Dear Mr. Bray,

One of our readers has written to ask the date of the publication of the "Project Magnet" report, which the Center has been making available in reproduction for some time. The date of 1950 in our publications catalog is an obvious error, and I assume the correct date to have been either 1953 ← *correct* or 54. Do you know the date? The copy we have was sent to Sherman Larsen out of the blue, in a "plain, unmarked wrapper" and he knows no more about it than the reference and inferred date in Wilbert Smith's "The Boys from Topside."

Would you be kind enough to share any information you have on the date and details of the report. I enclose a copy of our publications catalog, with a description which may or may not be accurate. Would you cast a glance at it also and let us know of any errors?

Thank your very much indeed. I am sending under separate cover a copy of "The Hynek UFO Report."

Sincerely,

Mimi Hynek
Mrs. J.A. Hynek
