Tucson, Arizona 85712,
U.S.A.

Dear Sir:

I notice from the Bulletin that APRO apparently has no Representative for Canada and was wondering whether there is a particular reason for this omission.

I have no idea as to what the responsibilities of your representatives may be, but if you wish to designate one for Canada, perhaps I could be of service to APRO.

Living in Ottawa, I have access to federal government offices more readily than persons living elsewhere, and I have personal contacts with various people, including Dr. Peter Millman who is head of Canada's "official" investigations for our government, and I have been granted free access to his files, a privilege I have made use of on several occasions.

If you think I may be of any help in this respect, please let me know as I am anxious to be of assistance if I can.

I hope, also, that I will soon hear from you concerning my letter of 30 November 1970 and the matter of our "chunk of metal".

Very sincerely,

Arthur Bray
Field Investigator
