

UFOs: The Hidden Truth

Unidentified Flying Objects have been recorded in various forms since the creation of man: drawn crudely on Stone Age murals...chiseled in Egyptian stone...noted in the journals of ancients like Alexander the Great...even described in the ship's log of Columbus.

Just hours before he landed in the new world, Columbus made note of a bright object flying from the sky into the water and then exiting to return to the skies.

How should Christians view these growing evidences of contact from beyond...of sightings, face-to-face encounters, even alleged abductions?

Many photographs of UFOs remain unexplained.

More than a stunning catalog of actual photography, video, and eyewitness recordings. Hear startling scriptural evidence from scholars like Dave Hunt (*The Archeon Conspiracy*) and I.D.E. Thomas (*The Omega Conspiracy*) which reveals the hidden truth about UFOs and the beings who operate them.

The modern era of "flying saucers" began on June 24, 1947, with Kenneth Arnold's sighting of nine UFOs over the Cascade Mountains.
