Bush/UFO Disclosure Request: SUPPORT

Below are just a few of the emails of support received in support of the Bush/UFO Disclosure Request:

Ron Eastwood:

My name is Ron Eastwood. I am 60 years of age. I marched in many of the Civil Rights protests of the 60's. I have slept in open cow pastures during the March on the Alabama State House in Montgomery from Selma along side men like Bishop James Pike of the Episcopal Church, the Berrigan Brothers, et.al. I served as personal chauffeur and body guard to the children and wife of slain Nobel Prize winner Dr. Martin Luther King, Jr. immediately following his murder. I spent time in the Kern County Jail in central California with the world renowned pacifist and United Farm Workers union organizer Caesar Chavez where we removed all our clothing, went on a mass hunger strike, and literally embarrassed the authorities to release us and drop the fraudulent charges for our non-violent demonstrations against the immoral and illegal treatment of migrant laborers in the grape vineyards of Kern and Tulare Counties.

It appears it may again be time to take up passive, non-violent, civil protest to shake the sleeping masses and the ignorant and dishonest politicians out of their collective lethargy and make them demand accountability of the military and other special secretive agencies and individuals whom have possession of knowledge which they either refuse to share or are prevented from sharing with the rest of humanity.

My own congestive heart failure, obesity, diabetes and high blood pressure prevent me from taking the drastic measures you have chosen (namely hunger strike) but be assured I shall make my ability to write a sword of words to rattle the cages of as many of our recalcitrant and cowardly public servants as possible on this cause for total public disclosure. With your permission may I send a copy of this message to my local news media and government officials along with the attached copy of the notice which informed me of your awesome undertaking?

In Peace,

Ron Eastwood

Dear Bravehrt - I was made aware of your "stance" and subsequent strike for the disclosure of UFO and all that that acronym entails.....by Mr. Larry Bryant... Best wishes for your success and I admire your sacrifice and perseverance in this most important pursuit.

Thank you!

While I don't believe in self immolation, some of the spirit of the 60s (rubbing off) would do well to get people off their butts (some of which I believe are attached to their necks). Our words and "evidence" have not produced the necessary results. We need to do more. Actions often speak louder than the words that have been, fruitlessly, hitting the government's stone-wall tactics and lack of disclosure.

While your efforts and others in the UFO community have been noble and tireless, it appears that more must be done to obtain the desired results: full disclosure. As in all humanitarian efforts, the question then becomes "what are we willing to risk" to elicit the truth?

Response to Beverly Sheintag from Mr. Bryant

ONCE again, Madam, your words have warmed my heart. I certainly do applaud hunger-striker Johnstone's grit and chutzpah..... Too bad it wasn't she (instead of Kevin Randle and Karl Pflock) who appeared on the NBC "Today" show the other morning.....

As an old semi-street warrior myself (having taken part in the anti-UFO-secrecy demonstrations that the now-defunct Operation Right to Know mounted some years ago at the White House, the Washington Post building, the Pentagon (there only indirectly, since I was still employed there), and the GAO building in Washington), I get a vicarious thrill knowing that a young woman has taken this bold lead in a renewed knock on officialdom's UFOdoor. -- OO

From: "Price and Shawwna"

What a brave lady! I wish her well. To tell the truth though, I am concerned for her. I think she should get something to eat because I don't think the Bush administration could care less if she dies or not. I am ready for some change, but maybe a hunger strike isn't the best way. Good luck. Roland

Mr. Lehmberg comment to another posting:

"Dubya" Bush, our arguable President, looked her in the face and lied to her, in her estimation, and she's _pissed_ about it, just like _you_ should be. Man, if I didn't absolutely _know_ that my German wife would have me committed to an institution, I would _join_ with her in her hunger strike, and otherwise try to add a little fuel to her fire!

I just read about you and forwarded the email to about 3,000 people on all my UFO & govt. conspiracy etc. email lists.

What else can we do to help you ?

Keep up the good work and keep us advised of your progress and what we can do to help, If you have an email list please put my name on it and I will forward all your future communications to a few thousand people.

