Mr. Arthur Bray,

Dear Mr. Bray:

Just a note to see whether or not you have had any success in meeting with Dr. Millman regarding the Michalak and Charleswood cases.

We have been successful in securing Mr. Michalak's medical report and we wish to couple this with whatever information can be gleaned from the National Research Council. I would like to visit Ottawa and the NRC perhaps on the July long weekend. Can you enquire and ascertain if the UFO files are available for inspection on weekends? If not, I will have to make other arrangements and try to get there during the week.

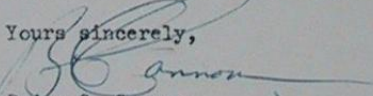

The May bulletin is in the mail and I trust our write-up on your excellent book meets with your approval. Basically, we used the material in your brochure however we do agree with these remarks and hope that our publicity will result in more sales.

Has there been much activity in Eastern Canada this year? We have had very few UFO reports from our Eastern members although there have been several good reports from this side of the country.

I received a letter from Dr. Roy Craig of the University of Colorado who informed the UFO Project has wound up its active program and will now compile the information available to submit to the powers that be. Hopefully we will hear the results by the end of the year however I shudder to think what their recommendations will be.

I'll look forward to hearing from you.

Yours sincerely,

Brian C. Cannon,
Director.
