January 28, 1976.

Dr. A. G. McNamara,
Head, Upper Atmosphere Research,
Hertzberg Institute of Astrophysics,
National Research Council,
Montreal Road,
Ottawa, Ontario.

Dear Dr. McNamara:

It has been reported that you recently appeared on a national TV News program with Dr. Alan Hynek and that you stated, in effect, that UFOs are a problem worthy of greater scientific study.

Would you be good enough to confirm whether this report is correct and perhaps elaborate somewhat on what you actually stated.

Thank you for your co-operation.

Yours truly,

Arthur Bray.