Lara Johnstone

Just over 25 years ago, American forces left Vietnam for the last time. Part of the reason for the withdrawal was the advancing North Vietnamese forces advancing on the South Vietnamese capitol. The main reason for the withdrawal, however, was that the American people had turned on the idea of the war, and wanted it ended. Demonstrations in the streets of America, and acts of civil disobedience, had made the idea of continuing the war intolerable.

In a country that believes it is "Government of the people, by the people," it now appears that some people have begun to rise up on the UFO issue. These people believe that like the Vietnam war it is not a strong scientific or logical argument that will turn the tide. They believe that, like Vietnam, the issue is political in nature and political pressure is the main weapon for turning the tide.

One such woman who has taken a stand on the UFO issue is a 35 year old woman from Oakland California.

The story began on July 22, 2001, when Dr. Steven Greer arrived in San Francisco to make a presentation of his traveling Disclosure Project. The event was held at the huge Masonic Auditorium. Among the 2,000 people in the audience was a woman by the name of Lara Johnstone.

Lara was a bit skeptical of the whole extraterrestrial thing. She had no background in Ufology. She had never had a sighting. A friend sent her an e-mail about the local Disclosure Event. Lara visited the Disclosure web site on the Internet. After reading the objective she decided to attend. "I never before really 'believed' Lara wrote to President George Bush, "in 'verifiable evidence' of extraterrestrial visits." The Disclosure event turned out to be a "reality check" for Laura.

During the event the two hour Disclosure Testimony Tape was shown. This tape produced by the Disclosure project [www.disclosureproject.org] was highlights of over 100 hours of testimony that had been collected from interviews with dozens of U.S. Government, industrial, and military witnesses to UFO and

extraterrestrial events and secret 'black-ops' projects.

Following the presentation of the video- tape there was a presentation by Disclosure director Dr. Steven M. Greer and local San Francisco Project witnesses Carol Rosin (spokesperson for Dr. Werner Von Braun) and Daniel Sheehan (legal counsel for the Disclosure Project).

The Disclosure Testimony video was a collection of testimony clips from military and government people talking about the reality of the UFO situation. It was made up of two hours of the 100+ hours of testimony with key witnesses that the Disclosure Project had on file. The testimony that Lara witnessed that evening was more than she could take. She purchased the Disclosure book that Greer was selling at the event, which gave testimony from yet more witnesses telling the true story of what had happened regarding UFOs since 1947.

Lara decided action was necessary. She chose a form of protest that she was familiar with - a hunger strike. In late 2000 Lara had used this protest method successfully against the state of California. In an E-mail to Charles Huffer, Lara described her first hunger strike protest.

I went on a hunger strike was against the CA Department of Corrections and Gov. Gray Davis. After 25 days, they bowed, admitted -- in writing -- what I had alleged, and what they had 'said', but not in writing. Before the press conference, the dept head of all of CA's prisons, came up to me and went ballistic. He started screaming 'who do you think you are' 'how dare you' and on and on! He did not like being called up by the South African media, asked to answer very difficult questions regarding how he runs his prisons!

Following the disclosure event, Lara quickly researched the UFO subject in preparation for sending a letter to President Bush on the subject. As a part of this effort she contacted Charles Huffer, an Arkansas UFO researcher, who on July 28, 2000, had the opportunity to question President elect Bush while he was on the campaign trail for President.

During this encounter Huffer asked Bush "Half the public believes that UFOs are real." Would you finally tell us what the hell is going on? " Bush replied, " "Sure I will."

A few minutes later Huffer ran into Bush again and the

president-elect stated, " It will be the first thing that he will do." (He pointed at Dick Cheney who was just walking up) "He'll get right on it."

Lara used the Huffer encounter with Bush to time the beginning of her hunger strike. The hunger strike would begin exactly one year to the day Bush promised he would work to tell the people about UFOs. She wrote in her July 26, 2001 letter of protest to President Bush.

