is exclusively in the hand of the military forces all over the world. Over 30 years they were never interested on the private UFO research, which try to monopolize the global UFO problem for their own PROFIT(!) - and encourage (let me laugh) to take over the problem in their own hand from the Pentagon! (Read CAUS+ Gersten's Ultimatum to Pres. Reagan!)

Regarding your question:

1/ Press coverage of the Pres. Memo and National Security Council response, the news media silenced and suppress both Press Releases. You may read them. Enclosed.

General Coverage: The News World; the Globe; Neue Zeitalter, Europe; Mundo Desconocido, Spain; Cuarta Dimension South America, Argentina; UFO and Space, Japan. ALL FAVORABLE and SUPPORTIVE.

4/ We are using the rubber stamp, when our P.Releases are suppressed by the media, which is not willing to publish anything without asking the government's authorities. Read my big fight with AP and our letter addressed to Gen. Schweitzer. What is the truth that Gen Schweitzer informed the AP that his letter issued by the NSC was a "mistake"? Nothing else that the NSC tried to revoke the statement. But we had a a SECOND GUN TO RESHOT THE NATIONAL SECURITY COUNCIL - the State Department issue which was published and controlled its validity!

Dear Art: I inclose you not rubberstamped documents also for as enclosures to your Memorandum to Prime Minister Trudeau. I believe you as a former AF captain you have good connection toward the gvmt. to talk over your action, before you submit. You know how you have to do it.

When might be a conference would be necessary do not hesitate to call me, I could go over to see you. My son is Univ. Professor in Montreal Concordia University.

Friendly yours,

C.S.VonKeviczky,
