Arthur Bray
1187 Agincourt Road
Ottawa, Ontario,
Canada K2C 2H8

Dear Arthur,

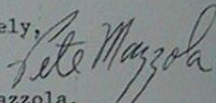

Just a brief note in order to personally thank you for your participation as one of our guest speakers. Your lecture was fantastic as well as totally interesting,

Good friends, especially in ufology, are difficult to find, therefore, should you ever need anything from either the SBI or myself please do not hesitate to either call or write, since I feel you and Mrs. Bray have shown your friendship merely by attending our symposium.

I realize not all went as expected, nor was the attendance as high as anticipated. However, it was a successful affair for us and we have certainly learned much from our mistakes. Hopefully, 1984 will prove that we do know how to hold a convention since we are striving for better publicity and a record breaking crowd of 1000 or more,

Once again, I thank you and Mrs. Bray and may God bless you both until our paths cross again...

Sincerely,

Pete Mazzola,
International Director,