One year later, on 28 July 2001, you are now the President and I again ask you "are you willing to finally tell the American people and the whole world, the truth about unidentified flying objects?" Hundreds of high level US government officials are standing courageous and willing to tell the truth, which can change our world. Will you give them the opportunity. Can we begin healing our world? Can we end this endeavor of greed, corruption, fear and destruction? Can we find a way to take a stand, step by step? If we continue this way, we'll only end up where we are going. It doesn't have to be this way. We have a choice.

As a South African, Lara Johnstone also addressed her letter of protest to President Thabo Mbeki of South Africa, as well as President George Bush. She outlined her request,

President Bush and President Mbeki, I am writing to share with you and all the other leaders around the world my extreme concern. My concern is so great, that I have decided to go on a hunger strike, starting July 28, 2001, to death if need be, in order to express my humble request. My request is that the U.S. and other governments: 1. Hold open, comprehensive, secrecy-free hearings to take military/agency witness testimony on events and evidence relating to an Extraterrestrial presence on and around Earth. 2. To hold open hearings on advanced energy and propulsion systems, relating to extraterrestrial phenomena that, when publicly released, will provide solutions to global environmental challenges. 3. To enact legislation which will ban all space-based weapons, and to enact and implement international treaties and legal standards prohibiting the weaponization of space. 4. To enact comprehensive legislation to research, develop and explore space peacefully and cooperatively with all cultures on Earth and in space.

In an interview with Lara Johnstone, I asked her about her plans for the hunger strike. She stated, "I'm on my way to D.C. I was

going to do a bus trip across the country. I am hoping to be in Washington by the 28th of August which would make the hunger strike at one month, but I'm flexible on that. I have this feeling that I must not plan to much - that things are going to work right. Things are going to happen, and I should just be open and trusting. . . It started on the 28th of July to August 28th will be a month, and then interestingly enough the 28th of September will be two months and that is the start of the anti-globalization demonstrations."

Lara has received the expected reactions from people to her hunger strike. Some have said that she is "totally nuts." One person told her, "You don't want to just take on the whole world - now you want to save the aliens too." To this Lara responded, "I said it's not about that. It's about all of us knowing what's going on. Are we just here to buy buy buy being little consumers, or are we here for a bigger purpose? To grow and to love. For me it's about the truth. With the secrecy we're spreading more fear, and more fear, and it's separation."

Lara is preparing a web site where people can access the letters she has sent out, and stay updated on what responses she has received. She is preparing a letter for all members of Congress, and is sending out letters to names she received of people inside the UFO community who might be able to help her.

Robert H. Williams, a man who lost his job at Clinton Community College in Plattsburgh, New York, for his UFO beliefs, has been kind enough to help Lara in her time of need. On his personal web site, Robert is hosting a section with copies of all the initial correspondence between Lara and Charles Huffer, and the letter to the President. To view this material go to Mr. Williams home page, and then to the section on "WHO."

<http://members.tripod.com/rhw007/>

As President George Bush vacations on his Texas ranch, Lara is in the process of writing her second letter to him. There has been no word from the White House, and no major backing by the UFO or Disclosure Movement community. Then again, it is still early in the hunger strike, Day 10 as this is being written. Lara is still confident. As Lara says, "We'll see what happens."

Grant -

Of course I remember you very well indeed. I left UND in 1994 and we left

Grand Forks and came here to Pocatello, Idaho in 1997. I did a legal name change in '95 to John Hunter Gray -- known essentially as Hunter Gray.

On your friend: I'm not usually in favor of hunger strikes -- except in certain kinds of jail or prison situations or other rather limited things --

where there is good chance of broad public sympathy and gains are fairly quickly attainable. In this situation, I don't see a hunger strike as viable. She is needed out on the field -- healthy, vigorous, fighting.

The UFO thing is, at the moment, in kind of a nadir (temporary, I'm sure) and a

hunger strike to break the decades old government cover-up isn't going to be

seen by the public as rational. I certainly don't see it winning. I see where she is coming from and so do you. I very much like your article.

But I really believe she's needed in other tactical approaches -- and, as I say,

in well-fed, vigorous, and healthy shape. At least, she should not go on into a serious medical condition.

Why don't you forward this to her? If she'd like, she could certainly get back to me and I'll get right back to her.

