CONSEIL NATIONAL DE RECHERCHES DU CANADA

OTTAWA 7. K1A 0R8

November 8, 1971.

Mr. Arthur Bray,
1187 Agincourt Road,
Ottawa, Ontario.
K2C 2H8

Dear Art:

In reply to your letter of October 31, I am enclosing 6 copies of the report by E. Smith entitled "Examination of Samples from Metallic Material from Les Ecureuils, Quebec".

I was interested to hear you had had a chat with Allen Hynek. I am carrying on with my research here at the Council and my address will be the same, but of course I am no longer in charge of the Meteor Centre. I understand that the procedures in force when I was Head of Upper Atmosphere will likely be continued at least as far as the UFO's are concerned. My new phone number is 993-2490.

Sincerely yours,

Peter M. Millman.
