrestrial origin survived the crash. The surviving Alien was male and called itself "EBE". The Alien was thoroughly interrogated by military intelligence personnel at a base in New Mexico. The Alien's language was translated by means of picture graphs. It was learned the Alien came from a planet in the Zeta [sic] Reticuli star system, approximately 40 light years from Earth. EBE lived until June 18, 1952, when he died [sic] to an unexplained illness. During the time period EBE was alive, he provided valuable information regarding space technology, origins of the Universe, and exobiological matters. Further data is contained in Atch 2.

Page 3 of 9 reads:

(TS/ORCON) The recovery of Alien aircrafts led the United States on an extensive investigation program to determine whether these Aliens posed a direct threat to our national security. In 1947, the newly created Air Force initiated a program to investigate incidents involving UFOs. The program was operated under three different code names: Grudge, Sign, and finally Blue Book. The original mission of the Air Force program was to collect and analyze all reported sightings or incidents involving UFOs and determine whether the information could be [sic] interrupted as having any bearing on the security of the United States. Some information was evaluated with the idea of using the gained data to advance our own space technology and future space programs. Ninety percent of the estimated 12,000 reports analyzed by the Air Force were considered hoaxes, explained aerial phenomena's, or natural astronomical objects. The other 10 percent were considered legitimate Alien sightings and/or incidents. However, not all UFO sightings or incidents were reported under the Air Force program. In 1953, Project Gleem was initiated by order of President Eisenhower, who believed the UFOs presented a threat to the national security of the United States. Project Gleem, which became Project Aquarius in 1966, was a parallel reporting system for UFO sightings and incidents. Reports collected under Project Aquarius were considered actual sightings of Alien aircrafts or contacts with Alien life forms. Most reports were made by reliable military and Defense Department civilian personnel.

Page 4 of 9 reads:

(TS/ORCON) In 1958, the United States recovered a third Alien aircraft from the desert of Utah. The aircraft was in excellent flying condition. The aircraft was apparently abandoned by the Aliens for some unexplained reason, since no Alien life forms were found in or around the aircraft. The aircraft was considered a technological marvel by United States scientists. However, the operating instrumentations of the aircraft were so complex that our scientists could not interrupt their operation. The aircraft was stored in a top security area and analyzed throughout the years by our best aerospace scientists. The United States gained a large volume of technological data from the recovered Alien aircraft. A detailed description and further information regarding the aircraft is explained in Atch 3.

Page 5 of 9 reads:

(TS/ORCON) Several independent scientific investigations, at the request of the Air Force and CIA, were initiated during the era of Project Blue Book. MJ12 decided that officially, the Air Force should end their investigation of UFOs. This decision was arrived at during the [unreadable] meeting (Atch 4) in 1966. The reason was twofold. First, the United States had established communication with the Aliens. The United States felt relatively sure the Aliens' exploration of Earth was non-aggressive and non-hostile. It was also established that the Aliens' presence did not directly threaten the security of the United States. Secondly, the public was beginning to believe that UFOs were real. The NSC felt this public feeling could lead to nationwide panic. The United States was involved in several sensitive projects during this time period. It was felt that public awareness of these projects would have jeopardized the future space program of the United States. Therefore, MJ12 decided that an independent scientific study of the UFO phenomena would be needed to satisfy public curiosity. The study concluded that sufficient data did not exist that would indicate UFOs threatened the security of the United States. The final conclusion satisfied the government and allowed the Air Force to officially step out of the UFO investigating business.

Page 6 of 9 reads:

(TS/ORCON) When the Air Force officially closed Project Blue Book in Dec. 1969, Project Aquarius continued operation under control of NSC/MJ12. The NSC felt investigations of UFO sightings and incidents had to continue in secrecy without any public knowledge. The reasoning behind the decision was this: If the Air Force continued its investigation of UFOs, eventually some uncleared and unbriefed Air Force or Defense Department civilian officials would obtain the facts behind Project Aquarius. Obviously (for operational security reasons) this could not be allowed. In order to continue the investigation of UFO sightings and incidents in secrecy, investigators from CIA/DCD [Editor's Note: One source indicated that DCD possibly refers to a domestic collection function within CIA, illegal under law.] and MJ12 were assigned to military and other governmental agencies with orders to investigate all legitimate UFO/IAC sightings and incidents. These agents are presently operating at various locations throughout the United States and Canada. All reports are filtered either directly or indirectly to MJ12. These agents are collecting reports of UFO/IAC sightings and incidents occurring on or near sensitive governmental installations. [Rmc's note: AFOSI was also very deeply involved in this collection activity.]