Take care, Grant, and best to your family. Your son must be pretty big by now. Let's keep in touch by all means.

All best - Hunter [or John, or whatever -- anything] www.hunterbear.org

Report on the San Francisco Disclosure Project Public Presentation's After-Events - Richard Boylan, Ph.D. I attended the Disclosure Project VIP Reception at Henry Dakin's company (Dakin's Toys) headquarters in San Francisco Sunday night (July 22), after the SF Disclosure Project Presentation at the huge Masonic Auditorium, attended by 2000 people. In attendance were perhaps fifty people, including Mr. Dakin (of Dakin's toys), Dr. Greer, Witnesses Carol Rosin, John, the emcee of the Disclosure Tape, and a couple of other ex-mil/intel Witnesses. Also present was journalist Leslie Kean, a Bay Area reporter who authored that wonderful U.S. wire service report on the French paragovernmental COMETA Report on UFO reality. She is a lovely, lively person, and is buddies with the amazingly incisive, energetic Carol Rosin, with whom I discussed ET matters at length. Also present was noted UFO aficionado/skeptic Jacques Vallee, lately in the employ of the Cabalista NIDS organization, fronted by a Las Vegas billionaire. I scrutinized Vallee very closely while Dr. Greer was talking about the bold, direct-action steps that Dr. Greer, Iron-Contra expose attorney Daniel Sheehan, and other members of the Disclosure Project are prepared to take. It seemed to me that Vallee blanched various times and was sternly serious as the Disclosure Project activists ticked off their plans to topple the UFO Cover-Up. I wonder what kind of report he will take back to Bob Bigelow about the Disclosure Project's End Game. Dr. Greer made a lengthy presentation, with a few remarks by the other Witnesses. Dr. Greer said that there were 2000 people in attendance at Masonic Auditorium for the afternoon presentation. He moved those present with his tolling of all the efforts and risks which went into this Movement. The Project plans various additional initiatives, in addition to the traveling Disclosure Project Witness Presentations. Those additional initiatives include a lawsuit against the government invoking anti-racketeering RICO statutes for indicting the conspiratorial, terroristic Cover-Up, and even a mass demonstration/march on Washington with civil disobedience to force Congress/White House to end the phoney secrecy. I can hardly wait. It reminds me of my marchin' days in the Sixties, and standing up to illegitimate government forces trying to maintain an illegal, unconstitutional status quo. I shouldn't have thrown away my old tear-gas mask. It might still come in handy one of these days soon. We SHALL overcome. Richard Boylan, Ph.D. Richard J. Vietnam War - did ~~they~~ the U.S. pull out because someone came up with a logical scientific agreement why the Americans should pull out?

We may disagree with the radical Palestinians but there is no doubt that they are listened to by Bush/Cheney. They are not listened to because of any scientific logical agreement.

This ~~is~~ ^{action} moving down that road.

Hockey analogy - other side has been playing body contact since 1947

- we on the other hand have been trying to negotiate the other teams surrender before the game begins.

Dear Mr. Huffer,

I am writing to you regarding your exchange with Pres. Bush (reported on Rense.com) on July 28, 2000. Below is a letter I have written to Pres. Bush, re: the Disclosure Project, and your conversation. I would like to fax it tomorrow night. Could you please verify for me (if you don't mind) that I have your conversation correct. Also, would you mind if I put your name/contact number on the press release. I eagerly await your thoughts, suggestions/comments/criticisms regarding my letter.

I apologise for the 'rush', and would appreciate a response ASAP! ;-) Many thanks!
 Sincerely,

Lara Johnstone
 (510) 823-8109

If you wish to 'verify' who I am. Please feel free to call me, or alternatively, I have met the director of MUFON in Berkeley. He visits the pub where I work and we have had conversations about this subject. His name is Virgil Staff (510) 524 9446, and I work at the "Pub/Tobacco store" on Solano Ave, in Albany. He gave me his card and number, about two weeks ago.

