CUBA

Information below was issued by Peter GERSTEN, Attorney at Law, who under the FREEDOM OF INFORMATION ACT by Court Judgement forced the U.S. Government, Pentagon, and Intelligence Agencies to DECLASSIFY WITHELD and SECRET UFO DOCUMENTS.

Abstract: CUBAN - SOVIET MIG-21 (UM E76) JET DISINTEGRATED BY UFO

Intelligence Report to the U.S. National Security Agency (NSA) of the Air Force Security Service (AFSS), 6947th Security Squadron's Detachment A, - located at Key West Naval Station, Florida.

Origin: statement of a Security Specialist of one of the Detachment A Group (name witheld for security reason), positioned on the Boca Chica Key Island,- east from Key West, 97 miles from Cuba. The group monitors the Cuban Air Force operation, communication and radar trasmission.

- * -

In March, 1967, the Cuban radar air defense control reported a "BOGEY" - UFO - nearing at an altitude 10,000 meters with a speed of 650/mph. the NE cost of the Cuban airspace.

Two MIG-21 jet fighter were ordered by the Cuban Air Defense to intercept the object, which was radioded by the flight commander as a bright metallic craft(consult U.S.Capt Thomas Mantell disaster on Jan.7, 1948) within a spherical envelop. No national insignia or additional details were visible from the distance of 5 km.

When the radio communication failed - as usual - the Cuban Air Defense Command ordered to the flight leader:

DESTROY THE OBJECT!

(The MIG-21 is equipped with the K-13A air-to-air type missiles.)

Seconds later the wingman screemed to the control station that his flight leader's jet had exploded! - Further communication cleared up that the jet had desintegrated because no smoke or flame was visible.

The UFO climbed forthwith up to 30,000 meters, heading to SSE toward the south American continent.

The National Security Agency (NSA) directed at once to trasmit all the tapes with the relevant data recorded on the incident. 15-20 members of the Detachment A were fully informed about the unusual event, which became to light ten years later by a witness, who disagrees with the U.S. government's policy to silence and suppress a potential threat steeming from outer space.
