31 October, 1971.

Dr. Peter M. Millman,
Astrophysics Branch,
Radio & Electrical Engineering Division,
National Research Council,
Montreal Road, Ottawa, K1A 0R8

Dear Dr. Millman:

I presume you are back in harness again, although "retired". I am sure the relinquishing of your administrative duties and responsibilities has relieved you of a burden which allows you to concentrate entirely on matters scientific. I trust you had a pleasant visit in Europe.

Concerning your letter of July 16, as the paper on "Les Ecuriels Iron Mass" has now been published, would you be good enough to send me three or four copies?

In a recent visit to Chicago, I had a chat with Dr. Allen Hynek and he told me he delivered a lecture on UFOs at the Institute of Theoretical Astronomy at Cambridge, England a short while ago, where he found much interest in the subject among certain of the scientists there.

With best wishes.

Yours sincerely,

Arthur Bray