As soon as I have your dialogue confirmed, I shall email you the final letter, and press release. Feel free to ask any questions, you have! ;-)

The President at the White House
1600 Pennsylvania Ave. NW
Washington, D.C. 20500

Dear Mr. President Bush

CC: President Thabo Mbeki
Various media and organizations.

President Bush and President Mbeki, I am writing to share with you a
all
the other leaders around the world my extreme concern. My concern is
great, that I have decided to go on a hunger strike, starting July 2
2001, to death if need be, in order to express my humble request.

My request is that the U.S and other governments:
1. Hold open, comprehensive, secrecy-free hearings to take
military/agency
witness testimony on events and evidence relating to an Extraterrest
presence on and around Earth.
2. To hold open hearings on advanced energy and propulsion systems,
relating to extraterrestrial phenomena that, when publicly released,
will
provide solutions to global environmental challenges.
3. To enact legislation which will ban all space-based weapons, and
enact and implement international treaties and legal standards
prohibiting
the weaponization of space.
4. To enact comprehensive legislation to research, develop and explo
space peacefully and cooperatively with all cultures on Earth and in
space.

President Bush -- to be honest -- I never before really 'believed' i
'verifiable evidence' of extraterrestrial visits (UFO's), but a few
ago I got my reality check.

I went to an event sponsored by the Disclosure Project
[www.disclosureproject.org], which began with an exclusive showing o
the
two hour Disclosure video of dozens of U.S. Government and military
witnesses to UFO and extraterrestrial events and secret 'black-ops'
projects. This was followed by a presentation by Disclosure director
Steven M. Greer and Project witnesses Dr. Carol Rosin and Daniel
Sheehan.

Dr. Greer, the founder and director of the Disclosure Project has me
with
and provided briefings on the ET/UFO subject for senior members of
government and for military and intelligence operations in the Unite
States and around the world, including senior CIA officials, Joint
Chiefs
of Staff, White House staff, senior members of Congress and
congressional
committees, senior United Nations leadership and diplomats, senior
military
officials in the UK and Europe. Dr. Greer and the Disclosure Project
have
been able to identify, contact, and videotape interviews with nearly
military, intelligence, and government witnesses to UFO events and
projects. These interviews and accompanying evidence are definitive
will establish the reality of the ET/UFO subject as well as the natu

and
purpose of the secrecy surrounding it.

I have to tell you, that before I entered that hall, I was to say -- mildly
skeptical.

The video started with Top Secret Testimony Involving Radar/Pilot Ca from former individuals serving in the FAA (John Callahan), US Air F (Sgt. Chuck Sorrells), US Navy (Cmd. Graham E. Bethune) and Air Traf Controllers (Enrique Kolbeck - Mexico Intl Airport), plus others. Th individuals reported how they had had numerous contacts with UFO's o radar, visual and video, and when reported -- the evidence was taken they were sworn to secrecy and told 'it never happened'.

It followed with Top Secret Testimony involving SAC/NUKE facilities individuals in the US Air Force (Capt. Robert Salas, Lt. Col Dwyne Arneson and Col. Ross Dedrickson), US Navy, National Security Agency, etc. T reported that many sightings of UFO's had been seen over US Nuclear facilities. The emphasized that the UFO's did not seem at all aggres rather their interpretations were that the UFO's were concerned about these facilities. They reported that the evidence they had produced on the UFO visits was taken, and they were told that 'it never happened'.

The book DISCLOSURE lists thirty-six Top Secret testimonies of Government Deep Insiders, detailing witnesses to UFO crashes, UFO shoot-downs, retrieval of live 'aliens', and much more.

DISCLOSURE contains numerous Top Secret documents from government's worldwide regarding UFO sightings. One top secret South African Air Force document from 1989, by the Department of Air Force Intelligence (DAF states how a UFO had been shot down by a South African Mirage Jet Fighter, and the UFO then crashed into the desert in Botswana. The recovery t arrested two small alien entities. Arrangements were made for the UF and the aliens to be transported to Wright Patterson AFB, Dayton Ohio, U The cargo was flown out in two Galaxy C2 Aircraft on the 23rd June 1989 accompanied by the American Air force personnel (pages 367 to 372).