NOTE: Aliens have been extremely interested in our nuclear weapons and nuclear research. Many reported military sightings and incidents occur over nuclear weapons bases. The Alien's interest in our nuclear weapons can only be attributed to the future threat of a nuclear war on Earth. The Air Force have initiated measures to insure the security of the nuclear weapons from Alien theft or destruction. MJ12 feels confident the Aliens are on an exploration of our solar system for peaceful purposes. However, we must continue to observe and track the Aliens' movements until it is determined that the Aliens' future plans contain no threat to our national security or the civilization of Earth.

Page 7 of 9 reads:

(TS/ORCON) Most governmental documents pertaining to UFO sightings, incidents and governmental policies, including Project Blue Book, have been released to the public under FOIA or under various other release programs. MJ12 felt the remaining documents and information (not related to Project Aquarius) relating to technological facts regarding Aliens' medical matters, the fact that an Alien was captured alive and survived for three years, can not be released to the public for fear the information would be obtained by SHIS [Editor's note: This may be a reference to hostile foreign intelligence services.] There was other information obtained from EBE that was deemed sensitive and not releasable to the public. Notably, Project Aquarius Volume IX, which pertains to tracing the Aliens' first visitation of Earth back some 5,000 years. EBE reported that 2,000 years ago his ancestors planted a human creature on Earth to assist the inhabitants of Earth in developing a civilization. This information was only vague and the exact identity or background information on this homo-sapien was not obtained. [Sic] Undoubtedly, if this information was released to the public, it would cause a worldwide religious panic. MJ3 [Editor's note: Apparently a reference to a designated member of MJ12.] has developed a plan that will allow release of Project Aquarius, Volumes I thru III. The release program calls for a gradual release of information over a period of time in order to condition the public for future disclosures. Atch 5 of this briefing contains certain guidelines for future public releases.

Page 8 of 9 reads:

(TS/ORCON) In the 1976 MJ3 report (Atch 6), it was estimated the Aliens' technology was many thousands of years ahead of United States technology. Our scientists speculate that until our technology develops to a level equal to the Aliens, we cannot understand the large volume of scientific information the United States has already gained from the Aliens. This advancement of United States technology may take many hundreds of years.

SUB PROJECTS UNDER PROJECT AQUARIUS

1. (TS/ORCON) PROJECT BANDO: (PROWORD: RISK) Originally established in 1949. Its mission was to collect and evaluate medical information from the surviving Alien creature and the recovered Alien bodies. This Project medically examined EBE and provided United States medical researchers with certain answers to the evolution theory. (OPR: CIA) (Terminated in 1974)
2. (TS/ORCON) PROJECT SIGMA: (PROWORD: MIDNIGHT) Originally established as part of Project Gleem in 1954. Became a separate project in 1976. Its mission was to establish communication with Aliens. This Project met with positive success, when in 1959, the United States established primitive communications with the Aliens. On April 25, 1964, a USAF intelligence officer met two Aliens at a prearranged location in the desert of New Mexico [Editor's note: This apparently refers to the Holloman AFB landing.]

[Rmc's note: The exact date was April 24th, 1964 at a test site. Holloman was another incident.]

The contact lasted for approximately three hours. Based on the Alien's language given to us by EBE, the Air Force officer managed to exchange basic information with the two Aliens (Atch 7). This project is continuing at an Air Force base in New Mexico. (OPR: MJ12/NSA).

3. (TS/ORCON) PROJECT SNOWBIRD: (PROWORD: CETUS) Originally established in 1972. Its mission was to test fly a recovered alien aircraft. This project is continuing in Nevada. (OPR: USAF/NSA/CIA/MJ12)
4. (TS/ORCON) PROJECT POUNCE: (PROWORD: DIXIE) Originally established in 1968. Its mission was to evaluate all UFO/IAC information pertaining to space technology. PROJECT POUNCE continues. (OPR: NASA/USAF)

These reports do not mention the 2 to 6 alien races that may be in our solar system, nor do they mention that 7 to 8 percent of the unsolved govt UFO cases may be related to those alien races. I do not think these reports will do you any good. I don't see any need to send them. Hope you are better luck with other sources — Rhiannon

Rhiannon

This is encouraging, although she may be sending the unclassified reports from other dates. The dates of the reports will be a key as Sheehan points to mid 1975 for the reports.

