Dear Hank:

Thank you so much for the encouraging comments about my brief to the Senate. I only hope the Senators feel the same way about it and propose some positive action in their report when they eventually get it out.

I am puzzled by your remark about Robert Stanbury as "the man involved who will be responsible to make such an announcement". As I understand it, he is now a minister without portfolio. What particular advantage does this give him, in so far as UFOs are concerned? Or does he have some specific responsibility of which I am unaware? (Besides being your MP).

Thanks also for the article from MALE magazine. Is it for me to keep?

Regarding the idea of renting a hall for a public airing of views on UFOs, I think this is a good idea. Whether I could make it there or not depends on several factors, primarily the date. Let me state at the moment though, that I would be quite agreeable to coming up to participate in this event. Whether I can in fact get there or not, I cannot guarantee at the moment. But I would be pleased to take part, if it is possible to do so, and I thank you for wanting to include me.

I, too, use the pick and peck method of typing, so please excuse also.

Sincerely,

Art Bray