DISCLOSURE also contains Top Secret Testimony regarding Technology/Science New Energy Solutions and Implications, such as: (i) Quantum vacuum/z point field energy access systems and related advances in electromagnetic theory and applications; (ii) Electrogravitic and magnetogravitic en and propulsion, (iii) Room temperature nuclear effects, (iv) electrochemical and related advances to internal combustion systems which achieve near zero emissions and very high frequency.

As Dr. Greer writes "The question is not whether these systems exist can be viable replacements for fossil fuels. The question is whether have the courage to allow such a transformation in world society to occur."

Dr. Greer continues: "Since these technologies do not require an expensive

revolution
in the world's economic and social order would result. These implications include:

(i) The removal of all sources of air pollution related to energy generation, including electric power plants, cars, trucks, aircraft manufacturing.

(ii) Trillions of dollars now spent on electric power generation, gas oil, coal, and nuclear power would be freed to be spent on more productive and environmentally neutral endeavours by both individuals and society as a whole.

(iii) Underdeveloped regions of the earth would be lifted out of poverty and into a high technology world in about a generation - but without associated infrastructure costs and environmental impact related to traditional energy generation and propulsion. Remote villages and towns would have the ability to generate energy for manufacturing, electrification, water purification etc., without purchasing fuels or building massive transmission lines and central power grids.

(iv) Near total recycling of resources and materials would be possible since the energy costs for doing so -- now the main obstacle -- would be brought down to a trivial level.

(v) The vast disparity between rich and poor nations would quickly disappear -- and with it much of the zero-sum-game mentality which is at the root of so much social, political, and international unrest. In a world of abundant and inexpensive energy, many of the pressures which have to do with a cycle of poverty, exploitation, resentment, and violence would be removed from the social dynamic. While ideological, cultural and religious differences would persist, the raw economic disparity and struggle would be removed from the equation fairly quickly. [Dr. Greer and many inside the list
many, many more incredible scientific advances that could benefit mankind]

Lest all of this sounds like a pipe dream, keep in mind that such technological advances are not only possible, but they already exist. What is lacking is the collective will, creativity and courage to see that they are applied wisely. "

A creative view of the future -- not fear and suppression of such technologies is required. And it is needed immediately. Seattle, Quebec and Genoa testify that the rest of the world's people are getting tired of having their resources robbed, while their debts, poverty, misery and mother earth's destruction escalates.

President Bush, I realize that these technologies can be used for American Profit and Hegemony over the world. As human beings on this planet - is our destiny to conquer others and make as much profits as we can at expense of our compassion, our generosity, our responsibility to ourselves,

our children, and all the animals and plants on this beautiful earth
We
have an opportunity to take a stand for honesty, for integrity, for
justice
and for peace. We can use these technologies to kill and be killed,
we
can put them to work to heal our planet and our souls.

President Bush, on 28 July 2000, as reported by CNN, ABC news and the
Washington Post, a man named Charles A. Huffer asked you if you were
elected President would you be willing to finally tell the American
people
the truth about unidentified flying objects, and you said "Sure I will"

Several minutes later, you again saw Mr. Huffer in the hall. Apparently
you
recognized him and unsolicited said approximately the following: "It
will
be the first thing he (pointing to Cheney) will do. He'll get right
it."
Mr. Huffer has this exchange on audio tape.

One year later, on 28 July 2001, you are now the President and I again
ask
you "are you willing to finally tell the American people and the whole
world, the truth about unidentified flying objects?" Hundreds of high
level
US government officials are standing courageous and willing to tell
truth, which can change our world. Will you give them the opportunity
Can
we begin healing our world? Can we end this endeavour of greed,
corruption,
fear and destruction? Can we find a way to take a stand, step by step
If
we continue this way, we'll only end up where we are going. It doesn't
have
to be this way. We have a choice.

The next 'globalization' anti-IMF/World Bank demonstration is in
Washington
DC, from September 28 to October 4. Imagine Mr. President, if you could
welcome all those hundreds of thousands, and begin the meeting with
Congressional hearings and start a new world. Imagine what a world we
could
create, if we but had the courage to try!

