

nologically inferior people. The inferior is usually subject to physical conquest.

b. "in confrontation between two peoples of significantly different cultural level, those having the inferior or less virile culture ... are usually absorbed by the other people."

Conclusion: "Investigation would be geared to developing adequate defensive measures in a minimum amount of time."

The Final Establishment that, "it would seem a little more of this survival attitude is called for in dealing with the UFO problem," I believe it should sound now as a warning to Congress: **it would seem a little more of a survival attitude is needed - to prevent rather a space war in time, than concentration only for UFO research.**

1970 - Covert Arms Race in Space Beyond the Salts

It is quite obvious that on the Summit Conferences the Earth's two Superpowers have always a common platform: **To coordinate Humanity's Destiny on the Earth.**

So far the superpowers' "peaceful space exploration" had secretly established also their **total armed insufficiency to overcome the UFO forces.** This fact on both sides demanded to produce effective **Space Arms** - as suggested the NSA report **"in a minimum amount of time."**

But, secure to it the necessary world wide cover-up, and to distract the public's suspicion, a humanitarian gesture was heralded - the Salt, the Strategic Arms Limitation and Reduction of conventional nuclear weapons. Since 1970 during the Marathon Talks in Geneva, the USA and the USSR secretly switched over their nuclear and Laser weapons production for a space defense. To blintfold the public as Kenneth Arnold had called UFOs **"Flying Saucers"** - now the SDI (Strategic

Defense Initiative) became nicknamed a la Hollywood, **"Star Wars"** - That is the way it is ... Ladies and Gentlemen, to reach the **"Stars"** through H.G. Wells: **War of the Worlds.**

Now for evidence let us cast a cursory glance at the USA's and USSR's **Arms Limitation Agreement**, signed on September 30, 1971, by Secretary of State William Rogers, and Foreign Minister Andrei Gromyko for **"Unlimited Duration"**. (The copy of the Agreement originated from the Japanese Diet's Reference Library, by courtesy of Tokuo Moriaki, President of the Japan UFO Political Party).

Its paragraph No. 3 sounds: "The parties undertake to notify each other immediately in the event of detection of missile warning systems of **unidentified objects**, or in the event of **signs of interference** with these systems or with related communications facilities (widely known during UFO operations), if such occurrences could create risk of outbreak of nuclear war between two countries."

How it works? That is the question ...

January 12, 1972, at 8:45 p.m. A young couple William and Sherry Eckhardt, overheard during a phone conversation with Sherry's mother how a **NORAD RED ALERT** snarled up on the line. Air Force bases were alerted because 2 F-102 and allegedly 2 UFOs were downed in a dogfight over the Pacific. Quotations of the conversation:

"This is NORAD - We have a Red Alert - Interceptors have been sent - Moscow has been notified - Fighters have made visual contact - Get the President on the line - Go ahead Mr. President." The Eckhardts recognized President Nixon's voice.

The Eckhardt family letter is a sincere objection on the Pentagon's **"Baffling Alert"** issue, when stated "we never claimed what we heard was true or not, only that we heard it."

1978 - Hostilities Escalated to a Potential threat

Within 10 years the UFOs created security problem escalated to a dangerous level for our national/international security - the potential threat. Its reason was that our hostile armed confrontation elicited from the UFO forces their potentially hostile defense.

Dr. Michael Michaud, 39, career diplomat and deputy director of the Office of International Security Policy of the State Department, during an internal conference warned on June 1978, that

"Aliens from other solar systems are a potential threat to us, and we are a potential threat to them."

The second part of the statement clearly indicates, that in 1978, the covert arms race in space had progressed so far that the Pentagon was ready to repel any invasive attempt against our Celestial Body.

At the same time Irvin Picus, the Deputy Director of the Office of Space Affairs remarked:

"Contact with other-world beings is something that would have tremendous repercussion if it happened and we were not prepared."

The meeting was silenced by the news media, but revealed in the National Enquirer. We accepted the tabloid's quotations, with certain reservation. Thus on July 25, 1978, I personally interviewed Dr. Michaud at the State Department in Washington DC. He verified **"word by word"** that his statements were genuine as published in the Enquirer.

I was panicked - Could it be true that the war of the planets already shadows upon the threshold of humanity?

1981 - Problem must be solved The Silenced White House

On Congresses, Conferences, Symposiums, thousands of experts, and over four decades every human all over the

world, are talking and talking about the UFOs - but no one likes to do anything at all! This is the real UFO problem, NOT THE UFOs!

"Oh my Godness what's about ...?" are the usual reactions. But that God is far away from us, and the problem is in front of our door!

During my **UFO Crusade** in Western and Eastern Europe, where I advocated for a realistic solution of the global security problem posed by UFOs, - the military and governmental authorities declared in unison, that they will join, but the USA and USSR MUST ACT FIRST!

On February and repeatedly in September of 1981, the ICUFON - IGAP - DUIS e.V. Memorandum, equipped with the U.S. Government's (Pentagon, Congress, CIA, FBI etc.) **OWN declassified "UFO Guns"**, attacked the White House. Its aim was to call the one of the **Mighty Power** to initiate the solution of the UFOs crucial problem.

On November 21, a horrifying confirmation arrived from the National Security Council. It was signed by the Military Adviser of the Council and the White House: General Robert Schweitzer.

"The President is well aware of the threat you document so clearly, and is doing all in his power to restore the national defense margin of safety as quickly and prudently as possible."

Is any further comment necessary? YES! - General Schweitzer was removed from the Council, and declared that his letter on the UFO problem had been a **"mistake"**!

Mistake? - YES, it was a mistake! - He accidentally disclosed three years earlier the **United States' and the Soviet Union's covertly discussed War Declaration to the Galactic!** Namely he as Adviser was obviously present at the discussions.