Then there are the unanswered questions about the George Bush story, and giving Sheehan access to the classified Blue Book files.

Have a question about Briefing for President Elect Jimmy Carter on your CD.

Is it a majestic document, or does it come from the same group that provided the President Carter MJ-12 briefing?

Hal,

You certainly can tell others, but I have very little expectation that it will make any difference, and zero expectation that it will die. The truth is not appetizing to some and not filling to many.

Thanks,

Should I tell this to others who came up with the story, or just let it die?

From Art Bell show May 9, 1997 I have attached a clip about the Carter "tears" - a story I have heard many times. A top radio host from Kansas City was supposedly also told this story, but he did not reply to my query.

Also in connection to this story as item from the February 26, 2001 Filer's Files #9.

PRESIDENT CARTER'S EYES TEAR OVER UFOs

Art Greenfield writes, "In your Filer's Files # 7 on 2/13/01 is the report of the call to Larry King's show where Shirley MacLaine was asked about what President Carter had told her about UFOs? I was that caller." The story of this is in my soon to be printed book. Additionally, when I first called in to the show and told the call screener what I was going to ask Shirley, the screener said: "Larry is going to love this!!!" I followed up with a letter to President Carter himself, asking him to reveal what he knew to the public, but I have not had a response. A year or so later when President Carter was a guest on the Larry King Show, I called in and told the call screener I wanted to ask the President what he had told Shirley MacLaine about the government knowing about aliens and recovered UFOs was true? The screener said that President Carter had told them he would only answer questions about his new book. But that was not the end of the story. Just a few months before Art Bell retired, he read a news wire item at the beginning of his show. Art said that former President Jimmy Carter had been at a book store in Oregon for a book signing on his new book. A man in line to get his book autographed asked President Carter about his campaign promise that if elected, he would look into what the government knew about UFOs and aliens. Art Bell said, "President Carter just looked at the man and did not answer in words. "Tears sprang from his eyes." Thanks to Art Greenfield Cocoa, FL 32926

The 2-13-01 Filer's Files story is as follows

PRESIDENT CARTER TELLS SHIRLEY MACLAINE ABOUT UFOs

Donald Ratsch writes, according to a Larry King Show, Shirley MacLaine revealed that former President Carter told her about UFO crashes and alien bodies. The transcript of this exchange started with a caller from Cocoa, Florida. Larry King says, "Cocoa Florida with Shirley MacLaine, hello. Caller responds, "Hello, Good evening Larry and Shirley, About two weeks ago, Nicholas Cage was on the Letterman Show and said Shirley had told him that President Carter had told her he had seen recovered alien spacecraft and aliens in a hanger. Can you tell me exactly what President Carter said?" Shirley MacLaine replied, "He didn't tell me that, but he told me many times that when I first wrote "Out On A Limb" that he would support me, that it was true, that there were crafts, that he believed there were occupants, why should we be the only people in the universe. He wanted to shine the sunshine laws on intelligence, to expose it, to see how the people would react, but he didn't and wouldn't and couldn't as he explained to me." King: back with our remaining moments with Shirley MacLaine right after this. (Larry King Show, May 1995)

June 14, 1977 was also the date that Jay Cochran, Jr., Assistant Director, FBI, Technical Services Division was contacted by Stanley Schneider of the Office of Science and Technology at the White House and asked about the FBI's procedures for handling UFO data. The question had been brought up by Jody Powell of the President's staff. The response was that a UFO report would be forwarded to USAF without any action taken by the FBI. Nick Redfern.

Well, if you look at the reported Carter Mj12 briefing it's about 80% + accurate since it was reconstructed by certain people after their briefing along with Carter's. Carter was given that

briefing in June of 1978 and that date is also on the front cover of the briefing: Glad to see Jimmy is coming clean with somebody and it's about time if the Shirley MacLaine's reports are true ??

Have you heard anything that would add to this story?

I wrote MacLaine when I first heard the story many moons ago, but she did not reply.

I almost got to question Carter when he was on the Diane

Rehm show (Washington radio) a couple weeks back, but

someone pulled the plug on my question five minutes after

the producer put me in line to ask it. Larry King's producer,

the night before, told me they already had a UFO question.

Carter has made a couple post presidential statements. What do

your sources say about Carter?
