WHAT ARE UFOs?

The term UFO (Unidentified Flying Object) defined is: any phenomenon detected in the atmosphere for which the observer(s) have no immediate logical explanation in terms of natural events or phenomena.

To answer this question, all we can possibly say at this point is that we have no logical explanation. Most UFO reports turn out to be either balloons, airplanes, aerial gases, or hoaxes, but there is a large percentage of hard factual sightings such as daylight close encounters, objects tracked visually and on radar at fantastic speeds, physical traces found after a close encounter with a UFO, and the list goes on....

These hard factual cases cannot be explained currently by anything we know.

UFO literature can be found almost anywhere. There are virtually hundreds of books available to the public as well as a great deal of publications. Recently UFO CANADA was created to undertake a task of reporting and researching into the phenomenon in Canada as well as the rest of the globe.

UFO CANADA is a monthly publication in black and white offset printing, at a size of 8½ x 5½ inches. With a minimum of 10 pages per issue, UFO CANADA will contain various articles of case histories in Canada, feature articles, the Canadian and world saucer scene and UFOlogy Today will bring you up to date with current subject related news from around the world. Photographs, maps, drawings, charts are also included.

If you are interested in knowing more on the UFO scene in Canada and the rest of the world, UFO CANADA is for you! Subscribe today and don't miss out on anything!