I eagerly await your response.

Sincerely,

Lara Johnstone

Dear Lara,

I just rechecked the Rense website:
<http://www.rense.com/general3/disclosure.htm>

I am now almost certain it was Mr. Cheney who said: "Yes Sir." in r

 of: "
 Gov. Bush or Mr. Cheney:", I would write: "Almost Certainly Mr. Che

 Yes Sir." That is the only change I would make to the Rense website
 Please do NOT attach my name to your fax.

There are certainly things worth dying for but I don't think what yo

 planning fits in those categories. Bush will never see your fax and
 press will most likely not report what you are going to do. At leas
 not on
 a national scale. It is a novel idea and, as far as I am aware, has
 been tried before. The great disadvantage is that you can only do i
 once!
 So I say: "Don't Do It!". Your energy could much better be used in
 organizing demonstrations demanding that Bush keep his campaign prom
 I
 would especially like to see these outside the White House and where
 Bush

 the only way that effective pressure can be brought to bear on our
 government.

a reply from his office that had NOTHING WHATSOEVER to do with the 1
I wrote. This in spite of the fact that my Congressman wrote a person
cover letter to the VP. Unfortunately, my Congressman will soon become he

several months.

Consider carefully what you are planning. I think it would be a sha
to lose you!

 Mr. Huffer.

I appreciate you for getting back to me, and I apologize I have already sent out the email. I did not know if you were going to write back or even if your email was still working.

Also, I just included what the details were from the Rense website, and considering it's a MAJOR NEWS site, and your name was also mentioned on the Washington Post site. I did not say anything about you that was not on either of those sites.

RE: The questions you raise:

1. There are certainly things worth dying for but I don't think what are planning fits in those categories. Bush will never see your fax and press will most likely not report what you are going to do.
 <<<<

Mr. Huffer. He may not see my fax, but President Mbeki will. I am So African, and South African media will! South African media will call white house -- especially after about 15 to 20 days, if not sooner!

2. I used to work for Ms. Peggy Noonan, the speechwriter for Pres. R I am sending her a copy too.

RE: 'worth dying for' -- I don't know if you pay attention to what e is

(i) God's Last Offer, from the World Watch Institute, gives us MAXIMUM FIVE years, to DO MASSIVE CHANGES in how we live, or it is beyond repair the planet. They share in detail (over 300 pages), about water aquifers up, etc. etc. And the CIA is already buying up water companies at a rate. Other military scientists in DISCLOSURE say that our times is -- they give us till the first quarter of 2004, or else we can kiss this planet good bye!

(ii) There is a serious financial meltdown, that the 'powers that be are attempting to avoid -- even to the point of fighting another Vietnam -- this time in Colombia. There are already 500 military contractors, p corporations there, and Bush attempted on the sly in the last approp bill to raise it to 200. Watch for your next Gulf of Tonkin. For more information -- you can visit <http://www.copvicia.com> You definitely will not read it in the New York Times, but over 11 Congressmen read that new

It is GROUNDBREAKING, and the next story Mr. Ruppert has is going to

WALL STREET!

(iii) The powers of anti-globalization are on the march and know that their time is short -- ecologically and we got to get our message heard. And it is being heard.

>>>>

At least not on a national scale.

<<<<

You may be right -- on a national scale. But that is what we have the internet for. And certainly in South Africa and around the world, it is being heard. You may not realize it, but we have a life and death fight on hands anyway. We can either go down fighting showing how important it is to us, or we can just wait and the end time will be over, before we even knew it was coming! ;-)

>>>>

It is a novel idea and, as far as I am aware, has never been tried before

The great disadvantage is that you can only do it once!

<<<<

Actually NO. This is my second time. The last time I went on a hunger strike was against the CA Department of Corrections and Gov. Gray Davis. After 25 days, they bowed, admitted -- in writing -- what I had alleged, and

they had 'said', but not in writing. Before the press conference, the
dept
head of all of CA's prisons, came up to me and went ballistic. He started
screaming 'who do you think you are' 'how dare you' and on and on! ;
He
did not like being called up by the South African media, asked to answer
very difficult questions regarding how he runs his prisons!

