

24 September 1986

Freedom of Information Act Request
(5 U.S.C. 552)
Defense Investigative Service
1900 Half St., S.W.
Washington, D. C. "
20324-1700

Dear Sirs:

Please note your response (see enclosure A), to my request (see enclosure A1).

In the absence of any statement to the contrary, I must presume that I am under investigation for possessing a copy of this document (see enclosure B) for which I DID make a request to you for authentication thereof (see enclosure C).

On September 18, 1986 Mr. Ron Regehr was interviewed by agents Joe Moussiaux and Mat Bartenelli representing the Defense Investigative Service. I was present at part of this interview in which (again) questions were asked about this document (see enclosure B).

Mr. Regehr was also asked about a drawing (see enclosure D) I had asked Mr. Vincent DePaula to draw for us. I have alleged that a creature that looks like this was found in the wreckage of a crashed flying saucer which was found in the New Mexican desert in July of 1947. The interest your agents showed in xeroxing a copy of this document (see enclosure A) and in xeroxing this drawing (see enclosure D) has created among fellow workers a feeling that there exists substance to the rumors related to this material.

Seeing that it was stated to me by the above agents, that I had already been investigated (i. e. for my part in attempting to authenticate this document by informing you of its existence), I respectfully request-

1. The releasable contents of the file (and purpose for) you having begun such an investigation (see enclosure A1).
2. A complete uncensored copy of the document (see enclosure B), and an Official statement as to this documents authenticity.
3. The specific reason why your office is so interested in the drawing of the little alleged Alien (see enclosure D).

Thank you, for your time, Sir.

Sincerely

Lee M. Graham