>>>>

So I say: "Don't Do It!".

<<<<

Fair enough. I understand, but I have thought long and hard about this
And
time is very, very short! Many many hundreds of thousands of innocent
colombians will die when the pentagon etc attempt to 'experiment' with
all
their new 'sarin' gasses and who knows what else. Even now the 'fumes'

manipulate world and space.

going to get us into an inter-planetary conflict if we are not careful

Many others in the book agree and are VERY VERY CONCERNED! As am I!

Your energy could much better be used in organizing demonstrations and

The time for demonstrations is getting less and less. The powers that

need a 'war' to keep us 'diverted' and our next gulf of tonkin will

His wife says he (Lehder) is selling drugs to the Russians FOR THE CIA!

I appreciate you for what you are saying, and I agree, it would be a shame. But I have considered it carefully, and I imagine if you read the testimony of the over 400 top level of in the DISCLOSURE book -- YOU WOULD BE OUTRAGED!!! AND PROBABLY GO ON A HUNGER STRIKE TOO!

I have deleted and moved some stuff around and 'quickly' put together a page for her and with the WHO question at the top, people from your show tonight should find it quickly.

She, or you could look and email me back on how to 'clean it up'. There are carriage return line feeds which can be removed for easier reading and I can add a counter for that page specifically to see how many hits her page alone gets.

I won't be able to get back to this until wround 7:30-8 PM my time EST USA as supper is boiling now and I'm having to squeeze more than 2GB of stuff onto less than 50MB of free space. I NEED my job back. ;-)) I should probably take Mr. Vega up on his offer to host my site.

Anyhooo... I should have space for more text if she or you has any. I deleted some 'puff stuff' I had on the site and it still does everything that I need it to do for me and the cause of disclosure and the battle with CCC.

Take a look and tell me what you think.

The website address of the main page would be easier for people to remember:

It just 'flows' when you say it, members.tripod.com slash rhw007...make sure to say its ZERO not O! people WILL type o and zero if you say o.

cool quote below I left in the page, where is it from or would you want that there also?

We just moved in and violated all the rules. We didn't have the procedures. They (Congress) knew the bills would be paid, and if one were asked to do something by Schiever's group, a company say, they knew they were going to get paid and everything was alright.

They went ahead and did the job.

Its been a chaotic 24 hours here - the server has mis-behaved all day and I've only just gotten back on line and recieved Randle's confirmation for tonight - haven't heard from Pflock yet.

Re: Lara lets do this.

Every long weekend [its a 'Civic' this weekend here] we do a Monday night version of the program - same time same..... Tonight, lets talk Marcia Smith etc., and set-up Lara story and then announce she'll guest for Monday night's program.

I hope this works for you both - I'm really under the gun tonight.

Trust you understand, talk to you in a couple of hours,

Errol

I would especially like to see these outside the White House and whe
Bush or Cheney appear to make a speech or hold a fund raiser. This i
probably the only way that effective pressure can be brought to bear
our
government.

Mr. Huffer, I am sorry to say, except for the anti-globalizaation fo
which the administration are taking VERY SERIOUSLY, for the rest --
don't listen, unless you have over 100,000 people. Your government i

Several months ago I wrote a letter to VP Cheney and 20 July 2001 I
a reply from his office that had NOTHING WHATSOEVER to do with the l
I
wrote. This in spite of the fact that my Congressman wrote a persona
cover
letter to the VP. Unfortunately, my Congressman will soon become hea
of the
Drug Enforcement Administration and we will have no Congressman for
months.

I imagine then your congressman is Mr. Asa Hutchinson! Well Mr. Hutc
has been very well chosen -- because he (and Mr. Mueller (FBI) -- ar
the
two US attorneys who covered up the biggest drug dealers in American
History.
Hutchinson refused to indict Barry Seal for Mena see:

Mr. Mueller, was the US attorney who 'prosecuted' Noriega,
and refused to let noriega testify as to how he worked for the CIA!!
